2 SOUTHERN DISTRICT OF NEW YORK  
3 -----x

4 UNITED STATES OF AMERICA,

5 v.

S2 14 Cr. 810 (CM)

6 MOSHE MIRILISHVILI,

7 Defendant.

Trial

8 -----x  
9 New York, N.Y.  
10 March 8, 2016  
11 10:02 a.m.

12 Before:

13 HON. COLLEEN McMAHON,

14 District Judge

15 APPEARANCES

16 PREET BHARARA

17 United States Attorney for the  
18 Southern District of New York

EDWARD DISKANT

BROOKE CUCINELLA

19 Assistant United States Attorneys

20 HENRY MAZUREK

21 WAYNE GOSNELL

22 Attorneys for Defendant

23 ALSO PRESENT: MICHAEL MULLER, DEA

24 ELIZABETH JOYNES, Paralegal

25 MICHAEL DOMANICO, Paralegal

G38LMIR1

1 (Trial resumed)

2 (Jury not present)

3 THE COURT: True confessions. I pulled a muscle in my  
4 shoulder this morning while working out and I'm in excruciating  
5 pain. So I will try not to be too crabby but I really hurt.

6 OK.

Correa - cross

1 (Jury present)

2 THE COURT: Good morning everybody. I'm confessing to  
3 you because I'm confessing to everybody else. I pulled a  
4 muscle at the gym this morning, so I'm in a world of hurt and I  
5 will try not to be too crabby today. OK.

6 Sir, you are still under oath.

7 Counsel.

8 MR. MAZUREK: Thank you, Judge.

9 THE COURT: The floor is yours.

10 MR. MAZUREK: Thank you.

11 ABRAHAM CORREA, resumed.

12 CROSS-EXAMINATION (cont'd)

13 BY MR. MAZUREK:

14 Q. Mr. Correa, I'd like to take you back to 2012 this morning.  
15 And you said I think yesterday on direct examination that you  
16 were working with a fellow by the name of Ray Williams who you  
17 also called Obama; isn't that right?

18 A. I wasn't working with him. He introduced me to the game.

19 Q. Well, when you said he introduced you to the game, that  
20 meant that you were told by Mr. Williams about how to obtain  
prescriptions for oxycodone, is that what you're referencing?

22 A. Yes.

23 Q. And when you say you weren't working with him, you weren't  
24 having to pay him any money for the things you were doing?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. But he introduced you to how to get a patient visit with  
2 pain management doctors, right?

3 A. Yes, he did.

4 Q. And he told you what you needed in order to fool the  
5 doctor, right?

6 A. To fool is an understatement. To fool means he didn't know  
7 what was going on at the time, which is inconclusive.

8 Q. I don't know what you mean by inconclusive, but let me ask  
9 you this. What Mr. Williams originally told you was that you  
10 needed to get an MRI and a referral, is that some of the  
11 paperwork that you needed?

12 A. Yes. He said we needed that because that way we can get a  
13 guarantee that we would get a oxycodone prescription.

14 Q. So you needed to get that paperwork, right?

15 A. Yes, we did.

16 Q. And it had to look good so that the doctor would believe  
17 that it was real papers, right?

18 A. Yes.

19 Q. And in fact, you were willing to spend a lot of money to do  
20 that, \$500 for each referral or MRI, right?

21 A. Yes.

22 Q. And that was money that would be coming out of your profits  
23 from your drug business, right?

24 A. Yes, it was.

25 Q. And Mr. Williams also told you that when you go in to see a

G38LMIR1

Correa - cross

1 doctor that you have to answer questions in a certain way,  
2 right?

3 A. No, because there really wasn't any question that were  
4 really asked.

5 Q. Well, you had to say that you were in pain from an injury,  
6 correct?

7 A. Negative.

8 Q. That's not true?

9 A. That's not.

10 Q. Well, each and every time that you saw Dr. Mirilishvili, at  
11 least in the initial patient visit, we'll start with that, you  
12 would lie to the doctor and say you were in pain, correct?

13 A. Incorrect.

14 Q. Well, sir, the day of your arrest on May 1 of 2014 in this  
15 case, you were immediately sat down and asked a bunch of  
16 questions by a bunch of DEA agents and NYPD detectives, right?

17 A. Yes, I was.

18 Q. And that was just really shortly after you were picked up,  
19 late in the afternoon on that day, right?

20 A. Yes.

21 Q. And at that point in time, that was in 2014, that was  
22 closer in time to the events that we're talking about today,  
23 two years later, right?

24 A. Yes, it is.

25 Q. And when you were answering those questions, you were at

G38LMIR1

Correa - cross

1 that point in time thinking that you needed to help yourself by  
2 answering the questions that are being asked, right?

3 A. Yes.

4 Q. So you were giving answers as truthful as you could be at  
5 that point, right?

6 A. Yes, I was.

7 Q. And isn't it true -- and I refer now counsel and the Court  
8 to 3501-22, page 2 of that report. You were asked the question  
9 about what you said to Dr. Mirilishvili in your patient visit.  
10 And you said, sir, to the agents on May 1, 2014, that you would  
11 lie to Dr. Mirilishvili and say you were in pain. Isn't that  
12 true?

13 A. I can't recall what I said two years ago exactly.

14 Q. Would you like to see it in a report, would that help to  
15 refresh your recollection, sir?

16 A. Yes.

17 MR. MAZUREK: Your Honor, may I approach?

18 THE COURT: You may.

19 Q. I'm showing the witness what has been premarked for  
20 identification as 3501-22.

21 THE COURT: OK, sir, this document is not in evidence  
22 and you're not to read from it to the jury. You're just to  
23 look at it and see if it jogs your memory about what you said  
24 two years ago.

25 MR. MAZUREK: Thank you, Judge.

G38LMIR1

Correa - cross

1 Q. I'm going to direct your attention to the last line of the  
2 first paragraph. Read that to yourself and when you're  
3 finished, let me know.

4 A. I'm done.

5 Q. Isn't it true, sir, that the day of your arrest, May 1,  
6 2014, you told the arresting agents and officers that you would  
7 lie to Dr. Mirilishvili and say you were in pain?

8 A. Yes, according to what it says on the paperwork.

9 Q. And each and every time that you visited Dr. Mirilishvili's  
10 office, the doctor would ask you questions about whether you  
11 were in pain and he conducted a physical examination?

12 A. Not that I can remember, no.

13 Q. Well, again, on May 1, 2014, at that same debriefing with  
14 the agents and the officers, isn't it true that you said to the  
15 agent at that time, the day of your arrest, each and every time  
16 you visited Dr. Mirilishvili, he would ask Correa pain  
17 questions and conduct a physical examination?

18 A. Not that I can remember.

19 THE COURT: OK.

20 A. If I did state it, I stated it because I might have not  
21 been at the state of mind, being that I had just got arrested,  
22 I wasn't thinking clearly.

23 Q. You weren't thinking clearly. But today you're thinking  
24 clearly because now you have a cooperation agreement, right?

25 A. No, because now the truth is that now I'm starting to

G38LMIR1

Correa - cross

1 remember a lot of things. Some things I don't remember, some  
2 things I do.

3 Q. So two years later your story changed from the story that  
4 the answers you gave on the very day of your arrest on May 1,  
5 2014; is that what you're saying?

6 A. No.

7 Q. Your story hasn't changed?

8 A. I just don't remember everything from two years ago.

9 Q. Sir, pick up the document in front of you again. That's  
10 not in evidence. Don't read it out loud. If you look at that  
11 first paragraph, the sentence --

12 THE COURT: Not the sentence because you're not going  
13 to read it out loud either.

14 Sir, look at the first paragraph of that document.  
15 Does it jog your memory? You say you don't remember. Does  
16 this cause you to remember or not?

17 THE WITNESS: Not really Judge, no.

18 THE COURT: Fine. Move on, please.

19 MR. MAZUREK: Thank you, Judge.

20 Q. On May 1, 2014, when you were arrested, sir --

21 A. Yes.

22 Q. -- and you were asked questions by the DEA agents and the  
23 officers --

24 A. Yes.

25 Q. -- at that point in time, you didn't yet have your

G38LMIR1

Correa - cross

1 cooperation agreement, right?

2 A. No, I did not.

3 Q. And but you were thinking about the fact that you're busted  
4 now and it could be your third offense, right?

5 A. No, not necessarily. I wasn't thinking that at all.

6 Q. You agreed to answer questions immediately upon your  
7 arrest, right?

8 A. I don't remember.

9 Q. You don't remember. You don't remember being arrested?

10 A. Yes, I remember being arrested, but I don't remember being  
11 questioned immediately.

12 Q. You were questioned that same evening?

13 A. I believe so.

14 Q. And they asked you a lot of questions. There were a lot of  
15 agents in the room. There were about six or seven agents,  
16 right?

17 A. I can't remember how many there was.

18 Q. There was several, correct?

19 A. Yes.

20 Q. And they wanted to know what you were involved in and they  
21 said they had a lot of evidence against you already, correct?

22 A. Yes.

23 Q. They told you that you were on tape, that you were recorded  
24 by a confidential source, correct?

25 A. I don't remember that conversation.

G38LMIR1

Correa - cross

1 Q. You learned that, right?

2 A. Yes, I did.

3 Q. And they told you that you could only help yourself by  
4 answering questions truthfully, right?

5 A. Yes.

6 Q. And you answered those questions as truthfully as you could  
7 at that point, right at the time you were arrested, right?

8 A. Yes.

9 Q. Now, I'm going to back to 2012 now, two years before your  
10 arrest, again, with Mr. Williams. He coached you on the things  
11 that you needed to say during a doctor examination. Is that  
12 true?

13 A. No, not necessarily, because he told me there wasn't really  
14 no questions that were really going to be asked. He told me  
15 that the doctor would read my MRI and he would instruct me what  
16 the problem I was having.

17 Q. You've been, before you went to Dr. Mirilishvili, you've  
18 been to doctor visits before, correct?

19 A. Yes, I have.

20 Q. You've suffered injuries in the past?

21 A. Yes.

22 Q. What kind of injuries?

23 A. I had a broken hand and dislocated finger and operation for  
24 my spinal cord.

25 Q. When was the operation for your spinal cord?

G38LMIR1

Correa - cross

1 A. About 1985.

2 Q. And that was a result of an accident at work at a  
3 construction site?

4 A. No.

5 Q. What was it?

6 A. I have no idea. It's called scoliosis.

7 Q. And when, in terms of going to a doctor -- and you had a  
8 hernia before; is that right?

9 A. Yes.

10 Q. Two times?

11 A. Yes.

12 Q. And you also have diabetes, history of diabetes in your  
13 family?

14 A. Yes.

15 Q. And these are the kinds of questions that a doctor would  
16 typically ask in a patient examination, correct?

17 A. Not all doctors. I've never been asked those questions in  
18 previous doctors that I went to, no.

19 Q. But Dr. Mirilishvili asked those questions during your  
20 patient exam, right?

21 A. Vague questions, yes.

22 Q. I'm sorry?

23 A. Vague questions.

24 THE COURT: He asked those questions about diabetes  
25 and about family history, did he ask you those questions, yes

G38LMIR1

Correa - cross

1 or no?

2 THE WITNESS: Yes.

3 THE COURT: Good. It will go much faster, Mr. Correa,  
4 if you respond to questions yes or no. He's going to ask you  
5 questions that can be answered yes or no. He's not going to  
6 ask you any other kind of questions is my prediction.

7 MR. MAZUREK: How do you know?

8 THE COURT: Good guess. So if you answer the question  
9 yes or no, it will all move much faster.

10 MR. MAZUREK: Thank you, Judge.

11 Q. Now, before you went to Dr. Mirilishvili, you were looking  
12 at other doctors and were told by Mr. Williams to go to a place  
13 called Astro Med, right?

14 A. Yes.

15 Q. That was another clinic that was located in the Bronx,  
16 right?

17 A. Yes, it was.

18 Q. And you tried to get an appointment there to do the same  
19 thing that you tried to do with Dr. Mirilishvili, which was to  
20 try to get a prescription of oxycodone, right?

21 A. No, I did not.

22 Q. You didn't, that wasn't your purpose of going to Astro Med?

23 A. No, I went, but I didn't get an appointment. I didn't like  
24 the atmosphere.

25 Q. You didn't like the atmosphere. Well, but that was what

G38LMIR1

Correa - cross

1 you were intending to try to do when you attended that clinic,  
2 right?

3 A. Yes.

4 Q. But you didn't get an appointment?

5 A. No.

6 Q. So Mr. Williams directed you to another doctor and that was  
7 Dr. Mirilishvili?

8 A. Yes.

9 Q. And you also went later to a third doctor, a Dr. Lucas,  
10 right?

11 A. Yes, I did.

12 Q. So there were a number of doctors, pain doctors out there  
13 that you heard from different people like Mr. Williams about  
14 who to try to go and get oxycodone from, right?

15 A. Only from Mr. Williams, yes.

16 Q. That's the only person you referred to in order to try to  
17 get that information, right?

18 A. Yes.

19 Q. And later you learned that Mr. Williams, I think you said  
20 on direct examination became friendly with Dr. Mirilishvili,  
21 correct?

22 A. Excuse me?

23 Q. Mr. Williams was friendly with Dr. Mirilishvili, right?

24 A. Yes, he was.

25 Q. Because part of the game, as you call it, sir, is for

G38LMIR1

Correa - cross

1 people like Mr. Williams and yourself to become friendly with a  
2 doctor to see if you can do things that can help you in your  
3 business, which is to obtain the scripts to sell, right?

4 A. Yes.

5 Q. When you went to Dr. Mirilishvili, you were able to get an  
6 appointment, right?

7 A. Yes, I was.

8 Q. And that was in, I think we saw yesterday, in September of  
9 2012, correct?

10 A. Yes, it was.

11 Q. And at that point in time, Dr. Mirilishvili was working at  
12 a group clinic in the Bronx, right?

13 A. Yes.

14 Q. He wasn't in Washington Heights where you ended up working,  
15 right?

16 A. No, not yet.

17 Q. And he was there, he was renting space along with other  
18 doctors, correct?

19 A. Yes, he was.

20 Q. And you got the appointment by talking to his secretary, is  
21 that right, Ms. Oneida Hernandez?

22 A. No, I did not.

23 Q. How did you get the appointment?

24 A. Raymond Williams had made the appointment for myself.

25 Q. So he already helped schedule the appointment for you?

G38LMIR1

Correa - cross

1 A. Yes.

2 Q. And you purchased the MRI and the referral and you had that  
3 with you as you went to the doctor, correct?

4 A. Yes, I did.

5 Q. Now, you said yesterday when you went into that patient  
6 visit, the doctor read your MRI, correct?

7 A. Yes, he did.

8 Q. Now, the MRI indicated that you had a herniated disc; is  
9 that right?

10 A. I believe so. I had a problem with my lower back.

11 Q. Now, the notes of that visit, sir, however, indicate that  
12 you indicated to the doctor that you had shoulder and neck  
13 pain; isn't that right?

14 A. Negative.

15 Q. If we could put what's already admitted into evidence DX205  
16 on the screen. And as we do that, sir, you never met  
17 Dr. Mirilishvili before this visit, correct?

18 A. Before my visit?

19 Q. Before your initial visit at the Bronx clinic in  
20 September 2012?

21 A. Before my visit I was only taking patients to see him.

22 Q. You were already taking patients before you went yourself?

23 A. Yes.

24 Q. And those were patients that you obtained, you were working  
25 with Ray Williams at the time?

G38LMIR1

Correa - cross

1 A. Yes.

2 Q. So other people -- and how do you recruit patients, sir,  
3 what's your method?

4 A. I just offer them money to give me a service. That was  
5 all. I explained to them what they needed to do.

6 Q. And you explained to them you needed to provide them an MRI  
7 and referral letter?

8 A. Yes.

9 Q. And for each one you spent \$500 to do that?

10 A. Yes.

11 Q. And you told them they needed to explain that they had an  
12 injury that was consistent with the MRI?

13 A. No. I told them to have a seat when they go in, pay the  
14 doctor, and the doctor is going to read your MRI and then he  
15 will tell you what's going on.

16 Q. Well, you needed to let the patient know what it is that  
17 was said, read the MRI, make sure you understand that if you're  
18 asked if you have pain, you say you have pain, right?

19 A. Yes.

20 Q. Just like we listened to yesterday with Mr. Lantigua's  
21 visit when he was asked where he felt the pain, was it below  
22 his knee or above his knee, he said he had pain in both legs,  
23 in fact, right?

24 A. Yes.

25 Q. That's the kind of thing you would coach your patients to

G38LMIR1

Correa - cross

1 do, right?

2 A. I would just tell them to read the MRI so they would know  
3 exactly what the doctor might ask them.

4 Q. Now, you had been doing that for some time before you  
5 decided to try to get an oxycodone prescription for yourself?

6 A. Yes.

7 Q. Why didn't you go in first?

8 A. I don't know. I put somebody else first.

9 Q. Now, when you went in, then you already knew what your  
10 program was, right? You had already been using it with other  
11 people, right?

12 A. Yes.

13 Q. Now, you said to the doctor in addition to the back problem  
14 that you also had a neck, shoulder pain, right?

15 A. Negative.

16 Q. Let's go now to 205. Put that on the screen. I think we  
17 have a projector issue, but everyone has it on their screen.

18 OK. So let's look at GX205 and turn to the 12 page of that  
19 exhibit.

20 And, sir, because you worked with Dr. Mirilishvili for  
21 about 10 months, you got to know that some of the records that  
22 are kept, that were kept at his clinic were kept  
23 electronically, right, on the computer?

24 A. To my knowledge there was no records. I never seen the  
25 doctor put no records or notes inside the computer other than

G38LMIR1

Correa - cross

1 prescription he was handing out.

2 Q. But I mean you know you worked with Jomaris Javier and  
3 Damon Leonard and what they were doing was uploading documents  
4 on a computer all the time, you knew that?

5 A. Only the oxycodone prescription and the urine analysis,  
6 that's all that was being scanned, and their MRIs for the first  
7 patient visit.

8 Q. When you say being scanned, you know they were being  
9 scanned and uploaded onto a system on a computer, right?

10 A. Yes.

11 Q. Those were where the doctor maintained some of his records,  
12 the records that were uploading, right?

13 A. Yes, but there was never no notes taken by the doctor for  
14 all the visits I was in the room for or my own notes.

15 Q. Just yesterday, sir, you testified that while you were in  
16 the room interpreting for Jose Lantigua, as you called it,  
17 Dr. Mirilishvili wrote down notes on what you called sticky  
18 notes, right?

19 A. Yes.

20 Q. So you did see him take notes during a patient visit,  
21 right?

22 A. Yes, on a sticky note, but not on a computer.

23 Q. You don't know what happened after that sticky note, how it  
24 ever would get on the computer, do you?

25 A. No, I don't.

G38LMIR1

Correa - cross

1 Q. OK. I'm showing you what's been marked into evidence as  
2 GX205, and if we can blow up the top third of that page. Now,  
3 the print is kind of small so please bear with me.

4 This is, you see in the upper left the patient that's  
5 identified here is yourself, right, Abraham Correa?

6 A. Yes.

7 Q. And if you see the date of the patient visit, it's on the  
8 right hand column. It's September 6, 2012. Do you see that?

9 A. Yes.

10 Q. And under the heading of chief complaint, it says neck,  
11 left shoulder pain, discomfort, numbness, and tingling  
12 sensations, correct?

13 A. Yes.

14 Q. And did you tell the doctor that you had, your injury was  
15 suffered because you fell down some scaffolding stairs?

16 A. Yes.

17 Q. And did you tell him that you had to go to Mount Sinai  
18 Hospital in the emergency room because of that?

19 A. Yes.

20 Q. And you lost consciousness?

21 A. I don't recall saying consciousness.

22 Q. You were kept in the hospital for two weeks?

23 A. Yes.

24 Q. And you told him all this in your initial visit, right?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. And that was the source of the pain that you were feeling  
2 in your back and your shoulder and your neck, right?

3 A. No. In my back only, not my neck or shoulder.

4 Q. So if we look at under the subjective column on the  
5 left-hand side of the page where it says neck pain, it says  
6 daily, constant, sharp, shooting, burning, electrical, moderate  
7 to severe neck pain. Do you see that?

8 A. Yes.

9 Q. And do you remember yesterday when we were listening to the  
10 recording of the Lantigua visit?

11 A. Yes.

12 Q. The doctor asks questions when you're in the room -- you've  
13 heard them before -- about what kind of pain, is it a sharp  
14 feeling or is it electrical feeling, is it something that is  
15 dull or something that lasts a long time; do you remember those  
16 questions?

17 A. Yes, I did.

18 Q. And what he's writing here is the kind of pain, the answers  
19 to the questions you were asking at the patient visit, right?

20 A. He might have asked those questions to me, but it wasn't  
21 for no neck pain because I didn't have neck pain.

22 Q. So you're saying that he just made it up?

23 A. Yes.

24 Q. Even though the whole point, you're saying, of this game is  
25 that oh, it's he just puts down what's in the MRI and that's

G38LMIR1

Correa - cross

1 the end of it, right, isn't that the game as you call it?

2 A. Yes.

3 Q. So by him putting down neck pain, that doesn't fit your  
4 game, does it?

5 A. It fit my game because I got a oxycodone prescription.

6 What he wrote afterwards, I don't know why he wrote that  
7 because it's obvious in the paperwork that my MRI said I had a  
8 lower back problem. It never indicated nothing about neck or  
9 shoulder.

10 Q. Let's go, if we could go the full page again and blow up  
11 the objectives column. And do you see that on your screen,  
12 sir?

13 A. Yes.

14 Q. And under that it says, this is a 40-year-old Spanish  
15 American male patient who referred to our pain management  
16 clinic by PCP, primary care physician, and is seen today as an  
17 initial visit. Right?

18 A. Yes.

19 Q. And it says patient with long history of neck pain. You  
20 still don't remember saying that?

21 A. No.

22 Q. Secondary to an accidental falling, it says here from the  
23 scarf seers. Did you tell him that you fell from scaffolding  
24 stairs?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. Now, Dr. Mirilishvili you knew was an immigrant from the  
2 former Soviet Union, correct?

3 A. Excuse me?

4 Q. You knew that Dr. Mirilishvili was an immigrant from the  
5 former Soviet Union, correct?

6 A. No, I did not.

7 Q. You never talked to him at all in your ten months working  
8 there about his background?

9 A. No.

10 Q. His English wasn't perfect, correct?

11 A. Correct.

12 Q. And his written English was probably even worse, right?

13 A. Probably. I couldn't tell you.

14 Q. But do you see that phrase scarf seers, that's consistent  
15 with what you told him about scaffolding stairs, correct?

16 A. Yes.

17 Q. So you told him that, but you're saying that you never told  
18 him about neck pains?

19 A. No. There wouldn't be no reason for me to tell him about  
20 neck pain when my MRI read lower back problem.

21 Q. You were just lying anyway, right?

22 A. If I was going to lie, I needed to make sure my story stood  
23 to what the paper said.

24 Q. Well, you're lying about falling from scaffolding stairs.  
25 And then if we go down two lines, I'm sorry, keep that on the

G38LMIR1

Correa - cross

1 screen, the same objective section. It says that -- you see  
2 the fourth line down, following the accident, patient LOC,  
3 which may be loss of consciousness, and awaking in Mount  
4 Sinai --

5 MR. DISKANT: Objection to that, your Honor.

6 THE COURT: I'm sorry. Are you reading from a  
7 document not in evidence?

8 MR. MAZUREK: It's in evidence.

9 THE COURT: OK. What is the problem?

10 MR. DISKANT: The objection is to the characterization  
11 of LOC.

12 THE COURT: Excuse me. The objection is overruled.

13 Q. Following the accident, patient LOC and awaking in Mount  
14 Sinai Hospital where he kept two weeks for observation and  
15 later on discharged from hospital following a negative  
16 diagnostic test.

17 Do you see that?

18 A. Yes.

19 Q. And you told him that, right?

20 A. Yes.

21 Q. And that's why it's in the notes, right?

22 A. Yes.

23 Q. And that was a lie, right?

24 A. Yes.

25 Q. You told him that you had such a serious injury that you

G38LMIR1

Correa - cross

1 were in the hospital for two weeks, right?

2 A. Yes, because I need to make what was on my MRI look good.

3 Q. And you had a lot of pain as a result, right?

4 A. Yes, in my lower back.

5 Q. This is the first time you ever met the man, right?

6 A. Yes, face to face.

7 Q. He didn't know anything about you?

8 A. No.

9 Q. This is what you told him, right?

10 A. Yes, except for the part with the neck injury.

11 Q. That's the only thing that you're saying now that oh,  
12 that's not true, right?

13 A. Yes.

14 Q. The doctor just made it up?

15 A. Yes.

16 Q. OK. Now if we go down to the next line, again it says  
17 following, do you see that, following the discharge -- are you  
18 following with me -- sixth line down, following the discharge,  
19 a few days later the patient pains worsening. Patient visiting  
20 a PCP where after the evaluation referred patient for cervical  
21 and LS spine MRI. And since then placed on numerous  
22 rehabilitation and pain management therapeutic regimens  
23 including oxycodone.

24 Do you see that?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. So you told the doctor after you got released from the  
2 hospital, you went to your another doctor who evaluated you and  
3 said you needed an MRI, right, that's how you got the MRI?

4 A. I don't remember telling him that I saw another doctor  
5 after I came out of the hospital.

6 Q. Well, you came in with an MRI, sir, right?

7 A. Yes.

8 Q. And the MRI was from a radiology group called Open MRI of  
9 Rye, Greenwich, and Greater Northeastern Radiology Associates,  
10 right, or you don't remember that now?

11 A. No.

12 Q. Because that's just a document that you purchased off of  
13 Ray Williams, right?

14 A. Yes.

15 Q. And when it says that on the patient notes that after the  
16 evaluation by the doctors, you were referred for a cervical and  
17 LS spine MRI, do you know what a cervical MRI is?

18 A. For the neck, I believe.

19 Q. That's right. So did you tell the doctor that oh, you're  
20 also getting a neck MRI in addition to the one that you had at  
21 the time, which was the lower back MRI?

22 A. No, I did not.

23 Q. Again, you're saying that he just made that up, that's the  
24 one part that he made up?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. OK. And you told him that you were already on oxycodone,  
2 correct?

3 A. No, I did not.

4 Q. Well, according to the notes that you said you were  
5 already -- the doctor writes that you were on numerous  
6 rehabilitation and pain management therapeutic regimens  
7 including oxycodone?

8 A. No, I never said those words to him.

9 Q. In your referral letter did it indicate an oxycodone set of  
10 prescriptions? If we can go off this page and go to page 8.  
11 This is the referral letter that you purchased from Ray  
12 Williams?

13 A. Yes.

14 Q. And it's from a place called Active Life Physical Therapy,  
15 right?

16 A. Yes.

17 Q. And this is the doctor that you indicated referred you to  
18 Dr. Mirilishvili, that's the referral letter?

19 A. It's a referral letter, yes.

20 Q. And do you see the recommendation of the oxycodone HCL  
21 30 milligrams?

22 A. Yes.

23 Q. So does that refresh your recollection that you were  
24 telling the doctor that oh, I've already been taking oxycodone  
25 at this point in time?

G38LMIR1

Correa - cross

1 A. No, it does not.

2 Q. That was part of the game, wasn't it, that you're going to  
3 tell that you were already on it so the doctor would believe  
4 that you could be opioid dependent and would continue to  
5 prescribe it, right?

6 A. No, because I never said that to him that I was on  
7 oxycodone.

8 Q. You never heard that before, you never told your other  
9 patients to say that?

10 A. No.

11 Q. Yesterday when Jose Lantigua was asked the question on  
12 whether he was on oxycodone, he said he was, right?

13 A. Yes, but it has nothing to do with me.

14 Q. You're saying that wasn't part of the game?

15 A. Whatever Mr. Lantigua was doing, that was upon him. That  
16 had nothing to do with me.

17 Q. I'm talking about your patients. You would tell your  
18 patients that you have a better chance of getting oxycodone if  
19 in fact you told the doctor that you are already on it, right?

20 A. No.

21 Q. That never happened?

22 A. No.

23 Q. Let's go back to the 12 page of that exhibit. And if we  
24 can blow up the bottom third of the page, starting right below  
25 type of reactions. And if we could take a look at and

G38LMIR1

Correa - cross

1 highlight the line that starts with PSH. Do you see that?

2 Thank you. It's very small and I apologize for the type print.

3 Do you see that, PSH:S/P scrotal hernia repair times  
4 two, do you see that? Again, this is the first time that you  
5 ever met Dr. Mirilishvili, right?

6 A. Yes.

7 Q. He asked you questions about your prior surgical history,  
8 and you told him about the two hernia surgeries that you had,  
9 right?

10 A. Yes.

11 Q. Again, because he was conducting an examination, right?

12 A. Because he was just asking questions.

13 Q. That's --

14 A. Examination was real brief.

15 Q. But that's what a doctor does, right, asks questions about  
16 your prior history, right?

17 A. Yes.

18 Q. And the only way he would know that about you is if you  
19 told him this, right?

20 A. Yes.

21 Q. He's putting down in his notes what you told him, right?

22 A. On that part, yes.

23 Q. OK, on that part. And you told him also in the next line,  
24 family history, you see an X by DM?

25 A. Yes.

G38LMIR1

Correa - cross

1 Q. Because you told him you had family history of diabetes,  
2 right?

3 A. Yes.

4 Q. Did you tell him that?

5 A. Yes.

6 Q. And the next question, social history. Did you tell him  
7 you were single and had four children?

8 A. Yes.

9 Q. That's what's indicated there, right?

10 A. Yes.

11 Q. And then two lines down from that, VAS equals eight. Do  
12 you remember Dr. Mirilishvili asking you on a scale of zero to  
13 ten, tell me how your pain feels?

14 A. No, I don't remember.

15 Q. That's something that when you started working for him and  
16 you went to his office and you acted as an interpreter, that  
17 was a typical question, right? You would give a scale to  
18 people and say zero to ten, tell me where do you feel pain on  
19 that scale?

20 A. Yes, he would.

21 Q. And then if we go towards the bottom of that page, actually  
22 before that, let's go two lines down where it says cervical  
23 spine. Do you see that?

24 A. Yes.

25 Q. And it says cervical spine, that's an X mark after MRI. Do

G38LMIR1

Correa - cross

1 you see that?

2 A. Yes.

3 Q. And it says at the end of that line, pending, right?

4 A. Yes.

5 Q. Because you didn't have that cervical MRI with you, right?

6 A. I didn't need a cervical MRI. That's not what I was there  
7 for. I only needed that one MRI and that was it.

8 Q. So you didn't have a cervical MRI with you, correct?

9 A. No.

10 Q. And when he said here that it was pending, that is because  
11 you told him that oh, yeah, you were still going to get that  
12 one too, right?

13 A. No.

14 Q. You never told him that?

15 A. No.

16 Q. He just wrote that down?

17 A. I guess so.

18 Q. And then if we go towards the bottom of that page, you see  
19 cervical spine ROM three lines from the bottom?

20 A. Yes.

21 Q. And there are different indications there, floor, flexion,  
22 extension, right lateral flexion, left lateral flexion, right  
23 lateral rotation, and left lateral rotation. Do you see that?

24 A. Yes.

25 Q. And then there are numbers by there?

G38LMIR1

Correa - cross

1 A. Yes.

2 Q. And one of the things that the doctor had you do while you  
3 were in the patient visit were moving parts of your body,  
4 right?

5 A. Yes.

6 Q. And he would touch you at certain places, right?

7 A. Not that I can remember to myself, no.

8 Q. You don't remember him touching you in your arm, your  
9 shoulder, and your lower back?

10 A. No.

11 Q. You've seen Dr. Mirilishvili do that quite often, right?

12 A. To some patients.

13 Q. He did it to Mr. Lantigua on the recording yesterday,  
14 right?

15 A. Yes.

16 Q. He was touching his legs, right, to see his circulation,  
17 correct?

18 A. Yes.

19 Q. You just don't have a memory of it now what you were doing  
20 back in 2012, four years ago, right?

21 A. Yes.

22 Q. And the length of that initial patient visit with  
23 Dr. Mirilishvili was about 20 to 30 minutes, correct?

24 A. Yes, it was.

25 Q. Also what happened at that initial patient visit was that

G38LMIR1

Correa - cross

1 you were given something called controlled substances pain  
2 management agreement, right, do you remember that?

3 A. No, I do not.

4 Q. If we could put page 15 on the screen from that same  
5 exhibit and blow up the top half of the page. Thank you.

6 This was a document that you were given at the time of  
7 your initial patient visit with Dr. Mirilishvili, is it not?

8 A. Yes.

9 Q. It has your name handwritten on it, correct?

10 A. Yes.

11 Q. And there are initials along the left hand column. That's  
12 your initials?

13 A. Yes, it is.

14 Q. And these are things, this document you were asked to read  
15 and to sign and initial after reading, correct?

16 A. Yes.

17 Q. And it talks about, if we go through some of them, No. 1, I  
18 will take only these controlled medications and in the doses  
19 prescribed by my provider. Right?

20 A. Yes.

21 Q. No. 2, I will not increase, stop, or alter my dose of  
22 controlled substance medication without prior approval of my  
23 provider. Right?

24 A. Yes.

25 Q. And I understand that increasing my dose without

G38LMIR1

Correa - cross

1 authorization or obtaining controlled prescriptions outside of  
2 Dr. Moshe Mirilishvili's clinic may result in the  
3 discontinuation of all controlled substances. Right?

4 A. Yes.

5 Q. And this goes on and there's a whole list of things that  
6 you were advised of and it has to do with the fact that you are  
7 being prescribed what's called a controlled substance, and you  
8 understood what that meant, right?

9 A. Yes.

10 Q. And that you weren't supposed to divert it or take extra  
11 dosages or go to other doctors and find other prescriptions,  
12 right?

13 A. Yes.

14 Q. And you were told to read, and if you agreed, to initial  
15 it, right?

16 A. Yes, but I never read it.

17 Q. But you were supposed to, right?

18 A. Yeah, but there wasn't no need to read it.

19 THE COURT: No. You didn't read it. OK. You were  
20 supposed to read it and you didn't read it. Next question.

21 MR. MAZUREK: Thank you, Judge.

22 Q. Second page. That's your signature next to the word  
23 patient?

24 A. Yes.

25 Q. And it's dated September 6, 2012?

G38LMIR1

Correa - cross

1 A. Yes.

2 Q. And that was the date of your initial patient visit,  
3 correct?

4 A. Yes.

5 Q. And just one last thing. If we go back to the first page  
6 and if we could highlight the bottom half, blow up the bottom  
7 half of the page. Do you see No. 9 where you initial, I will  
8 fill all controlled substance prescriptions at one pharmacy.

9 Do you see that?

10 A. Yes.

11 Q. You followed that instruction, right?

12 A. Yes.

13 Q. That's not filled in here because you could fill in  
14 whatever pharmacy you decided to use, right?

15 A. Yes, but I was directed to a pharmacy to go to.

16 Q. Was it explained to you that by going, by going to one  
17 pharmacy, that would enable the pharmacy to have a complete  
18 picture of what medications that you were taking at the time  
19 and the pharmacy would get to know you better because you were  
20 taking controlled substances, right?

21 A. No. I wasn't explained why I was told to go there.

22 Q. Did you ever talk to the pharmacist when you were there  
23 about the importance of having your prescriptions all in one  
24 place?

25 A. No, I did not.

G38LMIR1

Correa - cross

1 Q. Now if we could turn to page 23 of that same exhibit. In  
2 addition to receiving the pain management agreement, you were  
3 also given this document that's now on your screen, right?

4 A. Yes.

5 Q. And at the top of the document, it's called Rampin Medical  
6 Care of the Bronx. That was the name of the clinic where  
7 Dr. Mirilishvili was in September of 2012, correct?

8 A. Yes, it was.

9 Q. This has your name and date of birth on it, right?

10 A. Yes.

11 Q. And it says you're referred to Mount Sinai Hospital, right?

12 A. Yes.

13 Q. For orthopedic specialist and interventional pain, right?

14 A. Yes.

15 Q. And it's again dated September 6, 2012, the date of your  
16 first patient visit, right?

17 A. Yes.

18 Q. And it's Mount Sinai because that's the hospital that you  
19 told the doctor that you had suffered your original injury,  
20 correct?

21 A. No.

22 Q. Where you went after your initial injury?

23 A. No.

24 Q. You never told him Mount Sinai?

25 A. He asked me what hospital I wanted to go to to see a

G38LMIR1

Correa - cross

1 specialist.

2 Q. That's the hospital, as we saw in the patient notes, that  
3 where you said you went to the emergency room after you fell  
4 off the scaffolding stairs, correct?

5 A. Yes.

6 Q. Now, you testified yesterday that in terms of the  
7 prescriptions that you received from Dr. Mirilishvili, that you  
8 always received the same prescription, right?

9 A. Yes.

10 Q. And that in addition to oxycodone, you were given other  
11 medications to fill, including Elavil, Flexeril, and Neurontin,  
12 right?

13 A. Yes.

14 Q. And at the time that the doctor prescribed these  
15 medications, he talked to you about them, right, he explained  
16 what they were for?

17 A. Yes.

18 (Continued on next page)

19

20

21

22

23

24

25

G387MIR2

Correa - cross

1 BY MR. MAZUREK:

2 Q. He explained that Elavil was an antidepressant and it was  
3 going to assist you in -- to deal with a certain type of your  
4 pain, correct?

5 A. He said that it would -- he explained to me what it would  
6 do to certain parts of my body, but he didn't say about no  
7 depression or anything like that.

8 Q. Well, as an interpreter later on you realized that many of  
9 the patient visits where you were interpreting the doctor would  
10 prescribe different kinds of medications in addition to  
11 oxycodone, correct?

12 A. Yes.

13 Q. And you would interpret for him when he explained to  
14 patients about what kinds of things this medication helps you  
15 with, right?

16 A. Yes.

17 Q. And the Flexeril, for example, was going to help you with  
18 potential muscle spasms, correct?

19 A. He never said muscle spasms. He just said it would help  
20 you with your muscles to rebuild them.

21 Q. And Neurontin was for because you have certain pain, that  
22 you may have seizures, and it's an anticonvulsant, right?

23 A. Negative, he never said anything about any seizures or  
24 convulsions.

25 Q. But he talked about it in a way that if you have nerve

G387MIR2

Correa - cross

1 damage then the Neurontin is going to help with you those  
2 aspects of the pain.

3 A. Negative, not that I can remember, he never said those  
4 words.

5 Q. But these are some of the same medications that we heard  
6 yesterday in the recording with Mr. Lantigua, right?

7 A. Yes.

8 Q. And the doctor was explaining in his words what it was that  
9 these medications do, correct?

10 A. Yes.

11 Q. And that was pretty typical, right?

12 A. Yes, every patient received the same medication almost.

13 Q. Well, so in your first visit, these were the four  
14 medications that you were given, right, the oxycodone, Elavil,  
15 Flexeril and Neurontin, right?

16 A. Yes.

17 Q. But you went back and saw the doctor after that, right,  
18 follow-up visits?

19 A. Yes, I did.

20 Q. And he actually changed your medication, didn't he?

21 A. No.

22 Q. Well, let's turn to page 27 of Government Exhibit 205. It  
23 was pretty standard that the doctor would require people to  
24 come back every month, correct?

25 A. Yes.

G387MIR2

Correa - cross

1 Q. So your first visit with him was on September 6, 2012,  
2 right?

3 A. Yes.

4 Q. And your second visit was on October 5, 2012, right?

5 A. Yes.

6 Q. And we have three prescriptions that are on the screen.

7 These are the prescriptions that you were given on your second  
8 visit, October 5, 2012, right?

9 A. Yes.

10 Q. And you had to fill all your prescriptions that you were  
11 given, right? You couldn't just take the oxycodone, run away  
12 with it and not do anything else, right?

13 A. No, the pharmacy would not allow you to do that.

14 Q. Because you are given a group of medications, all of which  
15 are supposed to try to help you with the pain that you're lying  
16 about, right?

17 A. Yes.

18 Q. Now, on this day -- if we could blow up the top two  
19 prescriptions -- on the left-hand side is the oxycodone,  
20 correct?

21 A. Yes.

22 Q. And on the right-hand side is Flexeril which we talked  
23 about that you were prescribed back in September, right?

24 A. Yes.

25 Q. And that's for your muscles, correct?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. Now if we can blow up the bottom prescription on the page.  
3 This is a prescription for something called Celebrex. Do you  
4 see that?

5 A. Yes.

6 Q. You weren't prescribed that at your first visit, correct?

7 A. No.

8 Q. So the doctor on your second visit decided to change up the  
9 medication, right?

10 A. Well, I wouldn't know if he changed up the medication,  
11 because I wasn't given those prescriptions. The only  
12 prescription that was given to me by him was oxycodone.  
13 Everything else was e-scripts directly to the pharmacy.

14 Q. Well, what is on the screen is a handwritten prescription,  
15 right?

16 A. Yes.

17 Q. Because e-scripts, as you're referring to, you're referring  
18 to something that came into after Dr. Mirilishvili moved to the  
19 Washington Heights location, right?

20 A. I don't know.

21 Q. Well, this is a written prescription. You knew about  
22 e-prescriptions are something you can put on the computer and  
23 send, right?

24 A. Yes.

25 Q. So there would be no written prescription form, right?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. There is a written prescription on October 5, 2012 for you,  
3 right?

4 A. Yes.

5 Q. And it says Celebrex, right?

6 A. Yes.

7 Q. You don't remember handing this to the pharmacist along  
8 with your other two prescriptions?

9 A. No, I don't.

10 Q. Because you didn't really care about it, because you were  
11 lying about the whole thing, and you only cared about the oxy,  
12 right?

13 A. Yes.

14 Q. But in fact this indicates that you were being given other  
15 prescriptions based on the doctor's determination of what you  
16 need on October 5, 2012, right?

17 A. Yes.

18 Q. Now, there came a time -- we talked about it yesterday --  
19 that you learned the doctor was moving locations, was opening  
20 up his own clinic in Washington Heights, right?

21 A. Yes.

22 Q. And you knew -- you were still talking to Raymond Williams  
23 around this time?

24 A. Yes.

25 Q. And Raymond Williams you knew was helping the doctor in

G387MIR2

Correa - cross

1 finding a location and getting him -- helping him to set up his  
2 new place?

3 A. No.

4 Q. Williams didn't tell you that?

5 A. No.

6 Q. But you knew Williams was friendly, I think you said, with  
7 the doctor at that point, right?

8 A. Yes.

9 Q. And it was Raymond Williams who came to you and said, oh,  
10 you know, I think the doctor is going to need some security at  
11 his new clinic, and I think it would be a good idea for you to  
12 work there, right?

13 A. No.

14 Q. That's not what happened?

15 A. The doctor himself asked me if I wanted to take a security  
16 job.

17 Q. I'm sorry?

18 A. The doctor himself asked me if I wanted to take a security  
19 job.

20 Q. But it was Raymond Williams who told you before then that  
21 Mirilishvili was looking for someone to work security at his  
22 office, right?

23 A. Incorrect.

24 Q. Well, sir, I can take you back to May 1, 2014 again. Isn't  
25 that what the told the agents on that day at the time of your

G387MIR2

Correa - cross

1 arrest? And I refer counsel and the court to 3501-22, top of  
2 page 3. Isn't that what you told them?

3 A. Not that I can recall. And if I did tell them, it wasn't  
4 correct.

5 Q. That's another thing that you told them that was not true,  
6 you're saying, when you first got arrested in May of 2014.

7 A. Yes.

8 Q. You testified here yesterday that you went back into a room  
9 with Augustine Cruz and Damon Leonard and just at the time that  
10 the doctor opened his office. And when was that? That was in  
11 November 2012?

12 A. Yes.

13 Q. Damon Leonard and Augustine Cruz weren't working for the  
14 doctor at that point, right?

15 A. No.

16 Q. So that's not what happened, is it?

17 A. What is not what happened?

18 Q. You and Damon Leonard and Augustine Cruz went into some  
19 back room and the doctor offered all of you a position to be a  
20 security guard.

21 A. Yes, it was what happened.

22 Q. What happened, sir, was that Raymond Williams -- that's the  
23 guy who you were working with at the time -- asked you, oh, I  
24 need a guy to be there, so he asked you to be the security  
25 guard, and that he was going to introduce you -- that you

G387MIR2

Correa - cross

1 wanted the job -- to the doctor, right?

2 A. No.

3 Q. Well, that's what you told the agents on May 1, 2014, isn't  
4 it?

5 A. It might have been, but that was incorrect at the time.

6 Q. So you started working there at the time end of December,  
7 correct?

8 A. Yes.

9 Q. And that's in 2012, right?

10 A. Yes.

11 Q. And, as you said, you were still bringing in patients, is  
12 that right?

13 A. Yes.

14 Q. Feeding them with MRIs that you're still purchasing from  
15 Raymond Williams?

16 A. Yes.

17 Q. So you didn't have any conversation with the doctor, hey,  
18 doc, can you save me -- every time I want to bring in a patient  
19 it's \$500, let's just, you know, use the same MRI, or we can  
20 copy one, change their names? You never did that?

21 A. No.

22 Q. Instead, you went into your pocket every single time,  
23 right?

24 A. Yes.

25 Q. Now, there came a time in June of 2013 that you were

G387MIR2

Correa - cross

1 introduced or a man came up to you who you later came to know  
2 as Jose Lantigua, right?

3 A. Yes.

4 Q. And you didn't know this man before he first came up to  
5 you, right?

6 A. No, I did not.

7 Q. Yesterday you said that almost everybody who was coming  
8 into that clinic were brought by one of the bosses, right?

9 A. Yes.

10 Q. But here is a man who came and there was no boss around  
11 him, right?

12 A. No, not everybody there that was a patient was with a boss.

13 Q. Not everybody was, were they?

14 A. No.

15 Q. In fact there were many who weren't, right?

16 A. Yes. But, as I said, a high percentage was people who were  
17 under a boss.

18 Q. So Mr. Lantigua -- the one person who came working for the  
19 government turned out to be someone who was different, right?

20 A. Yes.

21 Q. And he asked you when he first approached you, he was like  
22 how do I get an appointment, right?

23 A. Yes.

24 Q. And you told him, well, you have to pay me first, right?

25 A. I told him that he had to pay to get in if he wanted to get

G387MIR2

Correa - cross

1 in, yes.

2 Q. In fact you charged him \$200, right?

3 A. Yes.

4 Q. And you said you would be able to help him get in for that  
5 \$200.

6 A. I told him for \$200 he could get in, and I told him what he  
7 needed.

8 Q. The same kind of stuff, he needed as real looking paperwork  
9 as he could get, right?

10 A. Yes.

11 Q. And he came back after that, right, that first time?

12 A. Yes, he did.

13 Q. In fact he came back several times, right?

14 A. Yes.

15 Q. And one time he came back with some paperwork, you looked  
16 at it and you said that doesn't look good to me, you're not  
17 going to get that passed, it's not good enough, you need to  
18 come back with better.

19 A. Yes, I did.

20 Q. Because you knew that the kinds of things that could work,  
21 they have to look real, right?

22 A. Yes.

23 Q. And at that point you already took his \$200, right? Right?

24 A. No.

25 Q. No? It's only when he came back with better paperwork that

G387MIR2

Correa - cross

1 you took his \$200?

2 A. Yes.

3 Q. And in fact you ended up taking another 200 from him for a  
4 total of 400, correct?

5 A. No, not that I can remember, no.

6 Q. All right. Well, let's -- you were paid on June 13, 2013  
7 \$200 from Mr. Correa; is that about right?

8 A. No.

9 Q. Sorry?

10 A. No, I don't understand the question.

11 Q. You just don't remember when it was that you first took  
12 money from Mr. Correa, or how many -- I mean Mr. Lantigua. I'm  
13 sorry.

14 A. No, I don't remember, but if I did, it was only one time.

15 Q. OK. Would it help to refresh your memory if I showed you  
16 some documents?

17 A. Yes.

18 Q. I'm going to show you what has been marked for  
19 identification as 3501-14 and 3501-3.

20 Your Honor, may I have continued permission to  
21 approach?

22 THE COURT: Yes.

23 Q. I'm going to ask you to read this to yourself. This is the  
24 first document and the date: OK? And the date. OK? Does  
25 that help to refresh your recollection in terms of the payment?

G387MIR2

Correa - cross

1 A. Yes. But there was only one payment that was made; there  
2 was never any more.

3 Q. So you weren't paid on June 13 and on June 18? Your memory  
4 is there was only one payment? Well, you remember, sir, that  
5 he came to you multiple times, correct?

6 A. I remember him offering one day and then he paid the  
7 previous time. That I remember. But him making two payments,  
8 I don't remember.

9 Q. You just don't remember at this time.

10 A. No.

11 Q. Well, you remember after he got in he made another payment,  
12 right?

13 A. Yes.

14 Q. \$50 to you?

15 A. Yes.

16 Q. That was a final tip to say thanks for getting me in?

17 A. Yes.

18 Q. So your memory is that there were \$250 and not \$450?

19 A. Yes.

20 Q. And that Lantigua also had to pay Jomaris Javier who was  
21 the medical assistant in the office, right?

22 A. No. He paid me, I would talk to Jomaris, and then I would  
23 split the money with her.

24 Q. So he didn't pay her an extra \$100?

25 A. Not that I know of.

G387MIR2

Correa - cross

1 Q. If I show you a document, might it help to refresh your  
2 recollection?

3 A. What he did with Jomaris, I wouldn't know about.

4 Q. You wouldn't know about.

5 A. No.

6 Q. So it's possible that he also was paying other people in  
7 the office also to help him get an appointment with the doctor.

8 A. I can't say if that was accurate or not. What other  
9 business he conducted, I don't know of.

10 Q. But you were aware that it was typical what was going on at  
11 that point in time is that the office workers were all trying  
12 to make more money by accepting bribes from patients who were  
13 wanting to get a visit at the office.

14 A. Yes.

15 Q. And it wasn't just you. It was also Jomaris Javier, and  
16 later it was Augustine Cruz, and later it was Damon Leonard,  
17 correct?

18 A. Yes.

19 Q. And none of you -- are you aware whether -- did you ever  
20 tell the doctor that you were taking bribes from his patients  
21 to get in?

22 A. No, I did not.

23 Q. You knew that his office visit for his time was \$200 an  
24 hour, right?

25 A. Yes.

G387MIR2

Correa - cross

1 Q. And you were taking \$200 too, right?

2 A. Yes.

3 Q. And that was more deception of the doctor, right? You  
4 didn't confide in him about that, right?

5 A. I don't understand the question.

6 Q. It was something else that you didn't tell the truth to the  
7 doctor about, right?

8 A. No.

9 Q. Now, when Mr. Lantigua returned to the office and he had  
10 better paperwork, you told him, OK, I think this is going to  
11 fly. So he was able to go see the doctor, right?

12 A. Yes.

13 Q. And you don't know where he got his paperwork, right?

14 A. No, I do not.

15 Q. But you looked at it before he got in?

16 A. Yes.

17 Q. And as we saw yesterday, you were acting as an interpreter  
18 for his initial visits, right?

19 A. Yes, I was.

20 Q. And that was something that the doctor asked you to do,  
21 yes?

22 A. Yes.

23 Q. And did you ever say, doc, I mean why are you making me go  
24 through this; it doesn't matter; just write the scripts; let's  
25 get on with this?

G387MIR2

Correa - cross

1 A. No, I did not.

2 Q. You agreed to do it, right?

3 A. Yeah, because the doctor's Spanish was limited, so he  
4 needed assistance so the non-English speaking patients could  
5 understand what was going on.

6 Q. He needed assistance so that the Spanish speaking patients  
7 could understand what it is that he was telling them during the  
8 course of his doctor visits, right?

9 A. Yes.

10 Q. And you translated truthfully as best you could, right?

11 A. Yes.

12 Q. And that first visit, as we heard yesterday, the doctor  
13 explained a lot of things to Mr. Lantigua, right?

14 A. Yes, he did.

15 Q. And that was typical, especially for an initial visit,  
16 right?

17 A. Yes, he would explain to the patient what was going on with  
18 them, the pain and what the MRI said.

19 Q. And he would take time. I think we saw the initial visit  
20 for Mr. Lantigua, it's not on a recording, but there is pauses  
21 at the beginning of the recording. And what was happening  
22 during those pauses was that he was reviewing the paperwork  
23 that was presented to him, right?

24 A. At the very beginning, yes.

25 Q. And then after he reviewed it, he started explaining things

G387MIR2

Correa - cross

1 about the body and what he was reading on that piece of paper  
2 to Mr. Lantigua the patient, right?

3 A. Yes, he was.

4 MR. MAZUREK: Your Honor, there is a portion of the  
5 recording from yesterday that we did not hear. I would like to  
6 play it at this time. It's Government Exhibit 1101.

7 THE COURT: Right. And you have to tell me what part  
8 you think is necessary for the rule of completeness.

9 MR. MAZUREK: Yes. The government skipped over pages  
10 2 through 7, and I would like to play those portions now.

11 THE COURT: OK. Folks, take a short break. Don't  
12 discuss the case; keep an open mind.

2 THE COURT: OK. Mr. Correa can leave the room. I  
3 would like -- I've got the transcript in front of me. I assume  
4 we are talking about GX 1101-T?

5 MR. MAZUREK: Yes.

6 THE COURT: And I'd like a page and line where you  
7 intend to start and a page and line where you intend to stop.

8 MR. MAZUREK: OK. I would like to start on page 3,  
9 line 4, Dr. Mirilishvili says, "OK, come to me, please." And  
10 if I'm correct up to line 22 of page 7.

11 THE COURT: To where?

12 MR. MAZUREK: Page 7, line 22, sorry. Stopping after  
13 he says "The fluid is leaking out."

14 THE COURT: Line 21, OK. Government?

15 MR. DISKANT: We don't think it's necessary to  
16 complete anything. These are defendant's self-serving  
17 statements about medical knowledge. The witness has testified  
18 already that the examination would begin with the defendant  
19 walking over to a chart and pointing to it and explaining  
20 certain things to the patient. We skipped over it because we  
21 thought it was unnecessary in an already long and difficult to  
22 hear recording.

23 MR. MAZUREK: The transcript is in evidence. I think  
24 it's relevant, and I'd like to have --

25 THE COURT: The tape is in evidence. The tape is in

G387MIR2

Correa - cross

1 evidence in its entirety. There is no reason not to play this  
2 for the jury; they are entitled to listen to the entire tape.  
3 The government has produced it.

4 MR. DISKANT: That's fine, your Honor.

5 THE COURT: OK. I'm going to take a few minutes.

2 THE COURT: OK, great. Let's get comfortable. Have a  
3 seat, everyone. You are still under oath, Mr. Correa.

4 You may proceed.

5 MR. MAZUREK: Your Honor, at this time I would like to  
6 play what is already in evidence as Government's Exhibits 1101.  
7 A certain part of that was not played on direct examination. I  
8 would ask if you could ask the jury to refer to their  
9 transcripts. I'm going to be playing a portion starting from  
10 1101-T starting on page 3, line 4 and going to page 7, the end  
11 of line 21.

12 THE COURT: Go ahead.

13 MR. MAZUREK: We are starting page 3, line 4.

14 (Audio recording played)

15 ABRAHAM CORREA, resumed.

16 CROSS-EXAMINATION (Continued)

17 BY MR. MAZUREK:

18 Q. Mr. Correa, what we just listened to was something that you  
19 were familiar with because it's something that the doctor would  
20 explain to many patients that you acted as an interpreter,  
21 right?

22 A. Yes.

23 Q. Explaining, and he is referring to a diagram that was a  
24 diagram of the spine, which was hanging on the wall in the  
25 examination room; is that right?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. And he would explain to the patients that you've  
3 interpreted in order for them to understand what it is that's  
4 causing their medical problems, right?

5 A. Yes, he would explain to them, but at no time did he ask  
6 them if they was in pain or what their primary problem they  
7 were having.

8 Q. Well, just a moment. First he read the MRI, right?

9 A. Yes.

10 Q. And the patient is there because they are referred there,  
11 according to the paperwork, for pain management, right?

12 A. Yes.

13 Q. And the doctor is explaining what is shown on the MRI to  
14 the patient, right?

15 A. Yes.

16 Q. He would typically do that, right?

17 A. Yes.

18 Q. And then he would go on to explain, or ask the patient to  
19 perform certain things in the office, in the examination room,  
20 right?

21 A. What did you mean by certain things?

22 Q. For example, after he reads the MRI in Mr. Lantigua's  
23 case -- which was an issue with a herniated disk -- he would  
24 check out the gait of the person, how he is walking back and  
25 forth, right?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. He would do certain pressure tests by having the person  
3 stand on the balls of their feet, on their toes, right?

4 A. Yes.

5 Q. He would have them balance backward on their heels, right?

6 A. Yes.

7 Q. There were little stairs that were in the office. He would  
8 have them climb up on those stairs, right?

9 A. No. The stairs are only used so that the patient can get  
10 on the examining table.

11 Q. Well, in Mr. Lantigua's case, as we heard yesterday, he had  
12 Mr. Lantigua go up and down those stairs, right?

13 A. No.

14 Q. Well --

15 A. The stairs were only to get on the table. There wasn't no  
16 exam done using stairs.

17 Q. Well, do you remember the part where what is happening in  
18 the room when the doctor is holding Mr. Lantigua and he's  
19 saying pull, pull, pull? Do you remember that?

20 A. No.

21 Q. Do you have your transcript binder in front of you?

22 A. Yes.

23 Q. If you go to page 17, and on line 19, the doctor told Jose  
24 Lantigua give me your hands, stand on your heels. Do you see  
25 that?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. Because he was holding the patient's hands as the patient  
3 was going backwards, right?

4 A. Yes.

5 Q. And that was in order to feel to see what kind of strength  
6 or muscle pull they would have, right?

7 A. Yes.

8 Q. And then it continued, right? It continued seeing how the  
9 patient would go forward on their toes, right?

10 A. Yes.

11 Q. And yesterday we were talking about -- you were asked in  
12 direct examination about he disrobed the patients. He wouldn't  
13 ask the patient to take their clothes off to do these kinds of  
14 examinations, right?

15 A. No.

16 Q. But for Mr. Lantigua he was noticing a circulation issue  
17 with the legs, the varicose veins. Do you remember that?

18 A. Yes.

19 Q. He was touching Mr. Lantigua's legs to see those veins,  
20 right.

21 A. Yes.

22 Q. And do you remember what Mr. Lantigua was wearing at the  
23 time? It was the summer; it could have been short pants. Or  
24 did he have to roll up his pants?

25 A. I don't remember that.

G387MIR2

Correa - cross

1 Q. But in order for the doctor to do that, he had to lift a  
2 leg pant or somehow get to the leg itself, right?

3 A. Yes.

4 Q. And he did that, right?

5 A. Not that I can remember.

6 Q. Well, you don't remember from listening yesterday and the  
7 doctor seeing the varicose veins -- can you see varicose veins  
8 through a pant leg?

9 A. No.

10 Q. And do you remember the doctor during that visit moving his  
11 leg from side to side for a range of motion test?

12 A. No, I do not.

13 Q. If you turn to page 19 towards the bottom. Does that  
14 refresh your memory as to what was going on at the time when  
15 the doctor was saying don't scratch, he is going to have to  
16 move his leg, and he is asking whether the patient feels it  
17 more, less or the same? What is he feeling? He is feeling the  
18 doctor's hands, right? The doctor's hands are on the leg,  
19 right? That's how the exam was given.

20 A. No, incorrect. The doctor used an instrument to scrape the  
21 sides of his legs.

22 Q. There was an instrument.

23 A. Yes.

24 Q. What kind of instrument?

25 A. I don't know what it's called, but it had like a needle on

G387MIR2

Correa - cross

1 the tip of it.

2 Q. So he was using an instrument with a needle on the tip in  
3 order to measure something? Is that what it appeared to you?

4 A. He was taking the instrument and rubbing on the side of the  
5 leg.

6 Q. You didn't mention that yesterday, did you?

7 A. No, I wasn't asked that.

8 Q. And he did that for both legs, correct? He used the  
9 instrument for measuring something, right?

10 A. Yes.

11 Q. And the issue of surgery came up during that examination,  
12 correct?

13 A. Yes.

14 Q. And that was something that was also typical for you as an  
15 interpreter for some of the doctor's patients, right?

16 A. Yes.

17 Q. And that's because you came to understand by acting as an  
18 interpreter for the doctor that what the doctor was offering  
19 here was a temporary measure, it was a correction, it was to  
20 help people feel better until they corrected their underlying  
21 problem, right?

22 A. I guess so. But at the end of the day everybody's  
23 objective was just to get oxycodone prescription, and that was  
24 a guaranteed thing.

25 Q. Well, that was the objective for you --

G387MIR2

Correa - cross

1                   THE COURT: He can't testify to the objective.

2                   MR. MAZUREK: For him.

3                   Q. Your objective was to get oxycodone, right?

4                   A. For myself and for every patient that was there.

5                   Q. For your patients that's what you were trying to do; you  
6                   were trying to get oxycodone, right?

7                   A. No, I want trying, because I accomplished it. If I took 40  
8                   patients in, 40 patients got oxycodone prescriptions.

9                   Q. So that's all you cared about. That's all that you cared  
10                   about, right? But you never talked to the doctor and said --

11                   THE COURT: Did he answer the question?

12                   Q. Did you answer the question?

13                   A. Yes.

14                   THE COURT: That's all you cared about, getting the  
15                   oxycodone prescriptions.

16                   THE WITNESS: Yes.

17                   Q. You never talked to the doctor and said all I wanted is  
18                   oxycodone, can we just get right to it, why do I have to  
19                   interpret all this stuff? Did you ever say that?

20                   A. No, I didn't, but the doctor had to cover himself. He  
21                   needed a paper trail, so in other words he would have proof.

22                   MR. MAZUREK: Objection. Move to strike.

23                   THE COURT: The objection is overruled.

24                   Q. Mr. Correa, when you sat in and interpreted for  
25                   Mr. Mirilishvili, you heard him say to many patients about the

G387MIR2

Correa - cross

1 fact I can't cure your problem. I can make you feel better --  
2 try to make you feel better and go out and function. Right?  
3 Those were the kinds of things that were said in patient  
4 visits, right?

5 A. Yes, it was.

6 Q. And he would give referrals. He gave you a referral for an  
7 orthopedic doctor, right?

8 A. Yes.

9 Q. He gave a referral to Jose Lantigua, right?

10 A. Yes.

11 Q. And he would insist -- when you would come back for  
12 follow-up visits -- what happened with that referral? Did you  
13 listen to me? Wouldn't that be something that you would hear?

14 A. Yeah, but that didn't occur to every patient that came in  
15 that had a referral from him.

16 Q. And didn't you tell your patients, look, you just have to  
17 keep pushing him off, tell him that you're going to go see the  
18 specialist, you're going to get the surgery but later? That's  
19 something you would tell them, right?

20 A. No.

21 Q. You wouldn't tell them that?

22 A. Not every patient was asked the follow-up with the  
23 referral.

24 Q. Well, Mr. Lantigua was. We saw in the recording, right?

25 A. Yes.

G387MIR2

Correa - cross

1 Q. You were asked, right?

2 A. Not that I can remember.

3 Q. You don't remember that.

4 A. About my referral, no.

5 Q. You were given one, right?

6 A. Yes, I was.

7 Q. And you remember in Mr. Lantigua's follow-up visits the  
8 doctor was asking did you get the appointment? And  
9 Mr. Lantigua would say, yes, I have an appointment two months  
10 from now, right?

11 MR. DISKANT: Objection. The recording speaks for  
12 itself.

13 THE COURT: The objection is sustained.

14 Q. You understood that what you were trying to do was to fool  
15 the doctor, right? That's why you were lying, why you weren't  
16 telling the truth.

17 A. I wasn't fooling anybody. He knew what was going on to an  
18 extent.

19 Q. To an extent?

20 A. Later on, as I continued to work there, he brought it to my  
21 attention where I could no longer work, but he wanted me to  
22 continue providing patients so he could have more people.

23 Q. But let me ask you this: You knew that if you brought in  
24 good paperwork and the patient answered the questions that the  
25 doctor asked about their injuries that were shown on the

G387MIR2

Correa - cross

1 paperwork, that this was a pain management clinic, and he had a  
2 certain way of prescribing, and so there was a good chance that  
3 you were going to be able to get your oxycodone, right? That's  
4 what you knew.

5 A. There was a guaranteed chance. I never seen nobody walk  
6 out of there in nine months that I worked there without an  
7 oxycodone prescription.

8 Q. Because that's the kind of prescription that a pain doctor  
9 gives -- this pain doctor believed in.

10 THE COURT: You're getting argumentative. Stop  
11 arguing with the witness.

12 MR. MAZUREK: I will withdraw, your Honor.

13 Q. What happened when you were working there was that  
14 everything that you did was to lie to the doctor through you or  
15 your patients, right?

16 A. I don't understand the question.

17 Q. Well, let me ask it this way. You knew that no patient of  
18 Dr. Mirilishvili was receiving a prescription without a  
19 physical examination, right?

20 A. Yes.

21 Q. And you knew that no patient was going to receive any  
22 prescriptions unless they had documentation from referral  
23 sources, correct?

24 A. Yes, he needed to make sure that his --

25 Q. Yes or no, sir?

G387MIR2

Correa - cross

1 A. Yes.

2 THE COURT: Yes. Thank you. Next question.

3 Q. And you knew that the patient had to indicate that they  
4 were suffering on that zero to ten scale of pain, correct?

5 A. Yes, but that was only after --

6 THE COURT: Yes. End of the answer.

7 A. Yes.

8 Q. And you also knew -- you also knew that he had to do other  
9 things, because the doctor took other measures to try to make  
10 sure that the patient was doing what he was supposed to do in  
11 terms of taking the medication, right?

12 MR. DISKANT: Objection as vague and confusing.

13 THE COURT: I don't even understand it.

14 MR. MAZUREK: I will be more specific.

15 Q. The doctor required urine tests, right?

16 A. Yes.

17 Q. And the patients for follow-up visits had to give urine  
18 sample and have a report produced, right?

19 A. Yes.

20 Q. And you understood that you and the other office workers  
21 would falsify those lab reports, right?

22 A. I couldn't say what other office workers were doing. I can  
23 only speak for myself.

24 Q. Well, you knew, sir, that you were falsifying urine  
25 samples, right?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. And that you were also sometimes paying the office workers,  
3 Damon Leonard or Jomaris Javier, just to submit a false report  
4 for you.

5 A. They -- yes.

6 Q. In other words, you didn't have to give a sample at all;  
7 they would just produce the report, right?

8 A. Right. But that was only towards the ending.

9 Q. Towards the ending of your time at the office?

10 A. Yes.

11 Q. And that was something that Augustine Cruz was doing?

12 A. Yes.

13 Q. He would have a thumb drive where he would keep all of  
14 these false reports that he would make and put into the system?

15 A. No, that was directly on the computer system.

16 Q. Well, he kept things on a thumb drive so that it wasn't on  
17 the computer system, so he could just --

18 A. No, it was actually on the computer.

19 Q. Well, you knew about this thumb drive he kept, right?

20 A. No.

21 Q. I'll come back to that. But the concept was, just so I  
22 have it clear, is that what Augustine Cruz and the other office  
23 workers would do sometimes, they would just take money in  
24 exchange for providing a false report that oxycodone was in the  
25 patient's urine.

G387MIR2

Correa - cross

1 A. Yes.

2 Q. And you would pay them \$50 for each report like that,  
3 correct?

4 A. Yes.

5 Q. Now, in addition in the office the doctor had a technician  
6 working -- another you said at first another doctor who was  
7 doing nerve conduction tests; is that right?

8 A. Yes.

9 Q. Sorry?

10 A. Yes.

11 Q. And that was provided for the patients who had nerve  
12 damage, correct -- reported nerve damage?

13 MR. DISKANT: Objection. Foundation.

14 A. I have no idea.

15 THE COURT: The objection is sustained.

16 Q. Well, you were aware that there was another diagnostic room  
17 in the office where the nerve doctor worked out of, correct?

18 A. Yes.

19 Q. And saw patients there, correct?

20 A. Yes, only after they saw Dr. Moshe.

21 Q. And Dr. Moshe would refer patients to him, correct?

22 A. Yes.

23 Q. And you also know that within the office in Washington  
24 Heights there is a physical therapy room set up, correct?

25 A. Yes.

G387MIR2

Correa - cross

1 Q. And that patients would be referred or have the option to  
2 do the physical therapy in the office, correct?

3 A. Yes, they had an option.

4 Q. And that would cost them \$100 per month for four visits,  
5 correct?

6 A. Excuse me?

7 Q. That would cost them \$100 for up to four visits per month.

8 A. No.

9 Q. Weekly visits.

10 A. No, that was \$100 per visit.

11 Q. Sorry?

12 A. \$100 per visit. Each visit was \$100.

13 Q. It was \$300 total for a one month visit: \$200 to see the  
14 doctor, and then an extra \$100 if they decided to take physical  
15 therapy, correct?

16 A. If you was taking physical therapy, you had to pay \$100  
17 each time you did physical therapy. So if you went five times  
18 a week, you had to pay \$100 each time.

19 Q. You said your patients never even did physical therapy.

20 A. No.

21 Q. So you just knew that because that was something that you  
22 learned along the way?

23 A. That's what the doctor required; that's what the doctor  
24 told us.

25 Q. \$100 for each visit.

G387MIR2

Correa - cross

1 A. Yes.

2 Q. And there are some patients who were using insurance?

3 A. I couldn't tell you that, because I didn't handle the  
4 physical therapy.

5 Q. OK. And you knew that -- I mean there were different  
6 physical therapists during the course of the two years that the  
7 doctor was there, right?

8 A. From the time I was there, there were various different  
9 physical therapists.

10 Q. And he obtained them through a service called Oasis, right?

11 MR. DISKANT: Objection. Foundation.

12 THE COURT: Objection sustained.

13 Q. Do you know how the doctor obtained the physical therapists  
14 for his office?

15 A. No, I do not.

16 Q. Now, when you said you had your own patients, there are  
17 certain people that you were directing and then buying their  
18 scripts off of them, correct?

19 A. Yes.

20 Q. And when you said yesterday all your patients used cash,  
21 that wasn't true, was it?

22 A. To pay the doctor, yes.

23 Q. Did you ever hear of a patient named Tawanda Ester?

24 A. Yes.

25 Q. She paid the doctor through Metro Plus, which is her

G387MIR2

Correa - cross

1 insurance plan.

2 MR. DISKANT: Is there a question?

3 THE COURT: I don't know.

4 Q. Isn't that right?

5 A. Not that I can remember, no.

6 Q. How about Angel Hernandez, do you remember him?

7 A. Yes.

8 Q. Was that one of your so-called patients?

9 A. Yes.

10 Q. He also paid through his Medicaid, correct?

11 A. Not to see the doctor, no, not that I can remember.

12 Q. Not that you can remember.

13 A. No.

14 Q. It's possible that these patients were doing things that  
15 you didn't know?

16 A. No.

17 Q. For example, attending physical therapy?

18 A. No.

19 Q. You said your patients never attended physical therapy,  
20 right?

21 A. I never paid for no physical therapy, so, no, not through  
22 me if they did.

23 Q. Well, did you know that Tawanda Ester and Angel Hernandez  
24 both attended multiple sessions of physical therapy?

25 A. No, I do not.

G387MIR2

Correa - cross

1 Q. They didn't go to physical therapy because you told them,  
2 right?

3 A. No.

4 Q. They went to physical therapy because they needed it,  
5 right?

6 MR. DISKANT: Objection.

7 THE COURT: The objection is sustained.

8 Q. And did you know that your so-called patient Tawanda Ester  
9 also had nerve conduction and EMG tests done, nerve tests done  
10 by the doctor, other doctor in the office?

11 A. No, not that I can remember, no.

12 Q. And did you know that your so-called patient Angel  
13 Hernandez also had those extensive tests done, nerve conduction  
14 and EMG?

15 A. No. I don't believe that to be true.

16 Q. Well, I'm going to show you what has been premarked for  
17 identification as DM 606 and 607. And I flagged some of these.  
18 I'm going to ask you to look at those.

19 MR. DISKANT: Your Honor, may we approach on this?

20 THE COURT: Pardon?

21 MR. DISKANT: May we approach?

22 THE COURT: He is showing him a document, it's not in  
23 evidence, and he is asking him if it refreshes his recollection  
24 about something. There is no reason to approach.

25 MR. MAZUREK: Your Honor, I'm going to ask to move it

G387MIR2

Correa - cross

1 into evidence.

2 THE COURT: Well, you're going to offer it, not move  
3 it. And I doubt that I will allow you to do that at this  
4 moment, so...

5 MR. MAZUREK: I would ask that it be subject to  
6 connection.

7 THE COURT: No. You can offer it for refreshment of  
8 recollection, otherwise move on.

9 Q. Do you see those documents in front of you? And I'm going  
10 to ask you to look at those areas that I flagged in both of  
11 those documents with respect to those two patients.

12 THE COURT: The question is: Does that jog your  
13 memory about whether those patients received certain kinds of  
14 treatments?

15 THE WITNESS: No.

16 THE COURT: It does not. Move on, please.

17 Q. Yesterday on direct examination you also testified about  
18 the fact that you used a certain pharmacy and were directed to  
19 this pharmacy, correct?

20 A. Yes.

21 Q. Now, based on your experience in the office, and the fact  
22 that you acted as an interpreter for a number of visits, you  
23 knew that Dr. Mirilishvili didn't tell patients which pharmacy  
24 that they had to use; that he asked them a question do you have  
25 a pharmacy, where would you like to go, correct?

G387MIR2

Correa - cross

1 MR. DISKANT: Objection. Compound question.

2 THE COURT: Well, could you rephrase the question.

3 MR. MAZUREK: Yes, I will take that in steps.

4 Q. When you were acting as an interpreter for the doctor and  
5 patients would come in, he would ask them do you have a  
6 preferred pharmacy that you like to go to?

7 A. He would ask them what pharmacy they wanted to go to, yes.

8 Q. And you also know from the answers over time that there  
9 were many, many pharmacies that patients went to, right?

10 A. I couldn't tell what you pharmacies patient went to, only  
11 the ones that I knew about, and the ones that the doctor  
12 directed a lot of patients to go to.

13 Q. You testified yesterday that you were interpreting four,  
14 five times per week; is that right?

15 A. Yes.

16 Q. For ten months of time, right?

17 A. Yes.

18 Q. And you heard many, many times what pharmacies that  
19 patients are answering the doctor, correct?

20 A. Sometimes, not all the time.

21 Q. Well, you knew from your experience in the office that  
22 there were literally dozens and dozens of pharmacies that were  
23 used over the course of time, right?

24 A. Not that I know about, no.

25 Q. In fact didn't you testify yesterday that Jomaris Javier --

G387MIR2

Correa - cross

1       she was the medical assistant in the office -- she would unplug  
2       the phones sometimes?

3                    MR. DISKANT: Objection to testimony.

4                    THE COURT: The objection is sustained.

5       Q. Did you know that Jomaris Javier would unplug the phone in  
6       the office sometimes?

7       A. Yes.

8       Q. And that's because there were too many pharmacies and  
9       doctors calling, and she didn't want to talk to them? Is that  
10      what you understood?

11      A. I don't know why she unplugged the phone. I wouldn't know  
12      that.

13      Q. And some of these pharmacies that you heard about during  
14      the time you were there were CVS, Walgreens, Rite Aid, Duane  
15      Reade; isn't that true?

16      A. Incorrect.

17      Q. You never heard people saying that?

18      A. No.

19      Q. In ten months that you were there?

20      A. No.

21      Q. And there were pharmacies throughout Manhattan. Did you  
22      hear the pharmacies East Harlem Pharmacy, First Health, Buy  
23      Rite? Did you hear those?

24      A. No.

25      Q. Did you hear of Leren Drugs?

G387MIR2

Correa - cross

1 A. No.

2 Q. Did you hear New York Health First Pharmacy?

3 A. No.

4 Q. New York Pharmacy?

5 A. No.

6 Q. NYC Pharmacy?

7 A. No.

8 Q. Never heard of them in ten months.

9 A. No.

10 Q. Do you know something called the PMP? You have heard of  
11 that?

12 A. Yes.

13 Q. That was a New York State database for prescription  
14 monitoring, right?

15 A. Yes.

16 Q. And you knew that the doctor checked it or had the office  
17 staff check it for purposes of determining whether patients  
18 were using other doctors for purposes of obtaining controlled  
19 substance prescription?

20 A. Yes. Jomaris was in charge of that.

21 Q. And you know that the doctor ended up firing Jomaris,  
22 right?

23 A. I don't know about that. I wasn't working at that time.

24 Q. Well, you later learned about it, right? You were still  
25 hanging around the office?

G387MIR2

Correa - cross

1 A. Yes.

2 Q. You would come at night to talk to Damon Leonard, the  
3 office manager?

4 A. No.

5 Q. No, you wouldn't come by anymore after you were fired?

6 A. I would come on there the days my patients had  
7 appointments, in the morning.

8 Q. And at that point in time you would talk to Damon Leonard  
9 and Jomaris, right?

10 A. Yes.

11 Q. And one day when you showed up and Jomaris wasn't there  
12 anymore, you learned that she was fired, right?

13 A. Yes.

14 Q. Because she was messing with that PMP, right?

15 A. I have no idea.

16 Q. You have no idea.

17 A. Yes.

18 Q. You never discussed that with any of the workers.

19 A. Not that I can remember, no.

20 Q. Well, there came a time where you actually wore a body wire  
21 for the government, right?

22 A. Yes.

23 Q. And that was in September of 2014, correct?

24 A. Yes.

25 Q. And you talked about it on the recording with Damon

G387MIR2

Correa - cross

1 Leonard; isn't that right?

2 A. Not that I can remember.

3 Q. If I show you a document, might it help to refresh your  
4 recollection, sir?

5 A. Yes.

6 Q. I am going to show what you has been premarked for  
7 identification as DM 602, and I will refer you to a specific  
8 page; I refer you to page 4. If you take a look, read that  
9 section, please, on page 4, the top, the top about three  
10 paragraphs, and when you're done, let me know.

11 A. OK.

12 Q. Does that refresh your recollection, sir, that you in fact  
13 discussed with Damon Leonard the problems that Jomaris had with  
14 respect to PMP?

15 A. I don't know if I'm supposed to discuss what's in there.

16 Q. I'm sorry?

17 A. You're saying Jomaris, but the one speaking here is Damon.

18 Q. I'm asking does that conversation that you had with Damon  
19 refresh your memory that you talked about it, about the fact  
20 that Jomaris was fired because she was screwing up putting in  
21 the names in the PMP so that the doctor would not get the --

22 THE COURT: Does it jog your memory that you had that  
23 conversation with Mr. Leonard about that subject?

24 THE WITNESS: Yes. But what's here --

25 THE COURT: We don't want to know what's there. Just

G387MIR2

Correa - cross

1 talking about the subject.

2 Q. You knew about the subject, right?

3 A. Yes.

4 Q. And you knew that there was a pharmacist. Did you ever  
5 hear of a guy by the name Frank Fetta?

6 A. Yes.

7 Q. And he would come to the office, and he would tell the  
8 doctor, explain the issues with the PMP?

9 MR. DISKANT: Objection.

10 THE COURT: Excuse me?

11 MR. DISKANT: Objection. Hearsay.

12 THE COURT: For the fact that it was said? No.

13 Q. Do you remember that happening?

14 A. I don't know what the doctor and Frank spoke about. They  
15 spoke behind closed doors.

16 THE COURT: Let's move on.

17 Q. But you knew that the doctor took an action when he found  
18 out that an employee, Jomaris Javier, was doing something  
19 incorrectly with respect to putting in the PMP records, right?  
20 You knew about that.

21 A. No, I do not.

22 Q. You never knew it even though you talked about it.

23 A. No.

24 Q. And you knew that after Jomaris Javier was fired, that she  
25 was rehired by the doctor just shortly before you had that

G387MIR2

Correa - cross

1 conversation with Damon Leonard on July 10, right?

2 A. I knew she was rehired. When she was rehired, I don't  
3 know.

4 Q. You knew she was being rehired because she just had a baby,  
5 and she didn't have any money, and the doctor decided to rehire  
6 her.

7 THE COURT: The objection is sustained.

8 Ladies and gentlemen, I remind you that all of these  
9 long wordy questions by a lawyer that assume a lot of facts  
10 that are not in evidence are not in fact evidence. OK?  
11 They're not evidence of anything.

12 Q. Well, Mr. Correa, you knew the reason that Jomaris --

13 THE COURT: Did you know why she was rehired?

14 THE WITNESS: No.

15 THE COURT: Fine. Move on.

16 Q. You just discussed it at length with Damon Leonard, didn't  
17 you?

18 THE COURT: Now you're arguing with the witness.

19 Argue to the jury; don't argue with the witness.

20 Q. Isn't it true that when you were taped, when you were  
21 recorded, when you were recording Damon Leonard, these are the  
22 things that were discussed? Isn't that true?

23 A. I knew at the time when he told me, yes, but other than  
24 that I don't know what actually happened. He could have told  
25 me anything.

G387MIR2

Correa - cross

1 Q. But you discussed it with him, right?

2 A. Yes.

3 Q. And what he did tell you was that Jomaris Javier was  
4 rehired by the doctor at some point in that summer, right?

5 A. Yes.

6 Q. And then she screwed up by lying to him again, right?

7 A. Yes.

8 Q. You learned that, right? I'm sorry?

9 A. Yes.

10 Q. Because she snuck back into his office; did you hear that?

11 A. No, I did not know about that.

12 Q. Well, when you were wired, when you were wired for the  
13 government in July of 2014, going back to the office and  
14 talking to Damon Leonard, that's what he told you, right?

15 THE COURT: What Damon Leonard told him is hearsay.

16 OK? So especially because you're trying to get it in for the  
17 truth of the matter asserted. So let's move on to something  
18 that this witness is competent to testify about.

19 MR. MAZUREK: Yes, Judge.

20 Q. Well, you're competent to testify about the reason you were  
21 fired, right, sir?

22 A. Yes.

23 Q. You were fired shortly after September 23, 2013, right?

24 A. Yes.

25 Q. And you were fired because on September 23, 2013 there was

G387MIR2

Correa - cross

1 a robbery in the office, correct?

2 A. Yes, that's my understanding.

3 Q. It was an armed robbery, right?

4 A. Yes.

5 Q. Where there was a gun involved that you saw on that day,  
6 right?

7 A. Yes.

8 Q. And, by the way, you were supposed to be standing outside  
9 of the office. That's where you normally worked, right?

10 A. No.

11 Q. You're security for the office?

12 A. Yes.

13 Q. Sometimes you would be inside the door, is that what you're  
14 saying, and sometimes outside the door?

15 A. All the time inside the door. The only time outside is  
16 when there were lots of crowds outside.

17 Q. Then you were always inside the door?

18 A. Yes.

19 Q. When you say only when there are large crowds, so you were  
20 mostly inside the door, right?

21 A. Yes.

22 Q. Because there weren't large crowds all the time.

23 A. All the time.

24 Q. OK. But on that particular day it just so happened that  
25 robbers were able to come in with guns and rob the place,

G387MIR2

Correa - cross

1 right?

2 A. Yes.

3 Q. And there were no people outside gathering around to see  
4 who they were, right?

5 A. No.

6 Q. The street was clear, right?

7 A. I couldn't tell you how the street was. I was inside.

8 Q. Now, ultimately the doctor believed that it was an inside  
9 job, right?

10 MR. DISKANT: Objection.

11 THE COURT: The objection is sustained.

12 Q. Well, when you were called into the office afterward, the  
13 doctor asked you lots of questions about your knowledge of this  
14 robbery, right?

15 A. No.

16 Q. He just told you you were fired?

17 A. He told somebody else I was fired, and then I went to speak  
18 to the doctor.

19 Q. And the reason you learned that you were fired is because  
20 the doctor had belief that this was an inside job, right?

21 A. No, not that I know of. I was never directly told that by  
22 the doctor.

23 Q. You never were told that?

24 A. Not by the doctor, no, or anybody.

25 Q. So why did you think you were fired?

G387MIR2

Correa - cross

1 A. I asked the doctor that. He just told me that I was fired.  
2 He said that he didn't need me no more because he was going to  
3 put security surveillance on the door and put an electronic  
4 buzzer and that he didn't need my services no more.

5 Q. And this was right after the robbery, right?

6 A. About two or three weeks after, yes.

7 Q. Two or three weeks after the robbery; is that now your  
8 testimony?

9 A. Yes. Excuse me?

10 Q. Your testimony is you weren't fired until two or three  
11 weeks after?

12 A. Yes.

13 Q. Sir, you testified yesterday that it was the Monday after  
14 the robbery that you came into the office to talk to the  
15 doctor, right?

16 A. No.

17 (Continued on next page)

18

19

21

22

23

24

25

G38LMIR3

Correa - cross

1 Q. You don't remember that. You remember talking to the NYPD  
2 about the robbery?

3 A. Yes.

4 Q. And you told them that there were two male subjects, that  
5 only two people were involved, correct?

6 A. Yes.

7 Q. You knew there were three, right?

8 A. No. I later found out there was three, but I didn't see  
9 that. When the gentleman first came in, he pointed a gun in my  
10 face and directed me to walk to the back.

11 Q. There came a time, wasn't there, when you were selling  
12 pills, oxycodone pills, to Jose Lantigua, right?

13 A. Yes.

14 Q. And in selling those pills, you didn't know that Jose  
15 Lantigua was wired at the time, correct?

16 A. No.

17 Q. He was acting as a confidential source, thus we learned  
18 about yesterday, right?

19 A. Yes.

20 Q. And that when you were selling pills to him, that was  
21 later, that was sometime at the end of 2013, November 2013,  
22 into January of 2014, right?

23 A. Yes.

24 Q. And at that point in time, you told Jose Lantigua that the  
25 reason that you were fired was because you and other office

G38LMIR3

Correa - cross

1 workers set up a robbery of Dr. Mirilishvili; isn't that true?

2 A. Incorrect. I never spoke about that to him.

3 Q. Well, if I show you a report, might it help refresh your  
4 recollection?

5 A. Yes.

6 Q. Showing you what's been premarked for identification as  
7 3501-10. And I'm going to ask you to read the paragraph  
8 numbered four. Isn't it true, sir --

9 THE COURT: The question is --

10 Q. Does that refresh your recollection?

11 THE COURT: Which, by the way, he didn't say he needed  
12 refreshing because he didn't say he didn't recall, but the  
13 government didn't choose to note that fact.

14 A. No.

15 Q. I'm sorry, that doesn't refresh your recollection --

16 A. No.

17 THE COURT: It does not.

18 Q. -- of what you told Mr. Lantigua?

19 THE COURT: Let's move on.

20 Q. And in November 2013, you were selling pills to  
21 Mr. Lantigua, right?

22 A. I believe so. I can't be accurate with the time, but --

23 Q. I'm sorry?

24 A. I said I don't remember the exact date, but I was.

25 Q. You remember selling pills to him on multiple occasions,

G38LMIR3

Correa - cross

1 right?

2 A. Yes.

3 Q. You received thousands of dollars from Mr. Lantigua?

4 A. Yes.

5 Q. You would meet him at different places in the Bronx to sell  
6 them, right?

7 A. Yes.

8 Q. You would meet him at a laundromat, right?

9 A. Yes.

10 Q. At a pizzeria?

11 A. Yes.

12 Q. And you would have conversations with him?

13 A. Yes.

14 Q. And later you learned some of those conversations were  
15 recorded?

16 A. Yes.

17 Q. And one of the things you testified to yesterday about, one  
18 of the things you testified yesterday about was bringing in  
19 patients and sometimes the doctor would discharge them, get rid  
20 of them, right, because they didn't have good paperwork, right?

21 MR. DISKANT: Objection.

22 THE COURT: I'm sorry?

23 MR. DISKANT: Objection.

24 THE COURT: Ground?

25 MR. DISKANT: Multiple part question.

G38LMIR3

Correa - cross

1 MR. MAZUREK: I'll rephrase, your Honor.

2 Q. There came a time when you were working with the doctor,  
3 you would see that the doctor would discharge patients, no  
4 longer treat them because he found out there was a problem,  
5 right?

6 THE COURT: Did there come a time that you became  
7 aware that the doctor would cut off patients, stop seeing them?

8 THE WITNESS: Yes.

9 THE COURT: OK. Now, did you know why that happened?

10 THE WITNESS: No.

11 Q. You saw it happen, right?

12 A. Yes.

13 Q. It happened to some of your patients?

14 A. Yes. They were a patient for too long, the doctor would  
15 get rid of them.

16 Q. Now you know what the answer is --

17 MR. DISKANT: Objection.

18 Q. -- of why patients were discharged, do you know or not?

19 A. Of my patient, yes. Of others, I don't.

20 Q. For your patients, your testimony is that oh, because they  
21 were being seen for too long?

22 A. Yes. That's what the doctor told them.

23 Q. You were only there ten months, right?

24 A. Yes.

25 Q. And there are patients that you know were seen for longer

G38LMIR3

Correa - cross

1 than ten months at a time, right?

2 A. I have no idea how long the patient were there.

3 Q. Did any of your patients stay for more than ten months?

4 A. There's a possibility, yes.

5 Q. You were not in the room with the doctor when he's talking  
6 to your so-called patients, right?

7 A. No.

8 Q. Now, did there come a time where you were trying to get  
9 patients in, back in to see the doctor after they had been  
10 discharged?

11 A. No.

12 Q. Did you ever know of occasions where the doctor would say  
13 that because he checked the phone number on the MRI or  
14 referral --

15 THE COURT: The objection is sustained.

16 Q. Did you ever know --

17 THE COURT: By the way, while it's nice to see the  
18 government stand, I would appreciate it if you would put a word  
19 on the record.

20 MR. DISKANT: Yes, your Honor.

21 Q. Did there come a time when you knew that Dr. Mirilishvili  
22 was checking, verifying MRIs or referrals?

23 A. In my ten months of working there, I can only recall him  
24 checking maybe about eight or nine of all the time that I was  
25 there. And when he did check them, he would come out screaming

G38LMIR3

Correa - cross

1 why nobody checked, whose patient this person belongs to.

2 Q. My question is did you know while you were working there  
3 that Dr. Mirilishvili would check or verify MRI or referrals?

4 THE COURT: Do you know if, do you know if he checked  
5 and verified MRI and referrals?

6 THE WITNESS: Yes.

7 THE COURT: Do you know if. OK. Did he or did he not  
8 do that?

9 THE WITNESS: Yes, he did.

10 THE COURT: He did that. Next question.

11 Q. And would he -- do you know if he then would inform the  
12 office personnel not to give an appointment to that patient  
13 again?

14 THE COURT: Did you ever hear him tell someone, don't  
15 give Joe Blow an appointment anymore?

16 THE WITNESS: No.

17 Q. Well, when you were interviewed on May 1, 2014 to the DEA  
18 agents at the time of your arrest, isn't it true -- and I refer  
19 the government to page 2 of 3501-22 -- that you told the agents  
20 then on May 1, '14, that Dr. Mirilishvili would inform the  
21 office personnel not to give an appointment again to those  
22 patients; isn't that what you said then?

23 THE COURT: To what patients? There's a foundation  
24 missing here.

25 MR. MAZUREK: OK.

G38LMIR3

Correa - cross

1 Q. Isn't it true that you told the agents that once in a  
2 while, Dr. Mirilishvili would actually call the phone number on  
3 the MRI provided by a patient and if he determined the MRI to  
4 be fraudulent, he would not write a prescription for the  
5 patient. In addition, he would inform the office personnel not  
6 to give an appointment again to this patient.

7           Isn't that what you told them?

8 A. Yes, I did tell them that. But they were --

9           THE COURT: Yes, you did tell them that. That's the  
10 end of the answer.

11 Q. Now, did you also know that the office personnel routinely  
12 ignored Dr. Mirilishvili's request and rescheduled the patient  
13 anyway?

14 A. Yes.

15 Q. And was that, sir, because it was easy to fool the doctor  
16 and have the patient return because of the volume of patients  
17 that he saw?

18 A. I don't know if he was being fooled, but they just gave new  
19 appointments out.

20 Q. Isn't it true on May 1, 2014, that's what you told the  
21 agents, that it was easy to fool the doctor and have the  
22 patient return because of the volume of patients  
23 Dr. Mirilishvili saw?

24 A. If I used the word fool, it was wrong word to use at the  
25 time.

G38LMIR3

Correa - cross

1                   THE COURT: The question isn't whether it was the  
2 right word or the wrong word. The question is did you say that  
3 to the agent?

4                   THE WITNESS: Yes.

5                   THE COURT: Thank you.

6                   MR. MAZUREK: Thank you, Judge.

7                   Q. Now, did you know also that in bringing patients back,  
8 sometimes the office staff would change the name of the patient  
9 in order to fool the doctor, did you know that?

10                  A. I don't understand the question.

11                  Q. Did you know that in the circumstance that we just talked  
12 about, when a patient that the doctor kicked out, the office  
13 staff would change the name of the patient sometimes to get the  
14 patient back in, did you know about that?

15                  A. No, not for those circumstances, no.

16                  Q. Did you know multiple names were being used for the same  
17 patient?

18                  A. Some patients would come in posing as other patients.

19                  Q. You talked yesterday about a number of patients that you  
20 directed to the office. How many patients did you have, about  
21 ten or so, is that about right?

22                  A. Yes.

23                  Q. And you knew other people who were bringing in about ten  
24 patients during the course of time that you worked there?

25                  A. Yes.

G38LMIR3

Correa - cross

1 Q. And how many of these bosses did you know?

2 A. Probably like four or five.

3 Q. Four or five. And let's say that they each had about ten,  
4 that would be about 50 patients, and you, let's say 60  
5 patients. Is that fair?

6 A. Yes.

7 Q. And the number of patients that you also testified about  
8 yesterday that Dr. Mirilishvili was seeing at the time were  
9 about 30 to 40 a day?

10 A. Yes.

11 Q. Five days a week; is that right?

12 A. Yes.

13 Q. That's about 150 patients a week; is that fair?

14 A. Yes.

15 Q. And he worked maybe 50 out of 52 weeks; is that also fair?

16 A. Excuse me?

17 Q. He took maybe two weeks vacation during the year, right,  
18 the time that you were there?

19 A. Not that I can remember. I believe he took a one-week  
20 vacation when I was there. That was about it.

21 Q. He would come to the office mostly every day, right?

22 A. Yes.

23 Q. About 8 o'clock in the morning and leave sometime between  
24 five and six at night?

25 A. Yes.

G38LMIR3

Correa - cross

1 Q. So he had an average you're saying 150 patients a week, and  
2 if we say 50 weeks, that's about 7500 patient visits a year,  
3 right?

4 A. Yes.

5 Q. You knew he had literally thousands of patients, right,  
6 during the time that you were there?

7 A. Yes.

8 Q. And the patients that you were aware of from other bosses,  
9 as you call them, and yourself total to be about 60, 70  
10 patients?

11 A. I couldn't give you an exact number, but there was a lot of  
12 patients there.

13 Q. Talking about the patients with the bosses that you  
14 testified about.

15 A. Yes. I couldn't tell you exactly the number of patients  
16 they had. I wasn't counting them.

17 Q. But there are about ten, maybe 20, at most?

18 A. That might be accurate. I'm not sure.

19 Q. The price that you were getting on the street for your  
20 pills is about \$1,800 per prescription or 18 points, as you  
21 call it?

22 A. Sixteen.

23 Q. Sixteen?

24 A. Yes.

25 Q. Do you remember discussing with Damon Leonard getting or

G38LMIR3

Correa - cross

1 trying to get Damon Leonard and you were talking about 18 or  
2 1850?

3 A. Yes.

4 Q. Per script?

5 A. Yes.

6 Q. And that would be for 90 pills?

7 A. Yes.

8 Q. Are you familiar with a concept called overrides?

9 A. Yes.

10 Q. You've heard that term before used in the office?

11 A. Yes.

12 Q. And that was a term that you learned was that when  
13 patient's urine tests came back in a bad way or not positive,  
14 people in the office staff would falsify the report, right?

15 A. Yes.

16 Q. And you learned that there came a time when the doctor  
17 changed labs; is that right?

18 A. Yes.

19 Q. And do you know whether at that point in time that  
20 overrides could continue to happen?

21 A. Not that I'm aware of. I don't remember.

22 Q. You don't remember?

23 A. No.

24 Q. Did you know there came a time where there was a new lab,  
25 the doctor was requiring that the labs would go directly into

G38LMIR3

Correa - cross

1 the computer system?

2 MR. DISKANT: Objection.

3 THE COURT: The objection is sustained.

4 Q. Do you remember having discussions when you were wearing a  
5 body wire for the government with Damon Leonard on the subject  
6 of overrides?

7 MR. DISKANT: Objection, eliciting hearsay.

8 THE COURT: The objection is sustained.

9 Q. For your own patients, you were still trying to get  
10 patients into the office when you were going back after you got  
11 fired, right?

12 A. Yes.

13 Q. And you also needed to have those patients pass urine  
14 tests, right?

15 A. Yes.

16 Q. So you needed either to give specimens to -- urine  
17 specimens to the office staff in order to have a positive test,  
18 right?

19 A. Yes.

20 Q. Or you just had to pay the office staff for the override,  
21 right?

22 A. Yes.

23 Q. Did there come a point in time when you couldn't do that  
24 anymore?

25 A. Not to my recollection, no.

G38LMIR3

Correa - cross

1 Q. Did you have any patients, your patients continue to go to  
2 the office after April or May of 2014?

3 A. No.

4 Q. But you wanted them, right, you wanted to have patients  
5 there?

6 A. No. At that time I was already arrested.

7 Q. Before you got arrested, sir?

8 A. Yes.

9 Q. And you were dealing with in the spring of 2014 with Jose  
10 Lantigua selling scripts or pills?

11 A. Of the spring of 2014?

12 Q. Yes. March, about March of 2014.

13 A. I believe so, yes.

14 Q. And you were telling him that your patients were getting  
15 kicked out of Dr. Mirilishvili's office, right?

16 A. Yes.

17 Q. And you were going to another doctor, right, because  
18 Dr. Mirilishvili was being too difficult?

19 A. Well, I went to a different doctor for myself.

20 Q. And that was a Dr. Lucas?

21 A. Yes.

22 Q. But you told Jose Lantigua that all your patients, the  
23 patients, you couldn't get any patients in to Dr. Mirilishvili  
24 anymore, right?

25 A. At that time I still had some but not a lot. Maybe three

G38LMIR3

Correa - cross

1 or four, if that.

2 Q. My question though is did you tell him that your  
3 connections were getting kicked out because they were waiting  
4 too long to fill their prescriptions and then the doctor can  
5 check that on the PMP and will kick out a patient because of  
6 that?

7 A. I don't recall that conversation. When the doctor had the  
8 PMP, the patient was going to several different doctors, then  
9 he would kick them out, or if they were there for too long.

10 Q. If I show you a report, might it refresh your recollection?

11 A. Yes.

12 Q. Referring the government to 3501-16, specifically page 2.  
13 I highlighted a portion for you to read. Read to yourself.

14 Does that report help refresh your recollection, sir?

15 A. Yes.

16 Q. And so isn't it true that you learned that Dr. Mirilishvili  
17 was receiving a paper with the patient's information and date  
18 of birth and that information informs the doctor if the  
19 patients are seeing other doctors, right?

20 A. Yes.

21 Q. That if a patient waits two weeks to fill the  
22 prescription --

23 MR. DISKANT: Objection.

24 THE COURT: The objection is sustained.

25 Q. And you also knew at that time that patients were being

G38LMIR3

Correa - cross

1 kicked out because they weren't filling their prescriptions  
2 within a period of time, right? That's according to those  
3 reports.

4 THE COURT: Objection is sustained.

5 Q. You knew that for your own patients that they were being  
6 kicked out, right?

7 A. I knew they were being kicked out because of the PMP.  
8 Because of the prescription not filled, I never had that  
9 problem that I can remember.

10 Q. Isn't that true, isn't it true that's what you said to Jose  
11 Lantigua on March 13 of 2014, yes or no?

12 A. I don't remember.

13 Q. You don't remember?

14 A. No.

15 Q. And this report doesn't refresh that recollection? No?

16 A. This conversation would have been talking about the PMP.

17 THE COURT: The question is does looking at this  
18 report jog your memory that you told Mr. Lantigua that your  
19 patients weren't filling the prescriptions within a particular  
20 period of time, does it jog your memory that you said that to  
21 Mr. Lantigua?

22 THE WITNESS: No.

23 THE COURT: It does not. Next question.

24 Q. Do you remember with respect to the paying for urine, urine  
25 tests for your patients or other patients, that the office

G38LMIR3

Correa - cross

1 staff was only taking cash at a certain point?

2 A. Yes.

3 Q. Even if the patient had insurance?

4 A. I never dealt with insurance. I wouldn't know.

5 Q. Well, we saw earlier you had at least two patients, right,  
6 Ms. Ester and Mr. Hernandez, who used insurance; isn't that  
7 true?

8 MR. DISKANT: Objection. Misstates the record and the  
9 answers given.

10 THE COURT: Ask a different question, please.

11 Q. Do you know that in the office, as part of the game that  
12 you were playing was that you weren't accepting, the office  
13 decided -- the office staff decided not to accept insurance  
14 because it could be a problem down the road for the patient to  
15 obtain the prescription at the pharmacy; did you know that?

16 THE COURT: What do you mean did you know that?

17 Folks, I need you to leave, OK, to solve a problem.  
18 Don't discuss the case. Keep an open mind.

19 It's not lunch time. Lunch time is at 1 o'clock.

20 You need to step down, sir. Leave the room.

21 (Continued on next page)

G38LMIR3

Correa - cross

1 (Jury not present)

2 (Witness not present)

3 THE COURT: There are so many basic errors of evidence  
4 being made here that I can barely stand it.

5 MR. MAZUREK: Judge, if I can, my questions are based  
6 on actual recordings.

7 THE COURT: Here's the deal. You say isn't it a fact  
8 that and assert. It's how you ask the question, all right.

9 I'll give you a little lesson. Isn't it a fact that and assert  
10 whatever is in the recording. He says yes or no. If he said  
11 something else in the recording, you impeach him with the  
12 recording. You don't refresh his recollection. You offer to  
13 impeach him with his prior inconsistent statement.

14 MR. MAZUREK: I understand.

15 THE COURT: If on the other hand he says I don't  
16 recall, you can show him the recordings and then you can ask  
17 him if it refreshes his recollection. The problem is you don't  
18 ask questions that start isn't it a fact that. You ask a  
19 question in a manner that simply assumes a fact that's not in  
20 evidence, which is improper form.

21 MR. MAZUREK: It's cross-examination.

22 THE COURT: It's cross-examination. Isn't it a fact  
23 that. You still can't assume facts not in evidence in your  
24 question.

25 MR. MAZUREK: I will do that. It's just a leading

G38LMIR3

Correa - cross

1 question based --

2 THE COURT: You can ask a leading question, but you  
3 still have to ask the leading question in proper form. Isn't  
4 it a fact that your mother beat your father is a leading  
5 question, but it's a leading question in a proper form.

6 Meanwhile, if the government is going to object,  
7 objection. Objection. Not silence, not waving your hand.  
8 Objection. Get up. Assert the ground. It's driving me crazy,  
9 people. And not because my shoulder hurts. Because this is  
10 like this is law school 101.

11 MR. MAZUREK: And the one issue is, your Honor, there  
12 are so many recordings and I'm trying to do this in a time  
13 efficient way.

14 THE COURT: I don't care if you take five days to do  
15 it. But take an assertion from a recording that you want him  
16 to confirm and say isn't it a fact that boom. Didn't you say  
17 to Mr. Lantigua that. He says no. You say then I'd like to  
18 impeach you with this.

19 MR. MAZUREK: May I play the recording?

20 THE COURT: You may, absolutely. Of course you may.  
21 To impeach him with a prior inconsistent statement, absolutely.

22 MR. DISKANT: We do not disagree with that, your  
23 Honor. I just want to point out we have had at considerable  
24 expense transcripts prepared of the actual recordings.

25 THE COURT: It doesn't make any difference. It's his

G38LMIR3

Correa - cross

1 call. If he wants to have the jury sit here while you cue up  
2 recordings so that they can hear this man's voice saying  
3 something that he denies saying, not something he says he  
4 doesn't recall, but something that he denies saying, he can do  
5 it. He's allowed. Just like you would.

6 MR. DISKANT: Absolutely, your Honor. I was only  
7 going to suggest it might help to refresh the witness with the  
8 transcript of the recording.

9 THE COURT: Excuse me. Forget about refreshing. I'm  
10 talking about impeaching. If the witness says I didn't say  
11 that, he can be impeached with a prior inconsistent statement.  
12 It is not appropriate to refresh his recollection unless he  
13 says I don't recall, and the government has let this slide  
14 repeatedly. I'm not trying the case for you. Sorry. But  
15 unless he says I don't recall, it's not proper to show him  
16 something to refresh his recollection. If he says no, the  
17 answer is no, not I don't recall.

18 And if, counsel, there is an inconsistency between  
19 what he said no and what you know because of a tape, counsel,  
20 then impeach him. Don't try to refresh his recollection.  
21 There's a difference between the two.

22 MR. MAZUREK: I understand.

23 (Recess)

24 THE COURT: Really, Mr. Mazurek, didn't you say to  
25 Jose Lantigua that the sky is blue? You know what the words

G38LMIR3

Correa - cross

1 are. You've got the transcript in front of you. Didn't you  
2 say that to Jose Lantigua? He doesn't know. Let's go to the  
3 videotape. Let's play it. Let's do it.

4 MR. MAZUREK: Logistically --

5 THE COURT: I can't help you with the logistical  
6 problem. You should have the tapes cued up, ready to go.

7 MR. MAZUREK: I don't want to bore the jury either  
8 with all of them.

9 THE COURT: All I can say is you knew this is what you  
10 were going to do this morning. The tapes should be cued up and  
11 ready to go.

12 We can go about 15 more minutes and then I have a  
13 criminal matter I have to do before lunch.

Correa - cross

1 (Jury present)

2 THE COURT: OK. Case on trial continued. The parties  
3 are present. The jurors are present.

4 And, sir, you're still under oath.

5 Mr. Mazurek.

6 MR. MAZUREK: Thank you, Judge.

7 BY MR. MAZUREK:

8 Q. Mr. Correa, isn't it a fact that you learned that there  
9 were places, MRI facilities that were issuing real reports in  
10 their system on behalf of different patients?

11 A. No.

12 Q. Did you ever hear of a place called Madison MRI?

13 A. I've heard of it because patients came in with MRIs from  
14 there.

15 Q. Isn't it a fact that Damon Leonard sent you to Madison MRI  
16 on Madison -- between Madison and Fifth on 122nd Street?

17 A. You say that he sent me there? No, I never went there.

18 Q. Well, my question is not whether you ever went there. Did  
19 he ever send you there because -- in order to get an MRI for  
20 about \$40; is that right?

21 A. I don't remember that.

22 Q. And that -- isn't it a fact that there was a person there  
23 who could put it into the system so that it would be  
24 legitimate?

25 MR. DISKANT: Objection. The witness has testified he

G38LMIR3

Correa - cross

1 doesn't remember.

2 THE COURT: And he decided to move on to a different  
3 question, which is his perfect right.

4 Answer the question.

5 Q. Isn't it a fact that you knew there was a person at that  
6 Madison MRI who would take \$40, put in a patient's name, and it  
7 would be legit in their system?

8 A. No, I don't remember.

9 Q. You were trying to get patients, in the time that you were  
10 no longer in the office, you were still trying to get patients,  
11 right?

12 A. Yes.

13 Q. And in doing that, you were trying to find people to help  
14 you get more MRIs and referral letters to fool the doctor,  
15 right?

16 A. No. At that time I wasn't putting in new patients.

17 Q. You weren't putting in any new patients?

18 A. No.

19 Q. OK. Well, there came a time when after your arrest that  
20 you were wired and went in to Damon Leonard and tried to get  
21 information from him, right?

22 A. Yes.

23 Q. In your capacity of then cooperating, right?

24 A. Yes.

25 Q. By the way, you never decided to wear a wire against

G38LMIR3

Correa - cross

1 Dr. Mirilishvili, you never did that, you were never asked to  
2 do that?

3 THE COURT: Well, that's two different questions.

4 Q. You were never asked to do that?

5 A. Not that I can remember, no.

6 Q. But when you went in and wore a wire with Damon Leonard,  
7 you were obtaining information at that point, right?

8 A. Yes.

9 Q. And you obtained the information about the fact that  
10 Madison MRI was being used for purposes of putting real MRIs  
11 into their systems, right?

12 A. Not that I can recall that conversation, no. We had  
13 several conversations, but I can't recall that.

14 MR. MAZUREK: Your Honor, may I approach?

15 THE COURT: You may.

16 Q. I'm showing you what's been premarked for identification as  
17 DM603 and I'm turning to page 16, actually bottom of 15 to the  
18 middle of 16. Start here, read to yourself through here. Let  
19 me know when you're done, sir.

20 MR. DISKANT: Your Honor, anything Mr. Leonard would  
21 have said would be hearsay.

22 MR. MAZUREK: I'm asking to refresh his recollection.

23 MR. DISKANT: About something Mr. Leonard said.

24 THE COURT: So what?

25 MR. DISKANT: It's hearsay. Objection.

G38LMIR3

Correa - cross

1                   THE COURT: Excuse me. He's asking him to refresh his  
2 recollection about something which is not in evidence. What  
3 Mr. Leonard said is not in evidence and asking him to refresh  
4 his recollection will not put it in evidence. He's right.  
5 What Mr. Leonard would say is probably hearsay, but no one is  
6 trying to put anything that Mr. Leonard said into evidence yet.

7                   OK, ladies and gentlemen.

8 Q. So, Mr. Correa, now that you had a chance to read that,  
9 does that refresh your recollection that you were being  
10 directed by Mr. Leonard --

11 A. Yes.

12 Q. -- to go to Madison MRI?

13 A. Yes.

14 Q. And the reason you -- he was doing that is because he  
15 thought that you were still trying to bring in new patients,  
16 right?

17 A. Yes. That was his understanding, yes.

18 Q. Because that's what you led him to believe because you were  
19 wired for the government at the time, right?

20 A. Yes.

21 Q. And you learned that the office staff was using a place  
22 called Madison MRI to get real MRIs, right?

23 A. I don't know what they were doing at the office. That was  
24 just a way of him trying to help me.

25 Q. Trying to help you to get new patients in the office at the

G38LMIR3

Correa - cross

1 time, right?

2 A. Yes.

3 Q. And did you know this person named Heidi who was there?

4 A. No.

5 Q. You didn't know anyone by the name of Heidi?

6 A. No.

7 Q. Did you ask about whether Heidi was one of the women who  
8 was working there?

9 A. No.

10 Q. You didn't ask Damon Leonard --

11 THE COURT: He just answered the question. He said  
12 no. There's no need to ask it again.

13 MR. MAZUREK: Your Honor, I'm going to ask to play a  
14 clip of the recording.

15 THE COURT: Fine.

16 MR. MAZUREK: And specifically at 42:11, which I think  
17 is number -- one second, your Honor.

18 (Audio recording played)

19 THE COURT: You can strike that, ladies and gentlemen.  
20 They played the wrong thing.

21 MR. MAZUREK: Sorry. We're going to try to cue it up  
22 one more time.

23 (Audio recording played)

24 Q. So, Mr. Correa, you were asking whether Heidi worked there,  
25 right?

G38LMIR3

Correa - cross

1 A. Yes, I was.

2 Q. Who were you referring to?

3 A. I have no idea.

4 Q. It was your question though, right?

5 A. Yes.

6 Q. Are you trying to protect somebody?

7 A. Negative.

8 Q. After you learned this information about the MRI on  
9 Madison, did you go and investigate whether you could get an  
10 MRI there?

11 A. No.

12 Q. In your capacity then as a cooperator for the government,  
13 isn't it a fact that you learned that the doctor was putting in  
14 place a way for a urine lab to get the report directly to the  
15 doctor?

16 MR. DISKANT: Objection, assumes fact not in evidence.

17 THE COURT: The objection is sustained. Wrong.

18 Objection is overruled. Just answer the question.

19 A. Can you repeat the question?

20 Q. Yes.

21 THE COURT: Did you learn that the doctor was trying  
22 to put in place a system to get urine analysis reports sent  
23 directly to him?

24 THE WITNESS: Yes.

25 Q. And that upset the operations at the office to be able to

G38LMIR3

Correa - cross

1 do the overrides that we talked about, right?

2 A. I have no idea about that. I wasn't working at the office  
3 at that time.

4 Q. But you were wired, sir, for the government to get  
5 information, right?

6 A. Yes.

7 Q. And it's something that you learned at that time, right?

8 A. I don't know.

9 Q. You don't know.

10 THE COURT: Look, if he didn't learn it from the  
11 doctor, it's hearsay, so let's move on. You can certainly ask  
12 him if the doctor told him that.

13 Q. Now, when you were working at the office and you said you  
14 had your own patients, you were never collecting your patient's  
15 scripts in the office, right?

16 A. No.

17 Q. You do that outside the office, right?

18 A. The patient would get their own scripts and then we would  
19 go together to a pharmacy.

20 Q. So you never did any of your business in the office, your  
21 drug business, right?

22 A. No.

23 Q. You were collecting money from patients while you were  
24 working at the office in order to accept the bribe to get an  
25 appointment maybe two, three persons a day?

G38LMIR3

Correa - cross

1 A. Yes.

2 Q. About \$200 each?

3 A. For new patient, yes.

4 Q. So you were making four, \$600 a day just on that, right?

5 A. Yes.

6 Q. And you're getting that approximately five days a week?

7 A. No, not every day, no.

8 Q. Were you bringing home, in addition to the salary that you  
9 were being paid, an extra couple thousand dollars a week?

10 A. Probably a thousand, not more than that.

11 Q. About a thousand dollars a week?

12 A. Probably.

13 Q. In addition to the fact that you were selling pills on the  
14 street, right?

15 A. Yes.

16 Q. And making anywhere from 16 to \$1,800 per prescription,  
17 right?

18 A. No.

19 Q. Wasn't that how much you were getting?

20 A. That's how much I was getting when I sold it, but I had to  
21 take out whatever costs I was providing. So at the end, I  
22 would probably stay with like \$300.

23 Q. I'm just asking in terms of the dollars that you were  
24 taking in at the time for selling, it was between 16 and  
25 \$1,800, right?

G38LMIR3

Correa - cross

1 A. No. 1400.

2 Q. You said you were getting 18 points in the past, right?

3 A. No. Sixteen.

4 Q. When you were wired with Damon Leonard, you were talking  
5 about getting up to 1850 points, right?

6 A. That was a conversation so we -- so I could do business  
7 with him. At that time I didn't know what the numbers were on  
8 the street.

9 Q. You heard they were 18, right, from Damon Leonard?

10 A. Yes.

11 THE COURT: OK. I need to stop this now because I  
12 have to conference another matter and then I have a lunch  
13 meeting, OK. So we'll start again at 2 o'clock. Don't discuss  
14 the case. Keep an open mind.

1 (Jury not present)

2 THE COURT: Sir, yesterday's order continues in force.  
3 You can't talk to the government at lunch break.

4 Ms. Cucinella, it does you no good to make a face. If  
5 there's something you need to call to my attention, if you  
6 think that something that Mr. Leonard said is being offered for  
7 the truth of the matter asserted, which frankly I can't tell in  
8 the context of this case. Frequently whether something is  
9 being offered just because it was a part of a conversation or  
10 if it's being offered for the truth of the matter asserted -- I  
11 don't think there's much of an issue about what the street  
12 price is on oxycodone pills in this case. It's not what the  
13 case is about. But if there's something that you think is  
14 objectionable, please don't make a face. Get up and say  
15 objection. OK?

16 MS. CUCINELLA: Understood, your Honor. I apologize.

17 THE COURT: Thank you. I need to deal with this other  
18 case.

2 THE COURT: OK. Has everyone had a good lunch? I'm  
3 sorry. It was entirely my fault that we got delayed here.

4 Mr. Correa, you're still under oath.

5 You're up.

6 MR. MAZUREK: Thank you, Judge.

7 ABRAHAM CORREA, resumed.

8 CROSS EXAMINATION (Continued)

9 BY MR. MAZUREK:

10 Q. Mr. Correa, when you were working at Dr. Mirilishvili's  
11 clinic as a security guard, you knew that Jomaris Javier was  
12 the office manager at the time, right?

13 A. No, she was just a receptionist.

14 Q. Receptionist? Is that what you would call her? She was at  
15 the front desk?

16 A. Yes.

17 Q. You know she had some training as a medical assistant?

18 A. I believe so; I'm not sure.

19 Q. Did you ever see her certification on the wall up in the  
20 doctor's office?

21 A. Yes.

22 Q. You knew that she was altering MRI reports so that the  
23 doctor would see patients in hopes of her getting some type of  
24 payment from the patients, right?

25 A. No.

G387MIR4

Correa - cross

1 Q. You didn't know that?

2 A. No.

3 THE COURT: No, no. It's --

4 Q. Well, isn't it true that on May 1, 2014 -- and I refer the  
5 government again to the report 3501-22, page 3 -- that on May  
6 1, 2014, when you were answering questions of the DEA agents  
7 and the police --

8 THE COURT: Did you ever tell the DEA agents that?

9 Did you ever tell the DEA agents that she was altering reports?  
10 Did you ever tell them that? Yes or no.

11 THE WITNESS: No.

12 THE COURT: OK. Now.

13 Q. So, isn't it true that on that date you stated the  
14 following: Correa stated that he had seen her -- meaning  
15 Javier -- alter MRI reports so that the doctor would see the  
16 patients in hopes of her getting some type of payment from the  
17 patients?

18 THE COURT: Did you say that to a DEA agent?

19 THE WITNESS: No, not that I can remember.

20 THE COURT: You did not. OK, thank you.

21 Q. Would a report refresh your recollection?

22 THE COURT: His recollection doesn't need to be  
23 refreshed; he said he didn't say it.

24 Come here a second.

25 (Continued on next page)

G387MIR4

Correa - cross

1 (At the side bar)

2 THE COURT: They have to produce the agent for you.

3 You can completely impeach.

4 MR. MAZUREK: He said at the end of his answer I don't  
5 remember.

6 THE COURT: I didn't hear that. I apologize if that's  
7 true. I didn't hear that, but just do the impeachment --

8 MR. MAZUREK: -- with the agent.

9 THE COURT: You know.

10 MR. MAZUREK: Yes, I know. I just thought I did hear.

11 THE COURT: I missed it. My bad. I missed it.

G387MIR4

Correa - cross

1 (In open court)

2 BY MR. MAZUREK:

3 Q. Sir, isn't it a fact that while you worked at the clinic,  
4 that Dr. Mirilishvili relied on Javier to furnish him with a  
5 copy of the PMP printout?

6 A. Yes.

7 Q. And that Dr. Mirilishvili would get rid of any patients  
8 that Dr. Mirilishvili would suspect were filling prescriptions  
9 in New York and in other states at the same time from other  
10 doctors?

11 A. Yes.

12 Q. And while you were working there there was another office  
13 worker by the name of Augustine Cruz also working in the  
14 office?

15 A. Yes.

16 Q. But the doctor eventually fired him as well; is that right?

17 A. Yes.

18 Q. And isn't it a fact that Augustine Cruz would also make  
19 fake MRI reports?

20 A. Yes.

21 Q. And he would charge \$200 per report?

22 A. I don't know how much he was charging at the time.

23 Q. Does that sound about right?

24 A. Probably, yes.

25 Q. And he would do this outside of the office and keep these

G387MIR4

Correa - redirect

1 reports on a thumb drive.

2 A. Yes.

3 Q. And isn't it a fact that he did this so that there would be  
4 no evidence on the computer system at the office?

5 A. He never did MRIs at the office.

6 Q. Now, sir, you never told Dr. Mirilishvili the whole time  
7 you knew him that you were a convicted drug dealer, right?

8 A. No.

9 Q. You never told him you were buying fake MRIs, did you?

10 A. No.

11 Q. You never told him you were accepting bribes from patients  
12 to get an appointment.

13 A. No.

14 Q. You never told him any of these things, because you were  
15 afraid if you did, he would report you to the police; isn't  
16 that true?

17 A. No.

18 MR. MAZUREK: I have nothing further, your Honor.

19 MR. DISKANT: Briefly, your Honor.

20 THE COURT: You may redirect.

21 REDIRECT EXAMINATION

22 BY MR. DISKANT:

23 Q. Mr. Correa, you were asked some questions there at the end  
24 about a woman named Jomaris Javier?

25 A. Yes.

G387MIR4

Correa - redirect

1 Q. You testified that she was a receptionist in the office?

2 A. Yes.

3 Q. Did you observe Ms. Javier accept money from patients?

4 A. Yes.

5 Q. What sorts of things would she accept money from patients  
6 for?

7 A. She would accept money for overrides, she would accept  
8 money for patients who were new and for patients who wanted TO  
9 get skipped in the line.

10 Q. By override, you are referring to that practice of  
11 overriding the urinalysis report that you talked about in  
12 cross-examination.

13 A. Yes.

14 Q. During cross-examination Mr. Mazurek asked you some  
15 questions about your prior meetings with law enforcement  
16 agents. Do you remember those questions?

17 A. Yes.

18 Q. And he showed you some documents or reports of those. Do  
19 you recall that as well?

20 A. Yes.

21 Q. Did you write those reports?

22 A. No, I did not.

23 Q. Prior to defense counsel showing you those reports today,  
24 had you ever seen them before?

25 A. No, I have not.

G387MIR4

Correa - redirect

1 Q. Defense counsel asked you some questions about Government  
2 Exhibit 205.

3 Ms. Joynes, if we could bring up page 12 of that  
4 exhibit.

5 Mr. Correa, do you recall being asked about this  
6 document on cross-examination?

7 A. Yes.

8 Q. And you recall being asked questions about whether or not  
9 you had told the doctor about neck pain; do you recall that?

10 A. Yes, I do.

11 Q. Did the doctor give you a prescription for a cervical  
12 collar during this appointment?

13 A. Yes.

14 Q. And did you have an understanding of what the cervical  
15 collar was for?

16 A. Yes, it was a device to be worn around my neck.

17 Q. When you were working for the doctor, did you ever wear  
18 your cervical collar?

19 A. No.

20 Q. Did the doctor ever ask you whether or not your neck pain  
21 was affected by your work?

22 MR. MAZUREK: Objection. Asked and answered.

23 THE COURT: Overruled.

24 A. No.

25 MR. DISKANT: And, by the way, Ms. Joynes, if we can

G387MIR4

Correa - redirect

1 just zoom in on the top of this document.

2 Q. Mr. Correa, you testified -- and the document reflects --  
3 that your first appointment with the doctor was on 9/26 of  
4 2012. Do you see that on the top right corner of the document?

5 A. Yes.

6 Q. And you see just a couple lines below that it says  
7 electronically signed by Moshe Mirilishvili, and it has a date?

8 A. Yes.

9 Q. Is that September 28, 2012?

10 A. Yes.

11 Q. Fair to say three weeks or so after the appointment?

12 A. Yes.

13 Q. OK. Mr. Mazurek asked you on cross-examination about the  
14 hundreds of patients the defendant would see each week. Do you  
15 recall those questions?

16 A. Yes.

17 Q. Fair to say the defendant would have seen hundreds of  
18 patients between your visit with him on the 6th and when this  
19 document was written on the 28th?

20 A. Yes.

21 MR. DISKANT: Your Honor, may I have just a moment?

22 Nothing further.

23 THE COURT: Anything else?

24 MR. MAZUREK: Very briefly.

G387MIR4

Correa - recross

1 RECROSS EXAMINATION

2 BY MR. MAZUREK:

3 Q. On redirect the prosecutor just asked you about the reports  
4 that I was showing you. When you were -- withdrawn.

5 You have met with the government and agents  
6 approximately 20 or so times since the time of your  
7 cooperation, correct?

8 A. I can't be specific.

9 Q. More or less, sir?

10 A. Ten, 15 times probably.

11 Q. Ten or 15 times. You never met with me, right?

12 A. No.

13 Q. And with respect to those reports, when you were meeting  
14 with the government for ten or 15 times, were there agents in  
15 the room or people in the room taking notes, sir, as you were  
16 giving the answer?

17 A. Yes.

18 Q. You were just asked on redirect about Government Exhibit  
19 205 and the fact that there was an electronic signature on the  
20 document three weeks later. Do you remember that?

21 A. Yes.

22 Q. The information that was contained in that report said that  
23 you had hernia surgery two times, right?

24 A. Yes.

25 Q. That was accurate, right?

G387MIR4

Correa - recross

1 A. Yes.

2 Q. And that was the first time you ever met Dr. Mirilishvili  
3 in your life, right?

4 A. Yes.

5 Q. And you also indicated that you had a family history of  
6 diabetes, right?

7 A. Yes.

8 Q. And that was indicated on that report, right?

9 A. Yes.

10 Q. And those things were told by you to Dr. Mirilishvili on  
11 September 6, 2012, right?

12 A. Yes, it was.

13 Q. Just like you told him you fell down scaffolding stairs  
14 that required you to be hospitalized for two weeks, right?

15 A. Yes.

16 MR. MAZUREK: Nothing further.

17 THE COURT: Anything?

18 MR. DISKANT: No, your Honor. Thank you.

19 THE COURT: Thank you, sir. You may step down.

20 (Witness excused)

21 THE COURT: Call your next witness, please.

22 MS. CUCINELLA: The government calls Dr. Gregory  
23 Lawler.

24 GREGORY LAWLER,

25 called as a witness by the government,

G387MIR4

Lawler - direct

1 having been duly sworn, testified as follows:

2 DIRECT EXAMINATION

3 BY MS. CUCINELLA:

4 Q. Good afternoon, Dr. Lawler. What is your occupation?

5 A. Radiologist.

6 Q. What does it mean to be a radiologist?

7 A. A physician who interprets imaging studies of the body.

8 Q. Did you go to medical school?

9 A. Yes.

10 Q. Where did you go to medical school?

11 A. New York Medical College, Valhalla.

12 Q. When did you graduate from medical school?

13 A. 1991.

14 Q. What kind of training did you get after medical school?

15 A. Residency and fellowship. The first year I did a year of  
16 surgery internship. After that I switched into radiology.

17 After that I did a neuroradiology fellowship at the University  
18 of Iowa.

19 Q. Where do you currently work?

20 A. I have my own LLC, but I work out of an office for Radnet.

21 Q. And that's for a company called Radnet?

22 A. Correct.

23 Q. Is working for Radnet a new development?

24 A. Yes.

25 Q. How so?

G387MIR4

Lawler - direct

1 A. Radnet acquired Doshi Diagnostic Imaging recently.

2 Q. What is Doshi Diagnostic Imaging?

3 A. It's an imaging services company based in New York City  
4 that has multiple offices throughout the boroughs.

5 Q. For how long have you worked at Doshi Diagnostic?

6 A. Well, I started August 2010 as an independent contractor,  
7 and then I switched over to being an employee in October of  
8 2014.

9 Q. The entire time you worked there, have your duties and  
10 responsibilities maintained the same?

11 A. Yes.

12 Q. And what are some of those duties and responsibilities as a  
13 radiologist at Doshi?

14 A. Interpreting imaging studies of the body including the  
15 brain, spine, head and neck. We do various types of studies,  
16 MRI, CAT scan, x-ray, ultrasound, tomography. We also do  
17 procedures, minor procedures there. I also supervise any  
18 imaging that is done, especially MRI and CAT scan. I have to  
19 observe if there is any reactions to IV contrast, and treat  
20 that if there is something that happens.

21 I interact with the technologists, the management and  
22 the front desk people to make sure that things go smoothly. I  
23 speak with doctors that are referring patients, to either ask  
24 questions about the patient or give them the results directly  
25 if it's an important result.

G387MIR4

Lawler - direct

1 Q. Just going back to your background for a moment. After  
2 your fellowship before you started at Doshi, had you worked  
3 with other imaging groups?

4 A. Yes.

5 Q. Approximately how many?

6 A. Approximately six.

7 Q. And since you started working with those six imaging groups  
8 through the current time, approximately how many imaging  
9 studies have you reviewed?

10 A. Hundreds of thousands. Approximately 15 to 20,000 per  
11 year.

12 Q. And for how many years?

13 A. 19. That's not including fellowship or residency. That's  
14 just working. So, before that I did residency and fellowship  
15 and medical school, so many, many thousands more.

16 Q. Dr. Lawler, can you explain for the jury how a patient ends  
17 up at an imaging services center like Doshi?

18 A. So the patient will be referred by a physician who is the  
19 treating physician. They will see the patient, examine the  
20 patient, take a history and physical. They may do some blood  
21 tests or other testing, and then they feel it might be  
22 appropriate to do a certain imaging study, and then they would  
23 refer that patient to get the imaging study at a various office  
24 center, radiology center. They give a patient a referral form  
25 which is essentially a prescription for the study. They would

G387MIR4

Lawler - direct

1 fill out all of the information at the top of the form,  
2 including the patient's name, date of birth, the history --  
3 pertinent history -- the exam that's ordered, their  
4 information. Typically there is authorization by insurance for  
5 that study; the authorization information is there. If there  
6 is any blood lab values that are pertinent, they will put that  
7 in. Then they will sign the form, authenticate it and give  
8 that to the patient.

9 Q. And that's information that's then transmitted to Doshi?

10 A. Yes, so typically the patient will -- either the doctor's  
11 office or the patient will schedule the exam at the center. So  
12 they might call ahead, or they might show up. Most people will  
13 call ahead and get a scheduled appointment.

14 Q. And what happens during a patient's appointment at Doshi?

15 A. So, they will present themselves to the front desk when  
16 they come in and get checked in. They will show ID. They will  
17 give the front desk person the form, the referral form. They  
18 will put their information into the system if it does not  
19 exist. If it does exist, they will pull it up with their date  
20 of birth, name, their chart number. They will make sure that  
21 the insurance is correct, that it's approved, that the patient  
22 has a copay, whether it's \$10 or whatever; they will pay that.  
23 Then once that is all set, they will give them a bunch of forms  
24 to fill out, including HIPAA forms that have to be signed,  
25 information about the study, about their history, pertinent to

G387MIR4

Lawler - direct

1 that study, why they're there essentially.

2 Q. Just stopping you for a second. You mentioned a copay.

3 Does Doshi see insurance patients and self pay patients?

4 A. Yes.

5 Q. Do you know how much an MRI costs for a self pay patient?

6 A. It depends. It's rare that a person would come in and self  
7 pay. It's extremely rare. Typically what happens is the  
8 person, the patient, will speak to the manager, and they will  
9 try to come up with a number. They base it off of the rates  
10 that are typical for let's say Medicare or Medicaid, and they  
11 try to help the patient, especially if they don't have much  
12 money, so they can get the study done. So I don't really get  
13 involved with that, but I know it's very unusual for that to  
14 happen.

15 Q. As a radiologist, are you involved in administering  
16 diagnostic studies? Say, for example, an MRI.

17 A. Well, there is a radiology technologist who is certified,  
18 went to school, who will typically administer the test under my  
19 supervision. So I will be there physically reading studies,  
20 but the tech will be doing the MRI while I'm reading other  
21 studies.

22 If there is a question about the images or how to do  
23 it, if they see something during the exam that looks  
24 suspicious, they will ask me to look at it. I will add more  
25 images or contrast, which is IV contrast. So I'm there working

G387MIR4

Lawler - direct

1 as they're doing their thing.

2 Q. And then do you actually read the images that are created?

3 A. Yes.

4 Q. And do you then create a report?

5 A. Yes.

6 Q. What kind of information is contained in your typical  
7 report?

8 A. Well, just so you know how it works, the images that are  
9 acquired -- let's say it's an MRI -- the study will be  
10 finished, they will close out the exam, the images will go to  
11 the system which is called PACS. Can I get some water?

12 So, once the study is finished, the images will go to  
13 the computer system which is called PACS. Those images will be  
14 on a work station which I can access and read. And there is  
15 multiple monitors. But essentially what I see is the patient's  
16 name, their date of birth, the medical record number and the  
17 study that was done in a list. And I will click on that, it  
18 will come up on the other monitors. I will look at the images,  
19 interpret the images. In an MRI there are many hundreds and  
20 hundreds of images, depending on what kind of study is done.  
21 And then I will dictate the report into a dictation microphone.

22 Q. And what kind of information goes into that report?

23 A. Well, you mean the actual report, the physical report?

24 Q. Yes.

25 A. OK. So, there is a typical format that we use at Doshi,

G387MIR4

Lawler - direct

1 now Radnet. But at the top there is a header that says Doshi  
2 Diagnostic Imaging; it has a logo. Below that there, the top  
3 right, there is the ordering physician's information, including  
4 their name, their address, their phone number, fax number.  
5 Below that is the location at Doshi where the study was done.  
6 So let's say it might be at a certain location like Fordham or  
7 Washington Heights or Pelham Bay or somewhere in Brooklyn. It  
8 will say that. It will have that information and then the  
9 phone number of that center.

10 So, on the left, top left, will have the patient's  
11 information, their name, the date of birth, their medical  
12 record number for Doshi that we have internally, the date of  
13 service which is the date of the exam, their gender. I don't  
14 have one in front of me, but there is also identifying  
15 information for the patient. Then that's the top.

16 Then below that in bold is the actual imaging study  
17 that was done. Let's say it's an MRI of the lumbar spine,  
18 that's usually bolded. Below that there is a typical format  
19 that we utilize that has different fields that are populated or  
20 have to be followed as we dictate. So, below that --

21 Q. Do all Doshi reports follow the same format?

22 A. Yes.

23 Q. On those reports, does it ever list a referral for, say,  
24 pain management?

25 A. No.

G387MIR4

Lawler - direct

1 Q. In all of the reports you have ever created, have you ever  
2 listed a referral for pain management?

3 A. No.

4 Q. In all of the reports that you have ever created at Doshi,  
5 have you ever listed a recommendation for a type of medicine?

6 A. No.

7 Q. Have you ever listed that a patient should be prescribed  
8 oxycodone?

9 A. No.

10 Q. After the report is written or generated, where does it go?

11 A. Once it's dictated, it goes back to me, and then I  
12 proofread it and electronically sign it. Then from there it  
13 will be sent to the ordering physician.

14 Q. When you say the ordering physician, that's the doctor that  
15 originally referred the patient for the MRI?

16 A. Yes.

17 Q. How is the report transmitted to that referring physician?

18 A. There is a couple of ways that it can be done. Typically  
19 most doctors will have it faxed and auto faxed, so that once  
20 it's signed electronically, it will be automatically faxed to  
21 that number that the doctor has at their office. Some will use  
22 the Internet to be able to view images and the reports via a  
23 secured website. They can only view their own patient's  
24 information, their studies and reports, and nobody else's.

25 Q. Do the reports ever get handed out to patients?

G387MIR4

Lawler - direct

1 A. Extremely rarely, extremely rarely.

2 MS. CUCINELLA: Your Honor, at this time and without  
3 objection from the defendant, we would like to offer  
4 Government's Exhibits 553, 554, 555 and 556, subject to  
5 connection.

6 MR. GOSNELL: No objection, your Honor.

7 THE COURT: Thank you.

8 (Government's Exhibits 553, 554, 555 and 556 received  
9 in evidence)

10 MS. CUCINELLA: May I approach?

11 Q. Dr. Lawler, I'm handing you folders that contain some  
12 documents. I'm going to first direct your attention to what  
13 has been marked as Government Exhibit 554, and I'm going to ask  
14 that you turn to page 5 of that exhibit.

15 Your Honor, may we ask to publish to the jury?

16 THE COURT: Yes.

17 MS. CUCINELLA: Ms. Joynes, if you could pull up page  
18 5.

19 Q. Dr. Lawler, have you seen this document before?

20 A. Hold on.

21 Q. It should also be on the small screen in front of you, and  
22 I believe you should have the hard copy.

23 A. Oh, OK. Sorry. Yes.

24 Q. Have you seen this document before?

25 A. Yes.

G387MIR4

Lawler - direct

1 Q. When did you see it?

2 A. When I spoke with you last week, and then I looked at it  
3 again today.

4 Q. Does this resemble a Doshi MRI report?

5 A. Somewhat.

6 Q. Can you tell us how it's like a Doshi report and how it's  
7 not like a Doshi report?

8 A. Yes. So at the top -- can I point? No? Just say? Do you  
9 have like a pointer?

10 Q. I think if you describe it, the jurors have it on their  
11 screen, so they should be able to follow along. If it becomes  
12 an issue, we will figure it out then.

13 A. OK. So, at the top it says Doshi Diagnostic Imaging  
14 Services. There is a lot of little dots around it when you  
15 look at the actual document, and that's suspicious to me.

16 MR. GOSNELL: Objection.

17 THE COURT: Overruled.

18 A. Above that to the left there is a very faint Doshi logo,  
19 which is extremely hard to see and not typical.

20 Q. What else?

21 A. So then going down the top right you have the doctor's name  
22 and address and number, phone number. Something that is not  
23 there is the fax number which is always there so that reports  
24 can go to the doctor.

25 Q. That's something that would always be in a Doshi report?

G387MIR4

Lawler - direct

1 A. Yes.

2 Q. What else?

3 A. So below that it says location Fordham. That's misspelled,  
4 just F-o-r-d-a-m. It should be F-o-r-d-h-a-m. So that's  
5 suspicious right off the bat.

6 OK. Moving on to the patient, top left, it says RE  
7 and then colon. So the RE and colon look OK to me, look  
8 similar, however, the patient's name is in different font. It  
9 looks like it has been literally cut and pasted in. There is a  
10 line below it.

11 On all Doshi reports the names are bolded and the last  
12 name is first and then a comma and then a space, and a  
13 patient's first name. So in this case it has the patient's  
14 first name and then the last name, which is totally incorrect.

15 Also, if you look at the chart number, it says chart  
16 number colon 0679. If you look at it really closely, the zero  
17 has been kind of clipped at the top, and it looks like the name  
18 when it was pasted in covered a bit of the top of the zero.

19 Q. Turning to the body of the MRI?

20 A. I'm not done yet.

21 Q. Apologies.

22 A. There is a lot more. OK, so patient's phone number it says  
23 NA. That's very unusual to not have a phone number.

24 The next thing is the date of birth, it says DOB.  
25 That looks authentic, however, the date of birth is a

G387MIR4

Lawler - direct

1 completely different font, and it looks like it's been pasted  
2 in; there is a line below it.

3 Also of note it says the patient is a male. So, I  
4 don't know Lanique Brown, but I assume Lanique is a female  
5 name.

6 MR. GOSNELL: Objection.

7 THE COURT: Objection is overruled.

8 A. The date of service is 5/6/14.

9 Then going to the body it says exam, MRI scan of  
10 lumbar spine. That looks OK to me. Clinical data, back pain.  
11 Then the technique looks to be OK; it looks like a Doshi  
12 report. Prior studies is OK. Findings, the type looks  
13 similar; it's the same as a Doshi.

14 And then it comes to the impression, which is at the  
15 bottom. So, the actual type looks OK, but right below that  
16 there is typically a space, at least one. And here there is  
17 something that I have never seen before in other reports that's  
18 been inserted, and that says recommendation: Referral to pain  
19 management.

20 Below that is the physician who read the study, the  
21 radiologist, Mark Armstrong, and it says he is board certified  
22 in diagnostic radiology and neuroradiology which is the same  
23 credentials I have.

24 It does say the document is electronically signed at  
25 the bottom left, however, it always would say when that was

G387MIR4

Lawler - direct

1 signed, the date and the time. And that's missing.

2 Q. Dr. Lawler, how many pages are there in Government Exhibit  
3 554?

4 A. Six.

5 Q. And did you review all six of those pages before you  
6 testified today?

7 A. Most of them. I don't know if I checked all of them, but  
8 most of them, yes.

9 MS. CUCINELLA: Ms. Joynes is it possible to put  
10 another one of those pages up against Lanique Brown's?

11 Q. Looking at the one for Rozell McDonald, and consistent with  
12 the other pages in 554, are those essentially copies of the  
13 same MRI?

14 MR. GOSNELL: Objection.

15 A. They are --

16 THE COURT: Hang on. Hang on. Ground?

17 MR. GOSNELL: Speculation.

18 THE COURT: Overruled.

19 A. Just give me one second. Ask the question again.

20 MS. CUCINELLA: We need the judge to rule first.

21 THE COURT: I did.

22 MS. CUCINELLA: I didn't hear you.

23 THE COURT: I said the objection is overruled.

24 Q. Go ahead and answer. My mistake.

25 A. OK. So can you ask that again, please.

G387MIR4

Lawler - direct

1 Q. Sure. Do the documents in 554, each of the individual  
2 pages, appear to be copies of the same MRI?

3 A. The body of the report is exactly the same on all of these.

4 Q. And the patient names are different?

5 A. There are several differences which I can go over, but the  
6 patients' names are different.

7 Q. Can we now turn to Government Exhibit 553, which should be  
8 another folder that you have up there.

9 Ms. Joynes if you can just pull up the first page,  
10 please. Thank you.

11 Looking at the first page of Government Exhibit 553,  
12 have you seen this document before?

13 A. Yes.

14 Q. Does it resemble an MRI report from Doshi Diagnostic  
15 services?

16 A. Somewhat.

17 Q. What are some of the differences between this and a  
18 legitimate Doshi Diagnostic report?

19 A. OK. So like the last reports, if you look at the top it  
20 says Doshi Diagnostic Imaging Services. There is a very faint  
21 Doshi logo and little specs or flecks around it, which is  
22 concerning.

23 The doctor's name on the top right is there. Again  
24 there is a phone number but no fax number. The location is  
25 Pelham Bay, which is actually where I work, however, it's

G387MIR4

Lawler - direct

1 signed by a doctor that doesn't work for Doshi, Dr. Harvey  
2 Lefkowitz. They also misspelled diplomate in the American  
3 Board of radiology. I don't know if this guy is board  
4 certified, but they misspelled that.

5 If you look at the name of the patient, it says Guy  
6 Green. So they got part of it right in that they put last name  
7 first and then a comma before the first name, however, the font  
8 is completely different and wrong.

9 The chart number is 044754. They did get the sex  
10 right, and the date of service is 6/18/14.

11 Now then they go into indication. First of all the  
12 problem -- one of the problems here is that the exam is always  
13 at the top, below that line. So, they inserted indication  
14 above exam, and that never happens. And it doesn't say  
15 indications; it says history.

16 Then the next field will say exam. Then the history,  
17 technique, which is not here. It doesn't say technique at all.  
18 And then it goes into the prior studies, which is not here as a  
19 field. And then it will say findings colon, and that's not  
20 here either. OK?

21 So then they have a body of a report -- which has  
22 Doshi font -- and an impression. After that there it says  
23 sincerely, and we don't sign it that way at all.

24 And then there is this hopefully a doctor, legitimate  
25 doctor, that has his name on the bottom. I don't know this

G387MIR4

Lawler - direct

1 doctor at all from Doshi. And diplomate is spelled  
2 incorrectly. And then it has HL/rs, which is typical for the  
3 name of the initials of the doctor that wrote the report and  
4 then the transcriptionist. However, again it's missing the  
5 date and time it was electronically signed, and it does not say  
6 it was electronically signed at all.

7 Q. I'm going to ask you, Dr. Lawler, how many pages are there  
8 in Government Exhibit 553?

9 A. Three.

10 Q. Looking at those three pages --

11 Ms. Joynes, if you can put up the second page, because  
12 I don't think we can put all three up on the screen --

13 Do those pages, do they appear to be copies of each  
14 other with respect to the substance of the report?

15 A. The body of the report is exactly the same in all three.

16 Q. I'm now going to direct your attention to Government  
17 Exhibit 555.

18 Ms. Joynes, if you can pull up the first page, and can  
19 you put the second page side by side.

20 Dr. Lawler, does this resemble a Doshi Diagnostic MRI  
21 report?

22 A. No.

23 Q. How is it different?

24 A. So, starting at the top.

25 Q. Page 1.

G387MIR4

Lawler - direct

1 A. Of page 1, on the left there, it says Doshi Diagnostic  
2 Imaging Services. That to me looks like it's been pasted onto  
3 this page literally.

4 Q. Does Doshi Diagnostic, do they make pain management  
5 referrals?

6 A. No, ever, ever.

7 Q. And how many documents, two-page documents are in  
8 Government Exhibit 555?

9 A. Nine.

10 Q. And are they all somewhat the same? Are the bodies of them  
11 the same?

12 A. So, if you look at both pages, they refer to the same  
13 patient, so they go together, so it's like one kind of quote  
14 document unquote.

15 So the first page says pain management referral. So  
16 we never, ever -- I have never seen this form ever, and we  
17 never ever generate a report like this.

18 Q. Why don't Doshi make referrals?

19 A. We're not the treating doctor, so it's inappropriate  
20 medically to do this. And this doctor does not even work for  
21 Doshi.

22 Q. And Government Exhibit 555, does it include what appear to  
23 be almost exact copies of those two pages for multiple  
24 patients?

25 A. One second. There are some differences, but I can get into

G387MIR4

Lawler - direct

1 that if you want. It's up to you.

2 Q. What types of differences do you see just generally?

3 A. OK. In general, first of all, the pain management referral  
4 sheet is similar. OK? And if you look at the actual wording  
5 after indication, it has the same wording. OK?

6 OK. One thing that's very concerning to me is that it  
7 says patient ID, and we don't even use that at Doshi. And then  
8 it has a totally unauthentic medical record number. It says  
9 SIG8245066. And that doesn't -- I have never seen that before.  
10 The numbers are too many. And we never use letters in the  
11 record number. And we don't say patient ID.

12 Q. So this is not a legitimate Doshi document?

13 A. Completely fabricated, totally.

14 Q. I'm going to direct your attention now to Government  
15 Exhibit 556.

16 Ms. Joynes, if you can put the first two pages up.

17 Can you just look at the first two pages, Dr. Lawler.  
18 Are these legitimate Doshi documents?

19 A. No, absolutely not.

20 Q. How do you know?

21 A. Many, many, many things on these two pages, many things.

22 Q. Why don't you walk us through a couple of them.

23 A. OK. Well, the first thing is these don't exist in the  
24 Doshi system at all.

25 Q. What do you mean by that?

G387MIR4

Lawler - direct

1 A. I mean they did a really nice new logo for Doshi which  
2 doesn't exist. I mean it's a great job; it looks like a third  
3 grader might have done it, pasted it literally.

4 Q. What else?

5 A. So that's very creative.

6 OK. So on the left page it says MRI lumbar spine  
7 without contrast. And above that it has the patient's name and  
8 medical record and chart number. Excuse me. So that font for  
9 the patient is completely incorrect, as is the chart number.

10 Also, there is no last name and then a comma and then  
11 the first name, so that's totally incorrect.

12 Now, what appears to have happened is that this report  
13 looks like it has been run through the copying machine many,  
14 many, many times to me. And actually this page is the second  
15 page of a full MRI report, so you don't even have the rest of  
16 the report beginning with all the other things I spoke about  
17 and then finally the impression here. But you're missing half  
18 the report essentially for an MRI report for an MRI of the  
19 lumbar spine -- radiology report.

20 (Continued on next page)

G38LMIR5

Lawler - direct

1 BY MS. CUCINELLA:

2 Q. So for any valid MRI radiology report this is incomplete?

3 A. Absolutely.

4 Q. What about the second page?

5 A. Well, hold on.

6 Q. Sorry.

7 A. Hold on. So at the bottom it has my name, which is  
8 beautiful. Can I get some more water? Which is very  
9 concerning because this is not my report and it's my name and  
10 it says -- has my credentials and my reputation and it has  
11 somebody else's signature there. So that upset me to say the  
12 least.

13 The next page says MRI referral form and this does not  
14 exist. This is not a Doshi form. First of all, again, the top  
15 logo and the whole thing is completely fabricated. Then we  
16 don't even have an MRI referral form like this.

17 Now, what they did, apparently, is they got an MRI  
18 screening form --

19 MR. GOSNELL: Objection, your Honor.

20 THE COURT: The objection is sustained.

21 THE WITNESS: OK.

22 THE COURT: The objection is sustained. You should  
23 stop talking.

24 THE WITNESS: Don't say anything.

25 THE COURT: Right.

G38LMIR5

Lawler - direct

1                   Ask your next question, please.

2 Q. What about the second page makes clear to you that this is  
3 not a Doshi document?

4 A. So MRI referral form does not exist. The body of this  
5 piece of paper is actually, if you read it, is an MRI safety  
6 screening questionnaire to make sure that the study can be done  
7 safely, that there's no pacemaker in particular, stimulators,  
8 other metal in the body that might cause artifact or cause  
9 issues with the MRI. The MRI is an extremely powerful magnet  
10 and it has to be done safely.

11 Q. Is there anything about this document that conveys  
12 medically important information to a treating physician?

13 A. No.

14 Q. Directing your attention to the additional pages in  
15 Government Exhibit 556, do they all look substantially similar  
16 to these two pages?

17                   Apologies. Do you have more to say on this one?

18 A. Oh, yeah. So if you look at the first page, it says  
19 female, Anastasia M. Ezekia. And then on this page which goes  
20 with this, it says Anastasia Ezek. So I don't know if the  
21 patient is female or first name or what. That's very  
22 different. The date of birth appears to have been inserted  
23 there. My name is there and I never, ever signed or filled out  
24 any of these forms.

25 Q. Does your name appear on the other documents in Government

G38LMIR5

Lawler - cross

1 Exhibit 556 as well?

2 A. Yes, unfortunately.

3 Q. Dr. Lawler, in the other radiology firms that you've worked  
4 at, have you ever issued a pain management referral?

5 A. No.

6 MS. CUCINELLA: Nothing further.

7 MR. GOSNELL: May I inquire, your Honor?

8 THE COURT: You may.

9 MR. GOSNELL: Thank you, your Honor.

10 CROSS-EXAMINATION

11 BY MR. GOSNELL:

12 Q. Good afternoon, Dr. Lawler. My name is Wayne Gosnell. I  
13 represent Dr. Mirilishvili.

14 You and I have never met before, right?

15 A. No.

16 Q. And you never met Dr. Mirilishvili before?

17 A. No.

18 Q. I want to go back --

19 THE COURT: You need to say that, so you can't just  
20 nod.

21 THE WITNESS: I said no.

22 THE COURT: I'm sorry. I didn't hear it.

23 Q. So on direct examination, you talked about the purposes of  
24 an MRI scan, right, the purpose of doing an MRI imaging?

25 A. The purpose --

G38LMIR5

Lawler - cross

1                   THE COURT: Do you remember testifying about the  
2 purpose of doing MRI imaging a few minutes ago?

3                   THE WITNESS: I just want to be clear about what  
4 you're asking.

5                   THE COURT: He's asking if a few minutes ago you  
6 testified generally about why people do MRIs.

7                   THE WITNESS: Generally, yes.

8                   THE COURT: Great. Fine.

9 Q. And an MRI scan or an MRI image is a detailed image of a  
10 person's organs, tissues, and bones.

11                  THE COURT: Is that correct?

12 Q. In very general terms.

13 A. Very general, very general.

14 Q. It's a diagnostic tool for physicians.

15                  THE COURT: Ask questions. Don't make a statement.

16 Q. Is it a diagnostic tool for a physician?

17 A. For the patient.

18 Q. And it's the image and the report is something that you  
19 expect a doctor to rely upon?

20 A. Yes.

21 Q. In determining a course of treatment for a patient?

22 A. No.

23 Q. In what way do you expect a doctor to rely upon an MRI  
24 report or scan?

25 A. For diagnosis.

G38LMIR5

Lawler - cross

1 Q. To diagnose a problem with the patient that the patient is  
2 experiencing?

3 A. For a medical diagnosis.

4 Q. So, for example, if -- one of the things that you could use  
5 an MRI report to diagnose would be the cause of a spinal  
6 injury?

7 A. Say that again?

8 Q. One of the things, one of the medical conditions that you  
9 could use an MRI report to diagnose would be the cause of a  
10 spinal injury?

11 THE COURT: Can you use an MRI to figure out what  
12 caused a spinal injury?

13 THE WITNESS: No.

14 THE COURT: Right.

15 Q. Can you use an MRI to determine whether there is a spinal  
16 injury?

17 A. Yes.

18 Q. Such as disk herniation, disk bulges, things like that?

19 A. Very generally.

20 Q. And you testified on direct examination that over your  
21 entire medical career, you viewed hundreds of thousands of  
22 diagnostic images?

23 A. Yes.

24 Q. Fair to say that you have a specialty in that?

25 A. I'm board certified in that.

G38LMIR5

Lawler - cross

1 Q. That means you have additional training, additional  
2 experience than doctors who are not board certified in  
3 radiology?

4 A. It's more than that.

5 Q. What else goes into being board certified in radiology?

6 A. Well, first you have to graduate medical school. Then you  
7 do an internship. Then you do a residency. Then you do a  
8 fellowship, possibly, as I did, which is in neuroradiology.

9 Q. What is neuroradiology?

10 A. It's image guided procedures of the brain and spine and  
11 head and neck as well.

12 Q. Throughout all of those things you've gotten to there, you  
13 were reviewing images of MRIs, CAT scans, things like that.  
14 Your residency, fellowship, during each of those times, you  
15 were reviewing those types of diagnostic images?

16 A. Yes, depending on during residency and fellowship, it was  
17 under the teaching and supervision of a staff physician or  
18 professor.

19 Q. And what else goes into being board certified in radiology?

20 A. Well, after you meet the requirements from residency and  
21 fellowship perspective, you have to take a written and an oral  
22 exam and to be certified. And to maintain that had you must  
23 continue medical education with many credits, including the  
24 area of your field. And it's very specific, but there's a lot  
25 of requirements to maintain that certification.

G38LMIR5

Lawler - cross

1 Q. And one of those requirements is reviewing diagnostic  
2 images and creating reports of your findings from those images?

3 A. No.

4 Q. You do that on a regular basis though?

5 A. I just said no. You didn't listen.

6 Q. Do you do those things on a regular basis?

7 A. Do what?

8 Q. Review diagnostic images and create reports or approve  
9 reports?

10 A. Yes.

11 Q. Now, you said that Doshi Diagnostic has recently been  
12 acquired by another company?

13 A. It was bought, yeah.

14 Q. When it was just -- before that, it was located, they had  
15 clinics that were located in New York?

16 A. Yes.

17 Q. And in New Jersey?

18 A. In the past, yes. That was before my time so I'm not real  
19 familiar with where. Those offices were sold previously.

20 Q. There had been clinics in New Jersey?

21 A. That's my understanding.

22 Q. And there had been clinics in Florida?

23 A. Yes. That's a separate entity though.

24 Q. OK. And there are, there are currently about 700 employees  
25 at Doshi?

G38LMIR5

Lawler - cross

1 A. I have no idea.

2 Q. About 60 doctors?

3 A. There's actually zero employees at Doshi.

4 Q. Before it was acquired, there was about 700 employees?

5 A. I have no idea.

6 Q. About 60 doctors?

7 A. No.

8 Q. More or less?

9 A. Less.

10 Q. And about several hundred technicians who were creating the  
11 images?

12 A. I don't think it was that many. They're not technicians,  
13 by the way.

14 Q. What are they?

15 A. Technologists.

16 Q. Technologists, OK. Would you say that Doshi Diagnostic  
17 would run, as a company wide, would run more or less than a  
18 million images a year?

19 A. No.

20 Q. Would it be more or less?

21 A. A lot more. Images?

22 Q. Images.

23 A. Depends what you mean by images.

24 Q. Well, MRI imaging.

25 A. Well, each MRI has -- can have thousands of images.

G38LMIR5

Lawler - cross

1 Q. OK.

2 A. CAT scan can have hundreds of images.

3 Q. So certainly Doshi wide runs more than a million a year?

4 A. A million what?

5 Q. A million images per year.

6 A. Studies or images?

7 Q. Images.

8 A. No. Wrong.

9 Q. OK. Now, you said that you create these or you approve  
10 these MRI reports, and we saw some examples that the government  
11 marked as exhibits that you were testifying about.

12 A. Yes.

13 Q. In order to create an MRI report, you have to either look  
14 at the image or review the image, correct?

15 A. Yes.

16 Q. And then you prepare the report and you put down your  
17 findings in the report?

18 A. There's more than that.

19 Q. That's part of what you do is you put down your findings in  
20 the report, your interpretation of the scan?

21 A. Yes.

22 Q. And you said that you dictate your findings for the  
23 reports?

24 A. Yes.

25 Q. And you use, because you've done hundreds of thousands of

G38LMIR5

Lawler - cross

1 these, you use pretty standard language?

2 A. I wouldn't say that.

3 Q. If you were describing a disk herniation, if you had a new  
4 report and you were describing disk herniation, that wouldn't  
5 be the first time you had done that?

6 A. No.

7 Q. And you would use generally the same type of language in  
8 describing a disk herniation other than perhaps the location of  
9 the disk herniation?

10 A. I wouldn't say it like that.

11 Q. OK. Can we bring up Government Exhibit 554, the first  
12 page, please. This is -- you testified about this exhibit.  
13 I'll wait until you have it in front of you.

14 A. OK.

15 Q. OK. You testified about this exhibit on direct  
16 examination?

17 A. Yes.

18 Q. You testified that in large part this appeared legitimate  
19 to you?

20 A. No.

21 Q. Did you tell -- you met with Ms. Cucinella and special  
22 agents on March 4?

23 A. Yes.

24 Q. Did you tell them that that report appeared legitimate?

25 A. On its face. It looks better than the other illegitimate

G38LMIR5

Lawler - cross

1 reports.

2 Q. Did you tell them that it appeared legitimate, yes or no?

3 A. Somewhat.

4 Q. And, again, you've seen how many Doshi reports in your  
5 lifetime?

6 A. Say that again?

7 Q. How many Doshi Diagnostic reports have you seen in your  
8 lifetime?

9 A. Many thousands.

10 Q. More than 10,000?

11 A. Yeah.

12 Q. More than a hundred thousand?

13 A. Yeah.

14 THE COURT: Oh, please.

15 Q. Let me draw your attention, if we could bring up Government  
16 Exhibit 556, the first page of that as well.

17 A. This is a different exhibit?

18 Q. This is. I'm sorry.

19 A. OK.

20 Q. I just want to draw your attention to the upper right hand  
21 corner, the signature that's there. Are you familiar with that  
22 signature?

23 A. No.

24 Q. The document that you have in front of you, is the  
25 signature actually written in blue ink?

G38LMIR5

Lawler - cross

1 A. Correct.

2 Q. And it has a name and a date and it's all in blue ink,  
3 correct?

4 A. Yes.

5 Q. You testified on direct examination that when a patient  
6 comes in to Doshi Diagnostic, one of the first things they do  
7 is they meet with the front desk?

8 A. Say that again?

9 Q. One of the first things a patient does when they go into  
10 Doshi Diagnostic or was Doshi Diagnostic is they meet with  
11 somebody at the front desk?

12 A. They'll check in at the front desk.

13 Q. They provide paperwork to the front desk, the front desk  
14 provides paperwork to them?

15 A. And ID.

16 Q. And ID. And you expect that the front desk is going to do  
17 whatever the front desk does with respect to that patient,  
18 correct?

19 A. I don't know what that means.

20 Q. What does the front desk do with respect to a patient that  
21 comes in for an initial visit to Doshi Diagnostic?

22 A. So they'll greet the patient.

23 Q. You expect them to do that?

24 A. I would hope. As long as they're a real patient.

25 Q. OK. If they're not a real patient --

G38LMIR5

Lawler - cross

1 A. Like a ghost --

2 THE COURT: Can we just go through the procedure so we  
3 can bring this to a conclusion more rapidly. I don't want you  
4 to fight with him.

5 THE WITNESS: I don't either.

6 THE COURT: Great.

7 What happens? I'm a patient. What's going to happen  
8 when I show up at Doshi Diagnostic?

9 THE WITNESS: So you'll check in. You'll present the  
10 form, the referral form that's signed by the doctor that's  
11 authentic. It will be verified by the staff. They'll check  
12 you in. They'll check your insurance, make sure everything is  
13 correct. They'll give you forms to fill out, including  
14 signature HIPAA forms which are required, questionnaires, which  
15 is what I went over before.

16 Then they will sit and wait for the technologist to  
17 call them in and then they'll be with the technologist who will  
18 also go over additional information to verify and get  
19 additional information about the study that's being done, why  
20 it's being done, other prior studies that were done on this  
21 patient, for example, let's say it's a right lumbar spine, it's  
22 very important who the doctor is. And then they will hopefully  
23 begin the exam.

24 Q. At the end of all of that process, once you've generated a  
25 report, you said that the report would typically be sent back

G38LMIR5

Lawler - cross

1 to the referring physician?

2 A. Yes.

3 Q. And it can be done in a number of ways. It can be done by  
4 fax, it could be done over the internet, right?

5 A. You have to be more specific about that.

6 Q. Doshi Diagnostic will send the MRI report back to the  
7 referring physician?

8 A. Directly.

9 Q. They will send it back by either a fax?

10 A. Yes.

11 Q. That's one way?

12 A. Yes.

13 Q. Or they will send it, they will provide access to the  
14 physician over the internet over a secure internet line?

15 A. Secure. They have to have an account and that patient must  
16 be their patient only.

17 Q. They're not given access to all of Doshi's files, only to  
18 the specific patient?

19 A. Only their patients.

20 Q. And once the MRI report goes to the referring physician,  
21 you don't know what happens with the MRI report at that point,  
22 do you, because you're not there?

23 THE COURT: The question is you don't know what  
24 happens to the report; is that correct?

25 THE WITNESS: Depends on what you mean by that.

G38LMIR5

Lawler - cross

1 Q. Do you have any control over what happens with the physical  
2 MRI report once it goes to the referring physician?

3 A. No.

4 Q. And you mentioned HIPAA laws. You're aware that a patient  
5 under the law is permitted to get their medical record?

6 A. Yes.

7 Q. They are permitted to walk into Doshi Diagnostic and if  
8 they have a patient record, they can request it, and you are  
9 required to give it to them?

10 A. Under certain conditions.

11 Q. If they ask for it?

12 A. No.

13 Q. Under the law, you're required to give a medical report to  
14 a patient if they request it, yes or no?

15 A. That's not all of it. They have to verify that they're a  
16 patient. They -- I'm not done. They have to show --

17 THE COURT: Please wait.

18 Finish your answer.

19 THE WITNESS: You're not letting me finish and I don't  
20 like it.

21 THE COURT: Please. I don't need your commentary and  
22 I don't like the way you're behaving and this is my courtroom  
23 and I make the rules here. Answer his question.

24 THE WITNESS: So what was the question?

25 Q. If a patient, a real patient comes into Doshi Diagnostic

G38LMIR5

Lawler - cross

1 and had previously been seen by Doshi Diagnostic and had a  
2 medical record at Doshi Diagnostic and they requested that they  
3 be provided with their medical record, under the law you're  
4 required to give that to them, yes or no?

5 A. After they meet certain conditions.

6 Q. You're required to give it to them though?

7 THE COURT: Don't fight with him. He said yes if they  
8 meet certain conditions. Do you want to get into what the  
9 conditions are? Fine. I don't think that's necessary in this  
10 case, but be my guest.

11 MR. GOSNELL: It's not, your Honor. Nothing further.

12 THE WITNESS: Thank you.

13 MS. CUCINELLA: No questions, your Honor.

14 THE COURT: You may go.

15 THE WITNESS: Sorry to upset you. But it's my name  
16 too.

17 THE COURT: Shh. Out.

18 THE WITNESS: Thank you.

19 THE COURT: Thank you very much, Doctor.

20 (Witness excused)

21 THE COURT: Call your next witness.

22 MS. CUCINELLA: The government calls Damon Leonard.

23 DAMON LEONARD,

24 called as a witness by the Government,

25 having been duly sworn, testified as follows:

G38LMIR5

Leonard - direct

1                   THE COURT: Spell Leonard.

2                   THE WITNESS: L-E-O-N-A-R-D.

3                   THE COURT: You may inquire.

4 DIRECT EXAMINATION

5 BY MS. CUCINELLA:

6 Q. Good afternoon, Mr. Leonard.

7 A. Good afternoon.

8 Q. How old are you?

9 A. Thirty-eight.

10 Q. Are you married?

11 A. Yes.

12 Q. For how long have you been with your wife?

13 A. Twenty-one years.

14 Q. Do you have any children?

15 A. Yes.

16 Q. How many?

17 A. Three.

18 Q. How old are they?

19 A. Eighteen, 13, 12.

20 Q. Mr. Leonard, do you know an individual named Dr. Moshe  
21 Mirilishvili?

22 A. Yes.

23 Q. What do you know him as?

24 A. A doctor.

25 Q. Did you work for him?

G38LMIR5

Leonard - direct

1 A. Yes.

2 Q. Were you also his patient?

3 A. Yes.

4 Q. Do you see Dr. Mirilishvili in the courtroom today?

5 A. Yes.

6 Q. Can you describe what he's wearing?

7 MR. MAZUREK: Your Honor, we would stipulate.

8 THE COURT: Which table is he sitting at?

9 THE WITNESS: The second table.

10 THE COURT: The second table. And there are four  
11 people at that table. Which one is he?

12 THE WITNESS: The first man to the right.

13 THE COURT: Indicating the defendant. Thank you.

14 Q. Mr. Leonard, did there come a time when you were arrested  
15 in connection with your work at Dr. Mirilishvili's office?

16 A. Yes.

17 Q. When was that?

18 A. December 2014.

19 Q. Why were you arrested?

20 A. For conspiracy.

21 Q. At the time of your arrest did you give a postarrest  
22 statement?

23 A. Yes.

24 Q. Were you truthful in that statement?

25 A. No.

G38LMIR5

Leonard - direct

1 MR. MAZUREK: Objection.

2 THE COURT: The objection is overruled.

3 Q. You may answer.

4 A. No.

5 Q. After your arrest, did there come a time when you decided  
6 to cooperate with the government?

7 A. Yes.

8 Q. Did you decide to cooperate right away?

9 A. No.

10 Q. Why did you ultimately decide to cooperate?

11 A. Because I didn't want to go to jail.

12 Q. Why else?

13 A. Because I wanted to take responsibility for the acts that I  
14 did.

15 Q. As part of your cooperation, did you plead guilty to a  
16 crime in this case?

17 A. Yes.

18 Q. Was that pursuant to a cooperation agreement?

19 A. Can you explain that again? I don't understand the  
20 question.

21 Q. When you pled guilty, before you pled guilty, did you sign  
22 what's called a cooperation agreement?

23 A. Yes.

24 Q. A document is going to come up on your screen and it's  
25 what's been marked for identification as Government

G38LMIR5

Leonard - direct

1 Exhibit 1202. Do you see it?

2 A. Yes.

3 Q. Do you recognize this document?

4 A. Yes.

5 MS. CUCINELLA: Ms. Joynes, if you can turn to the  
6 last page.

7 Q. What is that document, is that your cooperation agreement?

8 A. Yes.

9 Q. Now you're looking at the last page. Are there signatures  
10 there?

11 A. Yes.

12 Q. Whose are they?

13 A. Mines, my lawyer.

14 Q. Are there also signatures of the members of the prosecution  
15 team on there?

16 A. Yes.

17 MS. CUCINELLA: The government offers Exhibit 1202.

18 MR. MAZUREK: No objection.

19 THE COURT: Admitted.

20 (Government's Exhibit 1202 received in evidence)

21 Q. Mr. Leonard, what crime did you plead guilty to?

22 A. One count conspiracy to -- one count of conspiracy to  
23 distribute oxycodone.

24 Q. Do you know what the maximum jail sentence that you could  
25 receive is?

G38LMIR5

Leonard - direct

1 A. Twenty years.

2 Q. Is there a mandatory minimum associated with that crime?

3 A. No.

4 Q. You identified before Government Exhibit 1202 which is your  
5 cooperation agreement. Do you understand what your obligations  
6 are under that agreement?

7 A. Yes.

8 Q. What are they?

9 A. To tell the truth, be truthful, and to meet with, to meet  
10 with -- oh, God, to meet -- sorry.

11 Q. It's OK. Do you want some water? There's a pitcher.

12 THE COURT: Jim, could you please.

13 A. It's OK. It's OK. To meet with the district attorney.

14 Q. OK. And if you honor those obligations, what do you expect  
15 will happen?

16 A. What I -- I'm expecting is to get probation.

17 Q. Is that what you're hoping for?

18 A. Yes.

19 Q. Have any promises been made to you about what sentence you  
20 will receive?

21 A. No.

22 Q. Do you know who ultimately will decide your sentence?

23 A. Yes.

24 Q. Who?

25 A. The judge.

G38LMIR5

Leonard - direct

1 Q. Mr. Leonard, as part of your cooperation did you also have  
2 to disclose to the government all of your prior crimes?

3 A. Yes.

4 Q. Did you do that?

5 A. Yes.

6 Q. Did you include crimes, both crimes that you were arrested  
7 for and crimes for which you were never arrested?

8 A. Yes.

9 Q. Mr. Leonard, were you involved in a phone card scam when  
10 you were younger?

11 A. Yes.

12 Q. Can you tell the jury what that was about?

13 A. I was a young kid in college, me and my friend, we stole a  
14 young lady's phone card and we used it.

15 Q. Were you ever arrested for that?

16 A. No.

17 Q. Were you arrested in connection with having a knife on you?

18 A. Yes.

19 Q. When did that happen? Approximately is fine.

20 A. I think two thousand -- I'm not sure. I forgot.

21 Q. Was it recently or was it a long time ago?

22 A. This is a long time ago.

23 Q. What were the circumstances that led to you being arrested  
24 with a knife on you?

25 A. I don't understand.

G38LMIR5

Leonard - direct

1 Q. Why were you arrested, what happened?

2 A. Because I had a pocket knife on me and I didn't have my ID.

3 Q. And where were you when you were arrested?

4 A. With my family on 125th Street in the train station.

5 Q. Why did you have a knife on you?

6 A. Because I used it for work.

7 Q. Have you also been arrested in connection with driving  
8 without a license?

9 A. Yes.

10 Q. Has that happened more than once?

11 A. Yes.

12 Q. Mr. Leonard, was there a time when you fell behind in child  
13 support?

14 A. Yes.

15 Q. You testified earlier that you have three children; is that  
16 right?

17 A. Yes.

18 Q. Are all three children with your wife?

19 A. No.

20 Q. Is your youngest child with another woman?

21 A. Yes.

22 Q. And was there a time that you paid child support for your  
23 youngest child?

24 A. Yes.

25 Q. Did you fall behind?

G38LMIR5

Leonard - direct

1 A. Yes.

2 Q. Sitting here today, have you caught up?

3 A. Yes.

4 Q. Do you now have custody of that child?

5 A. Yes, for the last three years.

6 Q. Mr. Leonard, before this arrest have you ever been arrested  
7 for selling drugs?

8 A. No.

9 Q. Have you in fact ever sold drugs before your involvement in  
10 this conspiracy?

11 A. No.

12 Q. Let's go back to the beginning of this conspiracy.

13 Mr. Leonard, when did you first meet Dr. Mirilishvili?

14 A. In the fall of 2012.

15 Q. How did you meet him?

16 A. Through a mutual friend.

17 Q. What was that friend's name?

18 A. John Coleman.

19 Q. Drawing your attention to the fall of 2012, were you  
20 working then?

21 A. No.

22 Q. For how long had you been out of work?

23 A. One year.

24 Q. Were you collecting unemployment?

25 A. Yes.

G38LMIR5

Leonard - direct

1 Q. Prior to that year that you were out of work, did you  
2 typically have a job?

3 A. Odd jobs.

4 Q. Before that year that you were out of work, did you have  
5 jobs?

6 A. Yes.

7 Q. What types of jobs did you typically hold?

8 A. Maintenance and forklifting jobs.

9 Q. OK. Turning back to the fall of 2012, did there come a  
10 time when you began to work for Mr. Coleman?

11 A. Yes.

12 Q. What were you doing for him?

13 A. My job was to escort patients to 162nd Street and Amsterdam  
14 at the doctor's clinic.

15 Q. Did Mr. Coleman ask you to do this?

16 A. Yes.

17 Q. And you said it was you were bringing patients to a clinic  
18 on 162nd Street?

19 A. Yes.

20 Q. What was supposed to happen when the patients got to the  
21 clinic on 162nd Street?

22 A. I was supposed to meet with them and give them the money so  
23 they can see the doctor.

24 Q. How often did you do this?

25 A. Every day.

G38LMIR5

Leonard - direct

1 Q. How many patients, approximately, did you take to the  
2 clinic or did you meet at the clinic every day?

3 A. It varied. Three, five.

4 Q. And you did this five days a week?

5 A. Yes.

6 Q. Were these patients, did you consider them to be  
7 Mr. Coleman's patients?

8 A. Yes.

9 Q. Do you know how Mr. Coleman found his patients?

10 A. No.

11 Q. Can you describe them physically?

12 A. Yes. Some were drug addicts. Some were alcoholics. Some  
13 were homeless people.

14 Q. Did they smell?

15 A. Yes.

16 Q. Did Mr. Coleman ever tell them that they had to clean up  
17 before seeing the doctor?

18 MR. MAZUREK: Objection, leading.

19 THE COURT: The objection is sustained. I'm afraid  
20 you cannot ask leading questions of this witness.

21 MS. CUCINELLA: Apologies.

22 Q. Can you describe physically some of these patients to the  
23 jury?

24 A. Some patients would come in with bloodshot eyes, red eyes,  
25 smelling like -- reeking of booze. Some were very dirty.

G38LMIR5

Leonard - direct

1 Q. Let's go back to your role. You testified that you would  
2 meet these individuals at Dr. Mirilishvili's clinic; is that  
3 right?

4 A. Yes.

5 Q. Can you explain to the jury what would happen after you  
6 arrived at the clinic?

7 A. After I would arrive, I would be inside the clinic. I  
8 would wait for a patient to come and when they did come, they  
9 would meet up with me and I give them the money and I tell them  
10 to sit down and wait for your name to be called.

11 Q. Where would you wait for the patients?

12 A. In the waiting area.

13 MS. CUCINELLA: Ms. Joynes, can you please bring up  
14 what's already in evidence as Government Exhibit 1-E and 1-F.  
15 You can put them side by side.

16 Q. Mr. Leonard, do you recognize what's in these pictures?

17 A. Yes.

18 Q. What is it?

19 A. The waiting area.

20 Q. Is this where you would wait for patients?

21 A. Yes.

22 Q. Can you show the jury where you would wait for patients  
23 during this time period?

24 A. On the left picture, I would wait between the room to the  
25 back and the physical therapist room.

G38LMIR5

Leonard - direct

1 Q. About how big is that room, that waiting area?

2 A. Where I stood at or the whole office?

3 Q. How big is the whole room?

4 A. Maybe -- I'm not sure. I'm not sure how big is the room.

5 Q. How long would you spend in this area each day?

6 A. It varied. Sometimes five hours, sometimes the whole day.

7 Q. When your patients or when Mr. Coleman's patients would

8 arrive, would you meet them in the clinic or outside the

9 clinic?

10 A. In the clinic.

11 Q. Were there other people doing what you were doing?

12 A. Yes.

13 Q. Approximately how many?

14 A. Not sure.

15 Q. While you were waiting for the patients, did there ever  
16 come a time where you saw Dr. Mirilishvili?

17 A. Yes.

18 Q. Did you speak with him?

19 A. Only when he spoke to me.

20 Q. When he spoke to you what would he say?

21 A. Good morning.

22 Q. Did he ever say anything else to you?

23 A. Yes.

24 Q. What was that?

25 A. That he seen me hanging out every day, why am I hanging

G38LMIR5

Leonard - direct

1 out, why am I hanging out at the office. I didn't really have  
2 no response to that.

3 Q. Did you in fact respond to him?

4 A. Yes.

5 Q. What did you say?

6 A. I just told him I'm hanging out.

7 Q. Did he respond to you when you said that?

8 A. No.

9 MS. CUCINELLA: Ms. Joynes, you can take that down.

10 Q. Mr. Leonard, how much would John Coleman pay you to do  
11 this?

12 A. The agreement was supposed to be \$100 a day.

13 Q. How much did you actually get paid?

14 A. It varied. Some day it is would be \$100. Some days it  
15 would be \$50. Some days I didn't get nothing.

16 Q. Your only -- and what was your only responsibility at this  
17 time?

18 A. At that time was to transport patients to  
19 Dr. Mirilishvili's office.

20 Q. Did they need anything when they were meeting with the  
21 doctor at this point?

22 A. MRI.

23 Q. Were you involved in providing those?

24 A. No.

25 Q. Who was?

G38LMIR5

Leonard - direct

1 A. Mr. Coleman.

2 Q. Were you ever involved in taking patients to a pharmacy?

3 A. Not at the beginning.

4 Q. Did there come a time when you started doing that?

5 A. Yes.

6 Q. Tell the jury about that.

7 A. During the end of the day, if everything, all the patients  
8 went and Mr. Coleman, I would call him and let him know what  
9 else he want me to do, he tell me to meet him and I go ride  
10 around to different pharmacies.

11 Q. And why would you take them to pharmacies?

12 A. So they could pick up their prescriptions.

13 Q. Their prescriptions for what?

14 A. Oxycodone.

15 Q. Mr. Leonard, while you were working for Mr. Coleman, did  
16 there come a time when you began receiving oxycodone  
17 prescriptions from Dr. Mirilishvili?

18 A. Yes.

19 Q. How did that start?

20 A. Mr. Coleman told me that I could make more money.

21 MR. MAZUREK: Objection, hearsay.

22 THE COURT: I'm sorry. Objection?

23 MR. MAZUREK: Objection, hearsay.

24 THE COURT: No. For the fact that it was said.

25 Q. You may answer the question.

G38LMIR5

Leonard - direct

1 A. Mr. Coleman, he told me that I could make more money. And  
2 I asked him how. He said by going to see the doctor yourself.

3 Q. Did Mr. Coleman tell you how much more money you could  
4 make?

5 A. About \$300.

6 Q. So did you decide to take him up on the offer?

7 A. Yes.

8 Q. What happened next?

9 THE COURT: Also explains why he took an action. Not  
10 hearsay.

11 MR. MAZUREK: Judge.

12 THE COURT: I just want the record to be clear.

13 MR. MAZUREK: I understand. Can I ask for a bathroom  
14 break? Don't deny me that, please.

15 THE COURT: Yes. Yes. Absolutely. We are going to  
16 take a bathroom break.

17 Don't discuss the case. Keep an open mind.

18 (Recess)

19 THE COURT: OK. You may have a seat.

20 You're still under oath.

21 Please continue.

22 Q. Mr. Leonard, before the break you testified that there came  
23 a time when you went in to see Dr. Mirilishvili as a patient;  
24 is that right?

25 A. Yes.

G38LMIR5

Leonard - direct

1 Q. Did Mr. Coleman prepare you for this?

2 A. Yes.

3 Q. How did he prepare you?

4 A. He gave me an MRI, told me to read the MRI and to do  
5 exactly what the MRI tells me to do.

6 Q. We're going to break that down but before we do that, I'm  
7 going to have Ms. Joynes pull up, please, on the screen, on  
8 your screen what's been marked for identification as Government  
9 Exhibit 557.

10 Do you recognize this document?

11 A. Yes.

12 Q. What is it?

13 A. It's an MRI.

14 Q. Is that the MRI that you just referenced in your testimony?

15 A. Yes.

16 MS. CUCINELLA: Government offers 557.

17 MR. MAZUREK: No objection.

18 THE COURT: Admitted.

19 (Government's Exhibit 557 received in evidence)

20 MS. CUCINELLA: Ms. Joynes, will you publish that to  
21 the jury, please.

22 Q. Is there a second page of this document? Do you recognize  
23 the second page as well?

24 A. Yes.

25 Q. And was that also part of the paperwork that Mr. Coleman

G38LMIR5

Leonard - direct

1 provided to you?

2 A. Yes.

3 Q. Did you pay him for this?

4 A. No.

5 Q. How else did Mr. Coleman prepare you to go into the clinic?

6 A. He told me, he told me what to say to the doctor.

7 Q. What do you mean when you say that?

8 A. He told me if the doctor ask me if I have -- if I'm  
9 allergic to any medicine, tell him Percocets.

10 Q. What else?

11 A. And to walk in there with a limp.

12 Q. You referenced earlier that he also told you to read your  
13 MRI; is that right?

14 A. Yes.

15 Q. What did you understand that to mean?

16 A. Basically just read the MRI and do exactly what it tell you  
17 to do so you familiarize yourself with the paperwork.

18 Q. Do you recall approximately when you first went into the  
19 clinic as a patient?

20 A. Yes.

21 Q. When was that?

22 A. November 2012.

23 Q. When you first went in as a patient, approximately how much  
24 time had you spent in the clinic prior to that first  
25 appointment?

G38LMIR5

Leonard - direct

1 A. Three hours.

2 Q. That's the day of the appointment?

3 A. Yes.

4 Q. Had you been there on previous days in your other role?

5 A. Yes.

6 Q. I'd like you to walk the jury through what happened on the  
7 day of your first appointment starting with the time when you  
8 first arrived at the clinic all the way through, and I may ask  
9 you some questions as you go through.

10 A. OK. I got in a cab, proceed to go up to the clinic. When  
11 I got there, I gave the receptionist my ID. My MRI was already  
12 there already. And she told me to sit down and wait for your  
13 name to be called.

14 Q. And approximately how long did you wait for your name to be  
15 called?

16 A. About three hours.

17 Q. What happened after your name was called?

18 A. The doctor came out, took the paperwork off the counter and  
19 he called my name. And when he called my name I got up, I  
20 walked in gingerly to the doctor, said good morning, and  
21 proceeded into his office.

22 Q. Mr. Leonard or Ms. Joynes, will you please pull up  
23 Government Exhibit 1-C which is already in evidence.

24 Mr. Leonard, do you recognize what's in Government  
25 Exhibit 1-C?

G38LMIR5

Leonard - direct

1 A. Yes.

2 Q. What is it?

3 A. That's the doctor's office.

4 Q. Is that where you followed the doctor into the day of your  
5 first appointment?

6 A. Yes.

7 Q. What happened after you got into the doctor's office?

8 A. The first thing is you -- the first thing you do is take  
9 care of the money situation.

10 Q. And I want to be clear. I want to know exactly what you  
11 did on this appointment.

12 A. The first thing I did is when I went in, took my coat off,  
13 and I put the money on the table.

14 Q. What did the doctor do when you put the money on the table?

15 A. He checked the money.

16 Q. What do you mean when you say he checked it?

17 A. He checked it with a counterfeit pen.

18 Q. And where did he do that?

19 A. In his office.

20 Q. And the table that you put the money on, is that shown in  
21 Government Exhibit 1-C?

22 A. Yes.

23 Q. During this time did he acknowledge that he had seen you in  
24 the clinic before?

25 A. Yes.

G38LMIR5

Leonard - direct

1 Q. What did he do or say?

2 A. He just told me he seen me here every day, what I'm doing  
3 every day. I just told him I'm just hanging out. That's all.

4 Q. Did the doctor take your vitals?

5 A. No.

6 Q. What happens next?

7 A. He asked me what I was here for. I told him for lower back  
8 pain.

9 Q. What else did you say? Did you tell him that you had an  
10 injury?

11 A. I told him -- he asked me how did this injury occur. I  
12 told him playing basketball.

13 Q. Did he ask you any questions?

14 A. Yes.

15 Q. What kinds of questions did he ask you?

16 A. He asked me where did it hurt. I told him my lower back.  
17 He asked me, he asked me to stand up, to stand on my tippy  
18 toes. Can I lean back, lean forward, step back to the door and  
19 walk to him.

20 Q. What happened after that?

21 A. Sat down on the bed. He checked my knee with a little  
22 hammer and he asked me did the pain shoot down to my feet.

23 Q. Did you respond?

24 A. Yes.

25 Q. What did you say?

G38LMIR5

Leonard - direct

1 A. I told him no.

2 Q. During this exam did you act like you were in pain?

3 A. Yes.

4 Q. What happened then?

5 A. I got up off the bed. He took me to the back wall. He  
6 showed me a picture of a skeleton and showed me my lower back,  
7 my disk, and showed me exactly where the pain was coming from.

8 Q. What happened after that?

9 A. He told me, he told me to sit down and he told me -- he  
10 told me a few things to help, to help with this pain.

11 Q. What did he tell you?

12 A. He told me that he's going to give me a few medicines that  
13 will help, starting with muscle relaxers. He also told me what  
14 to do to help my back, to sleep on the floor, sleep on the  
15 couch, also to think about taking physical therapy.

16 Q. You mentioned that he was going to give you muscle  
17 relaxers. Were there any other medicines he was going to give  
18 you?

19 A. Yes, oxycodone.

20 Q. Did he ask you if you had ever taken oxycodone before?

21 A. No.

22 Q. Had you ever taken oxycodone before?

23 A. No.

24 Q. Sitting here today, have you ever taken oxycodone?

25 A. No.

G387MIR6

Leonard - direct

1 BY MS. CUCINELLA:

2 Q. Did you discuss with the doctor where you would get your  
3 prescription filled?

4 A. Yes.

5 Q. Tell me how that conversation went.

6 A. When the visit was over, he asked me what pharmacy I would  
7 like to go to, and I told him I wanted to go to MNS.

8 Q. Why did you say that?

9 A. Because that was the closest pharmacy.

10 Q. What happened next?

11 A. After that, he told me to step out, and see the young lady  
12 waiting at the reception.

13 Q. Before he ended the appointment, did the doctor give you a  
14 referral?

15 A. Yes, he also gave me a referral to the hospital of my  
16 choice.

17 Q. I'm going to ask Ms. Joynes to put up on your screen what  
18 has been marked for identification as Government Exhibit 558.

19 Mr. Leonard, do you recognize this document?

20 A. Yes.

21 Q. What is it?

22 A. It's a referral.

23 Q. Is that the referral you received on the date of your first  
24 appointment?

25 A. Yes.

G387MIR6

Leonard - direct

1 MS. CUCINELLA: The government offers 558.

2 MR. MAZUREK: No objection.

3 THE COURT: Admitted.

4 (Government's Exhibit 558 received in evidence)

5 Q. This is the referral that you got that day?

6 A. Yes.

7 Q. After you left the doctor's office, what happened, just his  
8 physical office, where did you walk to?

9 A. I didn't go anywhere; I just stood inside the waiting area.

10 Q. Why did you wait in the waiting area?

11 A. Because there were other patients that I had to wait for.

12 Q. How long did your visit with the doctor last?

13 A. Around 20 minutes, 25 minutes.

14 Q. Did you get your prescriptions from the doctor or from  
15 someone else?

16 A. From the receptionist.

17 Q. Did the receptionist tell you anything when you got the  
18 prescriptions?

19 A. Yes, she gave me my next appointment date, and on the  
20 bottom it lets you know ten days before each visit you have to  
21 drop off urine.

22 Q. Did you fill your prescription that same day?

23 A. No.

24 Q. Why not?

25 A. Because I couldn't; the pharmacy wouldn't take it.

G387MIR6

Leonard - direct

1 Q. Did you ever get it filled?

2 A. Yes.

3 Q. Where did you go to get it filled?

4 A. Pennsylvania.

5 Q. And why were you in Pennsylvania?

6 A. It was the holidays, Thanksgiving.

7 Q. Did you fill the prescription using your own money?

8 A. Yes.

9 Q. Did you fill all the prescriptions that the doctor gave  
10 you?

11 A. Yes.

12 Q. And why did you fill all of them?

13 A. Because the pharmacy wouldn't do it without the rest of the  
14 prescriptions.

15 Q. What did you do? When you said you filled all the  
16 prescriptions, did that include the prescription for oxycodone?

17 A. Yes.

18 Q. What did you do with the oxycodone you received from that  
19 prescription?

20 A. I sold it to Mr. Coleman.

21 Q. How much did you sell it for?

22 A. \$300.

23 Q. That same day you testified earlier that you waited around  
24 in the office after; is that right?

25 A. Yes.

G387MIR6

Leonard - direct

1 Q. The following day, did you go back to Dr. Mirilishvili's  
2 office?

3 A. Yes.

4 Q. Did you see him that next day?

5 A. Yes.

6 Q. What if anything did the doctor say when he saw you?

7 A. He said to me, he says how you doing? He says did you get  
8 your medicine? I told him yes.

9 Q. Where were you standing when he saw you?

10 A. Right next -- right between the physical therapist room and  
11 the entrance to the back.

12 Q. You just mentioned the physical therapist room.

13 A. Yes.

14 Q. Was there a room with physical therapy equipment in the  
15 office when you were bringing Mr. Coleman's patients?

16 A. No.

17 Q. There was no equipment in that room?

18 A. No.

19 Q. When you saw Dr. Mirilishvili the day after your  
20 appointment, were you acting like you were in pain?

21 A. No.

22 Q. How long did you spend in the office the day after your  
23 initial appointment?

24 A. About a few hours.

25 Q. Did you go back the day after that?

G387MIR6

Leonard - direct

1 A. Yes.

2 Q. And the day after that?

3 A. Yes.

4 Q. Did you continue to go back on a daily basis?

5 A. Yes.

6 Q. And would the doctor acknowledge you when he saw you?

7 A. Yes.

8 Q. After 30 days passed, did you go back for a follow-up  
9 visit?

10 A. Yes.

11 Q. What did you do before going back in for a follow-up visit?

12 A. I had to submit my urine.

13 Q. Tell the jury how you did that.

14 A. I received a urine from Mr. Coleman, and I was told to take  
15 it to the clinic.

16 Q. When you say you received urine from Mr. Coleman, what  
17 specifically did you get from him?

18 A. Urine inside -- at the time it was a urine specimen cup.

19 Q. And what did you do after you received the urine from  
20 Mr. Coleman?

21 A. Took it to the clinic.

22 Q. You dropped it off there?

23 A. Yes.

24 Q. And where did you put it when you dropped it off?

25 A. In the refrigerator.

G387MIR6

Leonard - direct

1 Q. Did you try to hide the fact that you were dropping off  
2 urine?

3 A. No.

4 Q. Do you know how Mr. Coleman got that urine?

5 A. No.

6 Q. Did you have to pay for it?

7 A. No.

8 Q. When you dropped off the urine, were there other people  
9 dropping off urine?

10 A. Yes.

11 Q. Let's go back to the follow-up visit. Approximately how  
12 long after you dropped off your urine did you go into the  
13 clinic for a follow-up visit?

14 A. Ten days after.

15 Q. Tell the jury about -- before we get to the specifics of  
16 the visit, Mr. Leonard, did you have insurance at that time?

17 A. Yes.

18 Q. Did you use insurance for these visits?

19 A. No.

20 Q. Tell the jury about your follow-up visit with Dr.  
21 Mirilishvili from the time you arrived at the clinic. Start  
22 there.

23 A. When I arrived at the clinic, I gave my ID. My ID was  
24 checked through the files for the urine to see if my urine is  
25 back, and it was back. Then they told me to sit down and do

G387MIR6

Leonard - direct

1 the paperwork.

2 Q. Approximately how long did you wait?

3 A. About three hours again.

4 Q. What happened after your name was called?

5 A. I went into the doctor's office, put my jacket down, put my  
6 money on the table. The money was checked.

7 Q. And when you say the money was checked, what happened?

8 A. It was checked with a counterfeit pen.

9 Q. What happened after that?

10 A. I sat down. He asked me how I was feeling, was I taking  
11 the medicine. I told him yes. He asked me on a scale of one  
12 to ten how is my pain. I told him about a six.

13 Q. What if anything did the doctor say about having seen you  
14 before in the office?

15 A. Can you repeat that again? I don't understand.

16 Q. What, if anything, did the doctor say to you about having  
17 seen you in the office?

18 A. He just told me like he seen me all the time, why I'm  
19 there, and that was it. He also just said that he was seeing  
20 me too much. That's all he really said to me.

21 Q. What happened after you told the doctor that your pain was  
22 about a six?

23 A. He told me to get up and to repeat, to stand up on my  
24 heels, my tippy toes.

25 MS. CUCINELLA: With the court's permission, may

G387MIR6

Leonard - direct

1 Mr. Leonard step down from the witness stand and show the jury  
2 what he did for the doctor?

3 THE COURT: Yes.

4 Q. Mr. Leonard, do you mind showing the jury what you did at  
5 the doctor's request.

6 A. Initially what you do is he will tell you to stand up on  
7 your tippy toes as much as you can, so I stand up as much as I  
8 can. And he would tell me to lean back on my heels. I lean  
9 back. He asked me to bend over. I bend over as much as I can.  
10 And I will let him know there is the problem right there. He  
11 says stand up.

12 Q. Did you act like you were in pain?

13 A. Yes.

14 Q. Can you show the jury exactly what you did to show the  
15 doctor you were in pain.

16 A. When I got to a certain extent, I just acted like I was in  
17 pain. I would tell him it's bothering me right there; I  
18 couldn't go no more.

19 Q. Did you behave differently during this exam than you did  
20 during the original exam?

21 A. Yes.

22 Q. How was it different?

23 A. This time the medicine is supposed to be working, so it was  
24 like, OK, now the pain should be reduced, so I didn't go -- I  
25 didn't have as much pain, didn't experience as much pain as the

G387MIR6

Leonard - direct

1 first time.

2 Q. Can you show the jury what you did during the initial exam  
3 to show you had more pain?

4 A. The first exam I just acted like I couldn't walk. I walked  
5 real gingerly. The second visit I walked a little bit better  
6 than I walked the first time.

7 Q. Did you behave differently when you bent over for the  
8 doctor?

9 A. Yes.

10 Q. Show the jury what you did during the first exam when you  
11 were purportedly in more pain or pretending to be in more pain?

12 A. The first initial visit I went down about this far, I  
13 couldn't go no more. The next one I went down a little bit  
14 further. And that was it.

15 THE COURT: OK, have a seat.

16 Q. Mr. Leonard, what happened after the doctor conducted that  
17 exam?

18 A. He told me that he will continue my medicine.

19 Q. What happened next?

20 A. He told me to wait outside.

21 Q. Approximately how long did that appointment last?

22 A. About 15 minutes, ten minutes.

23 Q. Did you in fact receive prescriptions?

24 A. Yes.

25 Q. Do you recall what they were for?

G387MIR6

Leonard - direct

1 A. Three muscle relaxers and oxycodone.

2 Q. And did you fill the prescriptions right away?

3 A. Yes.

4 Q. Do you recall where you filled them?

5 A. In New Jersey.

6 Q. Why did you go to New Jersey to fill them?

7 A. Because it was told to me that it was cheaper.

8 Q. What did you do with the pills -- sorry. Who told you that  
9 it was cheaper?

10 A. Mr. Coleman.

11 Q. What did you do with the pills after you filled the  
12 prescription?

13 A. I sold them to Mr. Coleman.

14 Q. The day after that visit, did you go back to Dr.  
15 Mirilishvili's clinic?

16 A. Yes.

17 Q. Did you walk with a limp?

18 A. No.

19 Q. Did you see the doctor?

20 A. Yes.

21 Q. Did he acknowledge you?

22 A. Yes.

23 Q. Did you continue to follow the same pattern of going back  
24 to the clinic on a daily basis?

25 A. Yes.

G387MIR6

Leonard - direct

1 Q. Did you continue to see him for follow-up visits  
2 approximately every 30 days?

3 A. Yes.

4 THE COURT: Do you know how to ask a nonleading  
5 question?

6 MS. CUCINELLA: Just trying to move it along, your  
7 Honor.

8 THE COURT: Don't move it along. Ask questions in the  
9 proper form.

10 Q. During your follow-up visits, Mr. Leonard, did Dr.  
11 Mirilishvili ask you any questions about any therapy you were  
12 receiving?

13 A. Yes.

14 Q. What did he ask you?

15 A. He just told me was I going to my physical therapist, and I  
16 told him, yes, I was. I told him I was going to the YMCA.

17 Q. What did you tell him you were doing at the YMCA?

18 A. Walking in the pool, hydrotherapy.

19 Q. Approximately how many times did you go back for follow-up  
20 appointments with the doctor?

21 A. Altogether about five.

22 Q. Did anything change about those appointments?

23 A. Yes.

24 Q. What changed?

25 A. He stopped taking my money.

G387MIR6

Leonard - direct

1 Q. Approximately when did that happen?

2 A. The third visit.

3 Q. Do you have an understanding of why he stopped taking your  
4 money?

5 A. No.

6 Q. Tell the jury what would happen during those visits.

7 A. Just when I would go to pay for the visit, he would tell me  
8 no. He just said no, and he would just stamp my receipt and  
9 that was it, and just talked to me and asked me how I'm doing,  
10 is the medicine working. And that was pretty much it.

11 Q. During this time period when you were getting prescriptions  
12 from Dr. Mirilishvili, were you also getting prescriptions from  
13 another doctor?

14 A. Yes.

15 Q. Who?

16 A. Doctor Terdiman.

17 Q. Where was that clinic?

18 A. In the Bronx, Freeman, Freeman Street.

19 Q. Approximately how many times did you see that doctor?

20 A. Like two times.

21 Q. What did you do? Did you get oxycodone prescriptions each  
22 time you saw that doctor?

23 A. Yes.

24 Q. What did you do with those prescriptions?

25 A. Sold it to Mr. Coleman.

G387MIR6

Leonard - direct

1 Q. Did there come a time when the doctor cut you off and told  
2 you he would no longer give you oxycodone prescriptions?

3 MR. MAZUREK: Objection. Leading.

4 THE COURT: The objection is sustained.

5 Q. Did there come a time when the doctor told you -- did there  
6 come a time when you saw the doctor and he wouldn't give you a  
7 prescription?

8 A. Yes.

9 Q. What happened?

10 A. Well, the last time when my name was called, I went inside  
11 with the doctor, and he told me that he would no longer see me,  
12 that I didn't need the medicine, and that was that.

13 Q. To the best of your recollection, what specifically did the  
14 doctor say to you, and what did you say in response?

15 A. Well, he told me, he just told me that I didn't need the  
16 medicine, that I wasn't fooling anybody, I'm not taking the  
17 medicine, so there is no need for him to continue seeing me.  
18 And the fact that he asked me if I was a cop, I told him no.

19 Q. What happened next?

20 A. Also he told me that I can still hang out in the clinic,  
21 just don't make no noise, help out around the office. He  
22 couldn't pay me because he already had his full staff already.  
23 And that was it. I just told him I had no problems  
24 volunteering.

25 Q. Did he write you a prescription?

G387MIR6

Leonard - direct

1 A. No.

2 Q. Did you try and get him to write you a prescription?

3 A. I tried.

4 Q. Were you upset?

5 A. No.

6 Q. What happened after that?

7 A. I proceeded back out to the waiting area.

8 Q. Did you continue to come to the clinic?

9 A. Yes.

10 Q. For what purpose?

11 A. For John Coleman's patients, to help out with John  
12 Coleman's patients.

13 Q. The same job you were doing before?

14 A. Yes.

15 Q. Did your relationship with the doctor change over this  
16 period of time?

17 A. Yes.

18 Q. How did it change?

19 A. I started volunteering more around the office. He would  
20 see that. And that was it.

21 Q. Did the doctor pay you?

22 A. No.

23 Q. Would you run errands for him?

24 A. When I was asked to.

25 Q. What types of errands would you run?

G387MIR6

Leonard - direct

1 A. Sometimes the fax machine will be out of ink, and I would  
2 volunteer to run to the Staples. Sometimes there would be  
3 toiletries or whatever things needed to be done and they needed  
4 for the office, and I would get that.

5 Q. How long did this go on for?

6 A. About four months.

7 Q. During this period, did Dr. Mirilishvili hire anyone new to  
8 work in the office?

9 A. Yes.

10 Q. Who did he hire?

11 A. Mr. Correa and Mr. Cruz.

12 Q. I am showing you --

13 Ms. Joynes if we can pull up what I believe is already  
14 in evidence Government Exhibit 4-D.

15 Do you recognize who is in this picture?

16 A. Yes.

17 Q. Who is it?

18 A. Mr. Correa and Ray Williams.

19 Q. Did you know Mr. Correa by another name?

20 A. Buck.

21 Q. And do you know his full government name?

22 A. No.

23 Q. Do you know what the doctor referred to him as?

24 A. Yes.

25 Q. What was that?

G387MIR6

Leonard - direct

1 A. Abraham.

2 Q. Other than Mr. Correa, did the doctor hire anyone else  
3 during this time period?

4 A. No.

5 Q. Do you have an understanding of what Buck was hired to do?

6 A. At that time it was security.

7 Q. What do you mean when you say security?

8 A. He was just hired to watch the door and to park his car  
9 every day.

10 Q. His car, whose car do you mean?

11 A. The doctor's car.

12 Q. Did any nurses work in the office during this time period?

13 A. No.

14 Q. As you were standing in the lobby during this time period,  
15 were you able to see how many patients came in and out?

16 A. Yes.

17 Q. Do you have an understanding of approximately how many  
18 patients the doctor would see in a day?

19 A. During that time about 40.

20 MS. CUCINELLA: You can take that down, Ms. Joynes.

21 Thank you.

22 Q. Mr. Leonard, did there come a time when Dr. Mirilishvili's  
23 clinic was robbed?

24 A. Yes.

25 Q. Did that happen twice?

G387MIR6

Leonard - direct

1 A. Yes.

2 Q. Let's talk about the first time. Approximately when was  
3 that?

4 A. September.

5 Q. Do you recall what year?

6 A. 2013.

7 Q. Were you in the office at the time that the office was  
8 robbed?

9 A. Yes.

10 Q. Why were you there?

11 A. Waiting for patients to get finished. Also I was  
12 volunteering at the time, so ...

13 Q. What happened?

14 A. It just happened fast. Three guys just barged into the  
15 door, and they told us to get against the wall, put our hands  
16 up.

17 Q. Who else was there that day?

18 A. Buck, Jomaris and Mr. Cruz.

19 Q. Were you able to see how the robbers got into the clinic?

20 A. They came in through the front door.

21 Q. Is that door typically locked?

22 A. Yes.

23 Q. Do you know how they got in?

24 A. The door was open that day.

25 Q. Did any of the robbers have guns?

G387MIR6

Leonard - direct

1 A. I couldn't see if they had guns.

2 Q. What happened after they came in the clinic?

3 A. They told us to go to the back. They took the doctor in  
4 his office, and whatever else they did to him, I don't know.  
5 They had the door closed.

6 Q. Could you hear inside the office?

7 A. Yes.

8 Q. Did they take anything?

9 A. To my knowledge, yes.

10 Q. What did they take?

11 A. They took money, and they took his prescription pad.

12 Q. Did you observe the doctor react to the robbery?

13 A. After the robbery? Yes.

14 Q. Before we get to that, was anyone hurt during the robbery?

15 A. No.

16 Q. Let's go back to the doctor's reaction. What did you  
17 observe?

18 A. He was upset.

19 Q. How could you tell?

20 A. Because he lashed out at Buck.

21 Q. What did he say?

22 A. Well, he took Buck in his office, and he told him he  
23 doesn't understand how these people got in the office, that's  
24 his fucking job that the office is secure.

25 Q. Mr. Leonard, are you swearing because that's what you

G387MIR6

Leonard - direct

1 overheard?

2 A. Yes.

3 Q. Did you hear the doctor say anything else about the  
4 robbery?

5 A. No.

6 Q. After that robbery, what happened?

7 A. The robbers left, and the police came.

8 Q. Did the doctor make any changes around the office?

9 A. Yes.

10 Q. What changes were made?

11 A. Buck was fired; I was hired.

12 Q. Mr. Leonard, let's talk about the fact that you were hired.

13 How did that happen?

14 A. The robbery was I think a Thursday or a Friday, and then  
15 the staff was told that they were going to work on Saturday by  
16 the doctor, and Jomaris Javier told me that the doctor wanted  
17 me to come in also on Saturday.

18 Q. Did you go in on Saturday?

19 A. Yes.

20 Q. What happened next?

21 A. Shortly when I got -- shortly when I arrived at the office,  
22 my job and Jomaris' job was to look for a security company to  
23 come in and install cameras, change the locks on the door.

24 Q. What happened after that?

25 A. The only thing that they did was they just installed locks

G387MIR6

Leonard - direct

1 on the door.

2 Q. Did you have a conversation with the doctor?

3 A. Yes, after the day was over.

4 Q. What was that conversation?

5 A. Jomaris, Ms. Javier told me that the doctor wanted to speak  
6 to me. I proceeded into his office. He told me to sit down.  
7 I sat down. He told me that he wanted to hire me and how much  
8 I was going to get paid weekly.

9 Q. Did you ask the doctor to hire you?

10 A. No.

11 Q. Did he tell you why he wanted to hire you?

12 A. No, not really, no.

13 Q. How did you respond when he said he wanted to hire you?

14 A. I just told him thank you. I didn't respond no different.  
15 I just told him thank you.

16 Q. What specific -- did the doctor say anything about what  
17 your role would be at the office?

18 A. Yes.

19 Q. What did he say?

20 A. To make sure that the office was cleaned after each day, to  
21 runny errands and to help secure the office.

22 Q. Did he say anything about wanting you to work with Jomaris?

23 A. Yes.

24 Q. What did he say?

25 A. He also told me, he says I want you to sit back there with

G387MIR6

Leonard - direct

1 Jomaris and learn everything.

2 Q. Did he tell you how you have to dress to come into the  
3 office?

4 A. He also told me like I have to -- he also told me I have to  
5 wear a shirt and a tie every day.

6 Q. Did he tell you why?

7 A. To make the office look more presentable and myself look  
8 more presentable.

9 Q. Did he tell you how much he would pay you?

10 A. Yes.

11 Q. What did he tell you?

12 A. He told me 450 a week.

13 Q. Did he ask you whether you had any medical training?

14 A. No.

15 Q. Did he ask you what kind of job you had held before?

16 A. Yes.

17 Q. What did you tell him?

18 A. I just told him maintenance, and that was it.

19 Q. Did he ask if you would be willing to take classes?

20 A. No.

21 Q. Did you tell him that you were going to make the office  
22 more legitimate?

23 MR. MAZUREK: Objection. Leading.

24 THE COURT: Objection sustained. What did you say to  
25 him?

G387MIR6

Leonard - direct

1 Q. What if anything did you say to him, Mr. Leonard?

2 A. I didn't say nothing.

3 Q. Did there come a time when the individual you knew as Buck  
4 got fired?

5 A. Yes.

6 Q. Did you hear this conversation between the doctor and Buck?

7 MR. MAZUREK: Judge, asked and answered.

8 THE COURT: Overruled.

9 Q. You may answer.

10 A. Yes, that was the next week, Monday morning, when the  
11 doctor arrived to the clinic.

12 Q. What did you hear?

13 A. He asked Buck why was he here. And he told him that he was  
14 fired. And Buck didn't understand why he was fired, because  
15 initially he never got the memo from Jomaris Javier that he was  
16 fired.

17 MR. MAZUREK: Objection. Calls for speculation.

18 THE COURT: Objection sustained.

19 He was told he was fired. Next question.

20 Q. Did you hear anything else as part of that conversation?

21 A. To give up the keys.

22 Q. Anything else?

23 A. Also now this time in the office now, inside the clinic, in  
24 the doctor's office he told Buck, Buck asked him if I'm not  
25 going to be employed anymore, can I still come back as a

G387MIR6

Leonard - direct

1 patient. He told him yeah.

2 MS. CUCINELLA: Your Honor, we are moving on to a new  
3 topic. I don't know if you want to go much past 4:30.

4 THE COURT: I have a preliminary injunction hearing  
5 that I have to do this afternoon probably about 4:45. Rather  
6 than get into a new topic -- how much more do you have with  
7 this witness?

8 MS. CUCINELLA: About an hour.

9 THE COURT: Better we should stop now. Tomorrow  
10 morning 9:45. Don't discuss the case; keep an open mind.  
11 Thank you.

1 (Jury not present)

2 THE COURT: OK, so we will see you tomorrow.

3 THE WITNESS: Thank you.

4 MR. MAZUREK: Can we know the line-up for tomorrow?

5 THE COURT: I would like to know what the line-up is.

6 MS. CUCINELLA: Mr. Leonard is probably an hour or an  
7 hour and a half with him. Then we are have Tim Dewey from the  
8 Bureau of Narcotics Enforcement. Then we have an individual  
9 from Practice Fusion, which is the record-keeping system that  
10 the doctor had. Those two individuals have to go tomorrow  
11 because they are both in from out of town. And then after that  
12 we have Detective Beers and a paralegal from our office, and  
13 then our expert, and then Adrian Castro.

14 THE COURT: OK. So, I'm happy to interrupt this  
15 witness and do the two people who are coming in from out of  
16 town. I'm happy to finish this witness and then do the two  
17 people who are coming in from out of town as suits your  
18 pleasure.

19 MS. CUCINELLA: Thank you. We will talk with defense  
20 counsel. Thank you.

21 THE COURT: Great.
